THE GEOGRAPHIC NORTH POLE & SCORESBY SOUND

Cruise in partnership with Le Cercle Polaire, as part of the Women at the Poles operation with featured guest Laurent Mayet, president and founder of the Cercle Polaire think tank. Push the boundaries of navigation and set sail for 90 degrees North! During this exceptional polar exploration, you will go in search of the mythical Geographic North Pole. Head slowly up through the desert landscapes of the constantly changing ice floe. Your odyssey will continue as you travel down along Greenland, amidst the ice of the Transpolar Drift. Between majestic fjords and encounters with the Inuit culture, the region of Ittoqqortoormiit is rich in rare treasures holding inestimable value. Aboard Le Commandant Charcot, the only cruise ship able to rise to this challenge, you will make your way towards the North Pole, which is inaccessible to traditional ships. A slow and humble journey awaits you in the heart of a silent world frozen by the extreme cold. You will sail among different states and forms of ice and will be able to admire, from the reassuring cocoon of the ship, the endless show of the light as it reflects on the opalescent landscapes. Following in the wake of Frederick Cook, Robert Edwin Peary or Roald Amundsen, who were among the many to fight to achieve this elusive goal, you will be part of the few chosen ones to dare the adventure, 700 km (435 miles) from any land. And in their footsteps, you will attempt to reach the Holy Grail of all polar explorers: the North Pole! Sailing back down from the Pole, your odyssey will follow the ice floes along Greenland. You will reach the region of Ittoqqortoormiit, on the East coast. The eponymous village is located at the entrance to Scoresby Sound, the world's largest network of fjords. You will discover the village customs during privileged exchanges mixed

with joyful and authentic moments. Inuit hospitality is no myth, it is given in the warmth of a look or an exchanged smile. Amidst these extreme and isolated panoramas, the polar adventure reserves unsuspected emotions for the humble and patient explorer, one who is conscious of their

privilege.

ITINERARY

Day 1 LONGYEARBYEN, SPITSBERGEN

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the

northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

Day 2 AT SEA ALONG SPITSBERGEN

The largest island in the Svalbard archipelago, its name meaning "pointed mountains" in German, Spitsbergen is the last piece of land before the Arctic ice floe. Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between millennial glaciers and rugged mountains, you will discover a jagged coastline, hollowed-out by fjords. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

Days 3 - 7 NAVIGATING THROUGH THE SEA ICE

Enjoy the absolutely unique experience of sailing to the heart of the ice floe, this vast expanse of virgin, immaculate ice. The landscapes are constantly changing, shifting from a smooth, flat wilderness to a chaos of ice, then to channels of open water. Your ship will sail along these naturally open channels and through the areas where the frozen layer is thinnest, offering you the chance to experience magic maritime moments in the midst of drifting sea ice. It will also often be an opportunity to see a particular kind of fauna, totally dependent on the ice floe.

Day 8 GEOGRAPHIC NORTH POLE

Defined by a 90° North latitude, the Geographic North Pole lies on the Earth's rotational axis, at the intersection of all meridians. Plunged into darkness for six months of the year, then lit by the sun for the following six months, this mythical site, permanently covered in ice and remote from any land, has fascinated generations of explorers. So far, only a very few people have ever reached it: an exploit which is now accessible to you aboard Le Commandant Charcot.

Days 9 - 10 NAVIGATING THROUGH THE SEA ICE

Enjoy the absolutely unique experience of sailing to the heart of the ice floe, this vast expanse of virgin, immaculate ice. The landscapes are constantly changing, shifting from a smooth, flat wilderness to a chaos of ice, then to channels of open water. Your ship will sail along these naturally open channels and through the areas where the frozen layer is thinnest, offering you the chance to experience magic maritime moments in the midst of drifting sea ice. It will also often be an opportunity to see a particular kind of fauna, totally dependent on the ice floe.

Day 11 AT SEA ABOARD LE COMMANDANT CHARCOT

Spend exceptional moments sailing aboard Le Commandant Charcot, the world's first luxury polar exploration vessel and the first PC2-class polar cruise ship capable of sailing into the very heart of the ice, on seas and oceans which the frozen conditions render inaccessible to ordinary ships. Le Commandant Charcot

is fitted with oceanographic and scientific equipment selected by a committee of experts. Take advantage of the on-board lectures and opportunities for discussion with these specialists to learn more about the poles. Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Day 12 SAILING ICE FLOES ALONG GREENLAND

The north-east of Greenland is renowned for being home to one of the oldest and thickest layers of ice on the planet. Aboard your ship, you will have the unique opportunity of sailing to the heart of this icy wilderness, many thousands of years old, and will travel along one of the world's most isolated coasts, between drifting ice and blue icebergs.

Day 13 SCORESBY SOUND

Covering an area of 13,700 km² (5,290 mi²), Scoresby Sound is the largest and deepest fjord system in the world. Named after the explorer and whale hunter William Scoresby, who mapped the region in 1822, it opens onto the Greenland Sea to the north of the Blosseville Coast. This wild and desert region offers untouched panoramas of infinite beauty, with high snow-capped peaks rising tall alongside icebergs immersed in clear, blue-tinged waters. Rode Fjord and its cliffs coloured red by iron ore provide a fascinating setting you will not want to miss. Discovering these stunning places in the wake of great explorers like Captain Charcot, who was deeply attached to the land of the Inuit, inspires a profound reverence.

