KYUSHU'S SECRET ISLANDS AND ANCESTRAL HERITAGE

From the rias of Nagasaki Prefecture to the captivating coast of Kagoshima, the western part of the island of Kyushu is both surprising and captivating. During a brand-new 8-day expedition cruise aboard Le Jacques-Cartier, PONANT invites you to discover an unsuspected side of Japan, combining enchanting nature and unexpected Christian heritage, at the intersection of Western and Japanese traditions. Departing from Kagoshima, a bustling city nestling between ancient forests and majestic volcanoes, Le Jacques-Cartier will set a southward course to reach the captivating, mountainous island of Yakushima, listed as World Heritage by UNESCO. Providing an unspoiled natural setting for endemic species such as the Yakushima monkey and deer, the island is home to an exceptional natural environment featuring forests of ancient cedars, bewitching waterfalls, and majestic peaks. Your trip will continue in the Koshikijima Islands. Aboard one of our inflatable dinghies, admire the raw and authentic beauty composed of monumental cliffs and huge rock formations dating back to the Cretaceous period nearly 80 million years ago. You will be captivated by these landscapes unlike any other. Between the Yatsushiro and Ariake seas, off the coast of Nagasaki, succumb to the charms of the island region of Amakusa, once the refuge of Christians fleeing the ban on Catholicism in the 17th century during the Edo period. In Sakitsu, you will have the privilege of immersing yourself in this ancestral heritage, particularly as you visit the emblematic UNESCO-listed church. Christian heritage can also be found further north, in the Goto Islands, on Kamigoto Island. Here, each small town bears traces of this influence that is still very much present, as evidenced by the many religious buildings

dotting Kamigoto. Further north, between South Korea and Fukuoka Prefecture, in the Tsushima Strait, a little-known island called Iki will reveal itself to you in a glorious setting of rock faces with verdant summits and heavenly beaches of fine sand. Considered one of the cradles of Shinto, the island boasts no fewer than 150 shrines scattered across these sacred and unspoiled lands. Le Jacques-Cartier will sail westward to the volcanic island of Jeju in South Korea. Dominated by the majestic silhouette of the Hallasan volcano, the country's tallest peak, this nature sanctuary reveals its most beautiful treasures: steep cliffs with emerald and ashen reflections, monumental waterfalls, bewitching virgin forests, long stretches of tea plantations, and more. For the grand finale, your cruise will end in Fukuoka, a modern city with a rich cultural and

historical heritage.

ITINERARY

Day 1 KAGOSHIMA

The seaside city of Kagoshima, at the south of Kyushu Island, is best known for Sakurajima, an active volcano that faces Kinko Bay. A visit to this busy metropolis will remind you just how much the volcano is part of the inhabitants' everyday life: in the wake of the almost daily eruptions, a delicate layer of ash settles on everything. The top of a buried torii (traditional Japanese gate) measuring three metres that was 'swallowed up' by a giant lava flow in 1914 can still be seen. The power of nature will send a shiver down your spine.

Day 2 YAKUSHIMA

A splendid sub-tropical, mountainous island listed by UNESCO as a World Heritage site, Yakushima is one of the most beautiful islands in the Japanese archipelago. Its extensive yakusugi forest contains some of Japan's oldest living trees – cedars that are over 1000 metres tall and up to 7,000 years old. The Senpiro and Toroki waterfalls, each one several dozens of metres high, are equally impressive. A feast for the eyes.

Day 3 KOSHIKIJIMA ISLANDS

Off the western coastlines of Kagoshima Prefecture, the rocky and green islets called the Koshikijima Islands rise like a mirage from the East China Sea. Aboard our Zodiac dinghies, you will

reach the three islands that make up the archipelago: Kamikoshikishima, Nakakoshikishima and Shimokoshikishima. You will be captivated by the raw and authentic beauty of this environment, featuring monumental cliffs and huge rock formations that date back to the Cretaceous period or nearly 80 million years. During hikes, you will be lucky enough to discover these unique and striking landscapes. An interlude where time may stand still.

Day 4 AMAKUSA REGION

Facing the mythical island of Kyushu, between the Yatsushiro and Ariake seas, the island region of Amakusa both surprises and captivates. Composed of some one hundred verdant islets surrounded by stunning seabeds, the Japanese archipelago was once a refuge for many Christians fleeing the ban on Catholicism in the 17th century during the Edo period. Christian heritage can be found in every village in the region. In Sakitsu, a charming fishing port, immerse yourself in this Christian heritage, particularly when you visit the emblematic church listed as a UNESCO World Heritage Site.

Day 5 KAMIGOTO

Representing a little-known, distant, almost abandoned Japan at the western tip of the island of Kyushu, to the west of the China Sea, Kamigoto Island recounts the unexpected history of the Empire of the Rising Sun. A refuge for Christians fleeing the prohibition of practising their Catholic faith in the 17th century under the Edo era, each village bears traces of this influence that is still very much present, as evidenced by the many

religious buildings dotting the island. Famous for its lush and preserved nature, featuring tropical forests and jagged shores, Kamigoto boasts natural treasures such as Hamaguri beach, an aquatic paradise of fine sand surrounded by turquoise waters and encircled by bewitching green peaks.

Day 6 IKI ISLAND

A lush islet between Fukuoka Bay and the captivating island of Tsushima, Iki is a real paradise on earth. Fall under the spell of this natural and mineral beauty composed of rock faces covered with a verdant coat, small heavenly beaches and granite cliffs in hues of ochre. In addition to showing you its exceptional environment, this timeless journey will take you to discover traditional Japan. Considered one of the cradles of Shintoism, the island boasts no fewer than 150 shrines scattered across these sacred and unspoiled lands.

Day 7 JEJU

Jeju is an island like no other. Anchored off the South Korean coastlines, this volcanic island will provide you with a natural spectacle of magical beauty. Dominated by the majestic silhouette of the Hallasan volcano, the country's tallest peak, this nature sanctuary with its thousand and one geological riches reveals its most beautiful treasures, with volcanic cones spread all over the island, steep cliffs with emerald and ashen reflections, monumental waterfalls, bewitching virgin forests, long stretches of tea plantations and lava tubes that are some of the longest in the world.

Day 8 FUKUOKA

At the northern tip of the subtropical island of Kyushu, Fukuoka stands proudly at the centre of a veritable natural setting, between lush mountains and the crystal-clear and calm waters of Hakata Bay. A modern city and high-tech hub, which has earned it the nickname of the Japanese "Silicon Valley" in particular, the seventh town in Japan stands out for its rich cultural and historical heritage. Promoted as one of the nerve centres of maritime trade from the 15th century onward, it experienced long decades of prosperity. A period of splendour which, among other things, saw the construction of many spiritual buildings, including the Sumiyoshi-jinja shrine and the Tochoji temple, as well as its emblematic Maizuru Castle, erected in the 17th century.
