

## CONGO RIVER SAFARI CRUISE BRAZZAVILLE TO OUESSO

Departing from Brazzaville city in the Republic of Congo, the city of Rumba, sappers and the Poto-Poto artistic school. You will embark on an extraordinary 12-night safari cruise on the Congo and Sangha rivers. For almost 1 000 km, we will navigate from the green hills to the swamp forests of the Sangha to reach the cathedral forests populated by thousands of gorillas, chimpanzees, forest elephants, Bongos, Buffalos and more than 350 species of birds. We launch our boat, we will go up tributaries that have been forgotten by all in search of the wonders of nature preserved out of sight. The peoples of the forest will be our guides. We will share their way of life and their unique knowledge transmitted for centuries. In the evening, in the calm of our comfortable ship, while sipping a glass of wine, we will address the major issues of preservation, the history of the Congo, the history of it's people.

### ITINERARY

Day 1 Brazzaville

Arrival in the city of Brazzaville in Republic of Congo, embarkation on the ship starts in the afternoon.

### Day 2: Brazzaville

Briefing at the breakfast. Visit of the City ( Poto Poto art school, Museum of Congo, cathedral). Navigation starts on the Congo river to Ngabe, one of the former capital of the Teke kingdom. We take advantage of the first miles to know our guides and discover the history of the Congo. Conference on the history of the Congo.

### Day 3: Brazzaville - Ngabe

In the morning, we reach the village of Ngabe, one of the ancient capitals of the Teke kingdom. We go up to the village and visit the current Queen Ngalifourou. As guardian of the "Nkwembali", the spiritual god of the Bateke, she is the person empowered to transfer power to the new king, the Makoko. He is a very influential person in the Teke kingdom, one of the powerful kingdoms of the country. We attend a traditional Teke dance. At the end of the day, we reach the estuary of the Lefini which borders the Teke kingdom. Hippos are lounging, we are watching. Conference on the Teke Kingdom.

### Day 4: Brazzaville - Mossaka

The Congo River widens considerably (more than 10 km) and a hodgepodge of islands is forming. Fishing villages settle there during the dry season. On the islands, we observe birds. We reach the fishing village of Mossaka, known throughout the country for its smoked fish. We discover vestiges of the colonial era, with the colonial house of Monsieur Trechot. Conference on

the Savorgnan de Brazza expedition and the Stanley expedition. We go up the Sangha River weaving through the green and impenetrable swamp forest. We enter very sparsely populated and wildest territories. We meet the Sangha-sangha people. Conference on the Congo Basin ecosystem.

### Day 5: Mossaka

We take the tributaries, either by kayak or motorboat. Further away is Lake Tele with its mysteries and legends. It is said that in the distance a dinosaur was seen: the Mokele Mbembe. In the rainforest, we discover the plants of pharmacology. With those who wish can we go fishing.

### Day 6: Mossaka - Pikounda

During the day, we cross the equator. This is the baptism of the Line! We reach at the end of the day the village of Pikounda. The Pygmies are one of the two peoples living in this region. They are among the last hunter-gatherer groups in the world. In the forest, in small groups, we share their daily lives: harvesting plant products, collecting medicinal plants, fishing. We share their millennial way of life and discover their incredible symbiosis with the forest. Dinner and evening in a clearing. The pygmies are with us. They tell the stories of their people and the stories born during their time together. With the help of mimes and songs, the stories live and the evening is forever anchored in the memories. The oral tradition of the pygmies is one of the most beautiful riches of this people.

### Day 7: Pikounda - Ndoki River

## The Small Cruise Ship Collection

[small-cruise-ships.com](http://small-cruise-ships.com)

[info@small-cruise-ships.com](mailto:info@small-cruise-ships.com)

In the morning, we go up a tributary of the Sangha for about fifteen kilometers, the Mangui. We walk along the northern border of Ntokou-Pikounda Park. This place is frequented by an endemic species that was thought to be extinct, the red colobus of Bouvier, a small monkey with orange coat. Along the way, we observe birds. At the end of the day, our ship reaches the Ndoki River, we observe hippos. Not far away, a pygmy village. Conference on pygmy populations facing modernism.

Day 8: Ndoki River - Bomassa,

In Pokola, we meet representatives of a forestry company who explain sustainable forest management. Then we go up the Sangha River slaloming between the sandbanks with caution. The depth decreases. Arrival in Bomassa, a village that marks the entrance to the Nouabale-Ndoki Park.