Day 14 ITTOQQORTOORMIIT REGION

On the East coast of Greenland, in the Ittoqqortoormiit region, you will have the rare opportunity of immersing yourself in the heart of isolated scenery and exploring the beauty of its landscapes. The high alpine mountains stand out in the sky, revealing dark rock edges. The region is home to the longest fjord system in the world, Scoresby Sound. On the edge of the fjord, the eponymous village is considered one of the most remote inhabited places in the world. The colourful houses, so typical of Greenland, dot the landscape with small red, yellow and blue patches that stand out against the surrounding arid landscape. Immersing yourself in this region will allow you to discover the ancestral way of life of the last hunters of the polar region. This will be a veritable deep-dive into the lives of the Arctic's inhabitants.

Day 15 AT SEA ABOARD LE COMMANDANT CHARCOT

Spend exceptional moments sailing aboard Le Commandant Charcot, the world's first luxury polar exploration vessel and the first PC2-class polar cruise ship capable of sailing into the very heart of the ice, on seas and oceans which the frozen conditions render inaccessible to ordinary ships. Le Commandant Charcot is fitted with oceanographic and scientific equipment selected by a committee of experts. Take advantage of the on-board lectures and opportunities for discussion with these specialists to learn more about the poles. Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Day 16 SAILING THROUGH THE DENMARK STRAIT

Lying between Greenland and Iceland, the Denmark Strait was crossed for the first time by the Vikings in the late 10th century, during Erik the Red's expeditions. In the Second World War, its waters were the theatre of a battle between the Kriegsmarine and the Royal Navy, on 24 May 1941. In the wintertime, extremely dense pack ice forms along the Greenlandic coasts and, while the Transpolar Drift sweeps icebergs along throughout the year, the strait is generally clear of ice during the summer. In the depths of the strait lies the world's largest waterfall, an undersea cataract formed by the difference in temperature between the cold waters of the Greenland Sea and the warmer waters of the Irminger Sea. Numerous cetacean species thrive in this rich ecosystem.

Day 17 REYKJAVÍK

Iceland's capital stretches along the edge of a vast bay in the west of the country. Perlan, the "Pearl of Reykjavik", a museum located on 'Oskjuhlíð hill, offers a panoramic view of the lush, green landscapes. A little further, one can easily spot the signpost showing the way to the evangelical Hallgrímskirkja church, and to the historical centre where one can stroll along the Skólavordustigur and the Laugavegur, two lively streets with charming small shops. For some relaxation just outside of the city, visitors have the opportunity to visit the Reykjanes peninsula and its famous thermal lagoons of the Blue Lagoon.

Please Note:

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Our navigation, mainly in the fjords, will be determined by the type of ice we come across; as the coastal ice must be preserved, we will take this into account from day to day in our itineraries. The sailing programme, outings, activities and observation of fauna cannot be guaranteed and are subject to weather and ice conditions. The experiences are unique and vary from day to day and for each departure. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while respecting safety instructions and regulations imposed by the AECO.

YOUR SHIP: LE COMMANDANT-CHARCOT

YOUR SHIP:

Le Commandant-Charcot

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

With its hybrid propulsion combining liquefied natural gas (LNG) and electric generators, Le Commandant-Charcot has been designed to minimise the environmental impact of travel to the furthest latitudes. The decoration of the ship, designed by two internationally renowned design and architecture firms - the studio of Jean-Philippe Nuel and Wilmotte & Associes - is designed to be in harmony with the environment. The approach is contemporary with the desire to create a warm and elegant setting; stone, wood and leather recall the natural environment in which the ship is sailing. Equipped with just 135 staterooms including 31 suites with balconies and outside views, Le Commandant-Charcot welcomes you in an intimate and refined atmosphere. Outstanding gastronomy in the two restaurants, relaxation in the indoor pool surrounded by its winter garden, relaxation in the well-being area with sauna and Snow Room... Like on a private yacht, each of our guests is unique. **PUBLIC AREAS** Le Commandant-Charcot has many common areas that are designed and equipped to meet all of your needs while preserving the intimacy of each passenger. A 177 m² reception area includes: A reception/concierge desk, An expeditions desk, The ship's administrative services, The sales office, manned by

our Hospitality & Travel Manager officer, Our boutique which sells clothing, jewellery, beauty products, postcards and various accessories, The image & photo desk. The different lounges include a 302 m² main lounge including a 28 m² cigar lounge, a tea corner and a bar, with live music on selected evenings, A 400 m² panoramic bar and lounge, An open-air Bar. The recreation spaces Fitness & Beauty Corner: Fitness room: Elliptic, running machines, bicycles... Beauty Corner: Hairdresser, Massage rooms, Sauna, Snow Room, Nail Shop. Pool area: Indoor Pool and winter garden - Outdoor Pool Theatre: Capacity: 270-276 - Main show room for conferences and live entertainment on selected evenings - State-of-the-art audio and video technology. Leisure area: Public areas - Library - Medical centre. 16

Zodiacs on board.
