on the conditions of the day. This sample itinerary is from Preservation Inlet ending in Doubtful Sound, Doubtful Sound to Preservation Inlet is in reverse. For private charters we will tailor your itinerary according to the interests of your group.

Days 2-5 Fiordland Cruise

We cruise around the inlets, and may do activities such as: View the rusting hulk of the wreck “Stella”, a steamship that purposely ran aground in the 1800s after damaging itself on a reef. Walk on the beach at South Port Cove and visit McCallum’s sawmill boiler. Walk up to Lake Cadman, via the falls in Lake Cove at the head of Edwardson Sound (20 minutes). Right beside Chalky Inlet is Preservation Inlet, separated by Broke-adrift Passage and Treble Mountain. In the 1890s, a gold rush occurred and mining towns sprang up at Cromarty and Te Oneroa, where tracks and old mining machinery can still be found. Possible activities include: Land at Krisbee Bay to view an old sawmill boiler at Cromarty. The gold mine itself is many kilometres into the hills. Land at Te Oneroa Beach and walk 10 minutes inland to the old Morning Star battery boiler, where you may be able to see the mine drives and even the remains of an aerial cableway. On the other side of the inlet is the site of the first whaling station in the South Island. Preservation Inlet also has some spectacular land features and viewpoints, including: Puysegur Point, where we land at the old oil store (now a DOC hut) and walk to the most isolated lighthouse in New Zealand. Spit Island, an island connected to the mainland by a beautiful sandspit at low tide. It was the site of two tragic Maori battles in the 1780s. Cascade basin, a magnificent waterfall that plunges into Long Sound. At some stage, depending on the weather, we leave Chalky Inlet to cruise up to In Dusky Sound where we’ll cruise amongst various islands, coves and

passages, visiting many historically significant sites such as Luncheon Cove, where we walk around predator-free Anchor Island (2.5 kilometres), a bird sanctuary near the mouth of the fiord. You may see the South Island saddleback and, occasionally, one of the 40 rare kakapo on the island. This track travels up to a small lake in the centre of the island. Anchor Point, where Captain Cook anchored HMS Resolution in 1773. Also Pickersgill Harbour where Cook moored off Astronomer Point for five weeks. Pigeon Island, where we walk up the DOC pathway to visit the site of the home of New Zealand’s first conservationist, Richard Henry, who tried to save the kakapo from extinction in the late 1800s. Here there is also an incredible viewpoint towards the entrance of Dusky Sound. We then cruise through the narrow channels of the Little Harbour to The Basin where you can go kayaking or explore Resolution Island on foot. There is also the possibility to launch the ROV to view black coral and marine life, giving you the unique opportunity to experience this remarkable place in a way that, until now, has been impossible

Day 6-7 Breaksea and Doubtful Sounds

We’ll start to head back north through Breaksea and Doubtful Sounds. At Doubtful Sound on Day 7, you’ll disembark and take a bus over Wilmot Pass, a boat over Lake Manapouri and return to Manapouri. Includes (weather permitting) activities such as: Kayaking Tender boat excursions Walking Launching the ROV to view underwater marine life Some fishing