DAY 9-10-11

Immersion in the Sangha. Classified as a World Heritage Site since 2012, the National Tri of the Sangha is in the north-west of the Congo Basin, at the meeting point of Cameroon, Congo and the Central African Republic, the site includes three adjoining national parks, covering a total area of 750,000 hectares, affected very little by human activity. It covers the entire spectrum of tropical rainforest ecosystems. The rich fauna and flora include Nile crocodiles, goliath tigerfish & large predators. The clearings offer herbaceous species, the Sangha is home to considerable populations of forest elephants, as well

as western lowland gorillas and chimpanzees. To be as discreet as possible, our group will be divided into three subgroups. Three groups of 9 people will explore the Nouabale-Ndoki National Park. (Each group will make the excursions below but in a different order). Depart in the morning to join the scientific camp of Mondika in the Triangle of Djeke (1 hour by car, 2 hours of walking) to track the lowland gorillas. We will observe them from about ten meters away and they will observe us. The young bicker and the females feed, others rest, the silverback lurks. The largest measure up to 1.70 meters. In order not to disturb them, after an hour we will leave, with images in our heads. On the trail we can come across many other animals, we will be accompanied by baaka trackers. In the evening, we will spend the night in the camp near the scientists' camp and have plenty of time to ask questions. The night will be spent in safari tent with bed, shower and individual dry toilet. Departure at dawn for a 6-hour expedition to the Bai de Mbeli (40 minutes by car, 1 hour by canoe). In this clearing it is the gathering place of hundreds of animals, attracted by the mineral-rich waters. We discover from the top of a viewpoint the breathtaking spectacle of wildlife: lowland gorillas, forest elephants, chimpanzees, bush hogs, bongos, sitatungas and forest buffaloes. We will spend the morning there to observe the animals. The more adventurous can arrive the day before and spend the night.

Day 12: Bomassa - Ouessou

At the end of the afternoon, we leave Bomassa and sail to Ouessou.

Day 13: Bomassa - Ouessou

[small-cruise-ships.com](http://small-cruise-ships.com)

[info@small-cruise-ships.com](mailto:info@small-cruise-ships.com)

Disembarkation in the morning for 4-5h drive and an hour of jet towards Brazzaville.

Through the portholes, we see the canopy a view of one of the largest forests in the world will remain in our memory forever. We spend the afternoon in Brazzaville. Visit the market of traditional and handicrafts of the Plateau and meet La sape (Society of Ambianceurs and Elegant People).

Departure in the evening.

Please Note:

Itineraries may be subject to change due to weather conditions, low water levels, administrative constraints or access restrictions imposed by the State or national parks. Therefore, sailing times and excursions may be modified at the captain's discretion. We will do everything we can to minimize disruption to travel plans. An alternative route will be proposed after consultation between the captain of the ship and the management of the company if necessary. If the airline is unable to operate the flight Brazzaville - Ouessou or Ouessou - Brazzaville and in the absence of other reasonable air alternatives, the transfer may be provided by road.

### YOUR SHIP: RV DUCRET - CONGO

**YOUR SHIP:**

**RV Ducret - Congo**

**VESSEL TYPE:**

**LENGTH:**

**PASSENGER CAPACITY:**

**BUILT/REFURBISHED:**

The ship was built in a Belgian run shipyard in Kinshasa in 2017. It takes the form of the passenger ships that have for decades transported passengers on the Congo River and its tributaries between the different capitals of Central Africa. With a robust steel construction, she is powered by two new-generation 380 HP Caterpillar engines, thus reducing noise pollution and fuel consumption. Its draft of 90 centimeters allows it to navigate easily on shallow rivers. In 2022/2023, she was refitted to launch the first 4 safari cruises in the heart of one of the most mysterious forests in the world, the Congo Basin forest. Its renovation into a comfortable 4-star Boutique Hotel Ship launches a new era for the development of sustainable tourism in the Republic of Congo (Congo Brazzaville). In June 2023 she began the first cruises on the Congo and Sangha rivers, thus reviving the long tradition of river navigation in the Congo. ON BOARD LIVING AND SOCIAL AREAS :600 m<sup>2</sup> of common areas Dining room Indoor bar and lounge Outdoor lounge Outdoor jacuzzi Massage Room Observation Deck WORLD CLASS DINING PROGRAM A culinary experience nourished by African and European influences A menu specially prepared by a French Chef rewarded for his work with a Michelin
