Day 2 MARIA ISLAND, TASMANIA

Located off Tasmania's east coast, Maria Island is a natural wildlife sanctuary and off-shore retreat with historic ruins, sweeping bays, dramatic cliffs and plenty of stories to tell. Originally inhabited by the indigenous Tyreddeme people, it has also been a whaling and sealing post, penal settlement and an Italian pleasure resort, and is also one of Tasmania's great bird watching hot spots, home to the endangered forty-spotted pardalote and the rare and unique Cape Barren goose. Grasslands, open forest and tall wood land also provide a home for abundant wildlife including wombats, pademelons, Forester Kangaroos and Bennetts wallabies. Join members of your expedition team for a guided walk on one of several trails on offer. If time and weather permit we will explore the shoreline with our fleet of Zodiac®.

Day 3 TASMAN PENINSULA

The Tasman and Forestier peninsulas lie in the far south-east of Tasmania, linked to the rest of the island by a short bridge over a dredged canal. Established in 1999, The Tasman National Park protects the eastern and southern coastal regions of both peninsulas. The park's varied coastline and offshore islands provide abundant habitats for Australian fur seals, little penguins, whales and dolphins flourish in the rich waters. However the park's greatest features are on land, with spectacular woodlands and forests and Australia's highest sea cliffs. Striking dolerite spires rise from the Tasman Sea,

culminating in capes Hauy, Pillar, and Raoul. Enjoy a refreshing swim in the pristine waters of Fortescue Bay, or join your expedition team for a guided walk to enjoy the spectacular view from Cape Huay. If time and weather permit we will also explore the shoreline from our fleet of Zodiac®.

Day 4 PORT DAVEY, TASMANIA

The Tasmanian Wilderness World Heritage Area is one of the largest conservation areas in Australia and one of the last expanses of temperate wilderness in the world. Located at the heart of the World Heritage Area, the Port Davey Marine Reserve is a unique protected waterway featuring a layer of rich red-brown tannin freshwater overlaying the tidal saltwater from the Southern Ocean. Port Davey is only accessible by foot, boat or light aircraft, preserving the pristine natural environment that is characterised by rugged coastlines with blowholes, caves and dramatic rock formations home to wildlife that includes the little blue penguin and Australian fur seal. If weather permits, guests will have the opportunity to explore the coastal environments and view the wildlife from our fleet of Zodiac®.

The Nature Reserve is home to several breeding seabird species including little penguin, short-tailed shearwater, fairy prion and common diving-petrel.
