

NINGALOO & THE BLUEWATER WONDERS OF AUSTRALIA'S WEST

Join our 10-night discovery of Western Australia's Coral coast onboard Coral Discoverer, and explore the extraordinary marine environment, historic islands, and striking coastline. Departing Broome, we will visit the spectacular Rowley Shoals Marine Park, the Dampier Archipelago and the Montebello Islands. Our voyage will culminate with a visit to Ningaloo Reef, home to vibrant marine life both large and small. Our marine experts and guides will lead our discovery of the untouched atolls, mega marine fauna and rare bird species that are found in this pristine coastal habitat.

ITINERARY

Please note:

The below itinerary is indicative. No two cruises with Coral Expeditions will be the same, with each expedition crafted by our experienced Masters and Expedition Leaders. Throughout the expedition we may make changes to the itinerary as necessary to maximise your expeditionary experience. Allowances may be made for seasonal variations, weather, tidal conditions and any other event that may affect the operation of the vessel. Coral Expeditions suggests that you do not arrive on the day of embarkation or depart on the day of disembarkation due to any changes that may occur in scheduling.

ROWLEY SHOALS

At the edge of the continental shelf, 170 nautical miles offshore, lie the Rowley Shoals, a chain of 3 coral atolls including Clerke,

small-cruise-ships.com

info@small-cruise-ships.com

Mermaid and Imperieuse Reefs. The shoals, named by Captain Phillip Parker King, offer some of the best snorkelling and diving opportunities in the world. Their shallow lagoons are inhabited by myriad coral species and marine life, including giant potato cod, Maori wrasse, at least 233 species of coral and 688 species of fish – many of which are not found on other coral reefs. Diving along the outside edge of the shoals one can view colourful soft corals, hammerheads and pelagic fish. Water clarity here is absolutely unparalleled, making for superb underwater photography opportunities. Conditions permitting, we will spend 1-2 days at Clerke and perhaps Mermaid or Imperieuse reefs, with ample time for snorkelling and diving opportunities. With each atoll covering approximately 90 sq km, there will be plenty to see! Guided by our on-board marine biologist, snorkel away the day in the coral gardens of the Aquarium at Clerke Reef, or dive along the sheer vertical walls and through coral canyons. Try a drift snorkel in the channel, or beach comb on Bedwell Island, keeping an eye out for the red-tailed tropicbird that roosts there.

MONTEBELLO ISLANDS

The Montebello Islands or 'Montes' are an archipelago of more than 250 limestone islands and islets off the coast of the Pilbara. A twitcher's delight, the islands are considered an Important Bird Area, as they support over 1% of the world populations of fairy and roseate terns, as well as sooty oystercatchers. The islands also have a fascinating maritime history. The survivors of the Dutch vessel Trial swam here after their ship was wrecked in 1622, being the first Europeans to land on the islands. The Montes have an 'explosive' past – Alpha and Trimouille Islands were the site of three British atomic weapons tests in the 1950s. Relics of the military operation can

still be found on the islands today. Spend a full day exploring this island group, with wildlife spotting opportunities and many beautiful beaches to swim at. We saw many rufous hare-wallabies and lagoon stingrays on our recent trip here.

MUIRON ISLANDS

Located approximately 10 nautical miles off the North West Cape, the waters surrounding the uninhabited Muiron Islands are teeming with marine life. A variety of dive sites are on offer, including swim-throughs and ledges where nudibranchs, eels and angelfish hide. With fantastic bommies and protected reef, snorkellers will appreciate the variety of soft corals and gorgonians as well the incredible fish life. After in-water activities, stretch your legs on a stroll down the beach on these untouched islands.

DAMPIER ARCHIPELAGO

Consisting of 42 islands and islets, 25 of which are nature reserves, the iron red islands of the Dampier Archipelago stand in bright contrast to the turquoise waters which surround them. Bottlenose dolphins are regularly seen in the area and the archipelago supports the largest Hawksbill turtle rookery in the Indo-Pacific region. Birdwatchers will have the opportunity to see several species of migratory waders as well as sea eagles and ospreys. With luck we may even see the elusive Rothschild's rock wallaby. The archipelago not only offers exceptional natural beauty but significant sites for Aboriginal and European Heritage, many of which are in National Heritage Listed Areas. Named for English Explorer William Dampier who first visited the islands aboard the Cygnet in 1699, the islands' earliest inhabitants were the Yaburara people, as is evidenced by thousands of rock engravings, shell middens and stone arrangements scattered across the area. With our onboard

naturalist and historian, explore the archipelago's pastoral, pearling and cultural past that is still visible today in the form of ruins and petroglyphs. Learn about the tragic Flying Foam Massacre(s) of 1865, in which an entire tribe, language and people were all but exterminated. There will be ample opportunity to explore the area's historical and cultural sites before taking to the azure waters for snorkelling, kayaking and diving.

NINGALOO COAST AND REEF

The World Heritage listed Ningaloo Reef is the turquoise jewel in the crown of the Western Australian coastline. Spanning over 5000 square kilometres, this is one of the largest fringing reefs in the world. It's inner and outer reefs create a diverse range of habitats for vibrant corals and more than 500 species of fish. This is also where mega marine life come to feed during their migrations, including humpback whales, giant manta rays, and the majestic whale shark. It is also a coastline with a fascinating heritage, where lonely whalers battled it out against the elements. We will spend 2-3 days here exploring this stunning coastline from Exmouth to Coral Bay and its underwater playground. Snorkel and dive the outer reefs and relax on stunning beaches such as Turquoise Bay, and learn about WA's interesting heritage at the ruins of the Norwegian Bay whaling station. As we cruise the 'Humpback Highway' down the coast, have the opportunity to watch these majestic whales breach close by. Spend a day with an experienced local operator, with the chance to swim with some of the mega fauna this region is known for (these encounters are subject to nature and cannot be guaranteed).

YOUR SHIP: CORAL DISCOVERER

YOUR SHIP: Coral Discoverer

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

Yacht-like Coral Discoverer set a new benchmark standard of sophistication in expedition cruising when she was constructed by us in 2005. Coral Discoverer sailed on pioneering expeditions through Papua New Guinea, the islands of the South Pacific, Vanuatu, New Zealand, West Papua, and the Spice Islands. She led explorations into remote areas, focusing on destinations that were largely inaccessible to larger cruise ships. Coral Discoverer is exceptionally nimble and maneuverable, with a shallow draught to get up close to destinations, ocean views from all public spaces, an expansive open-air sun deck, all outside-facing staterooms, and state-of-the-art tools for exploration including the Xplorer, zodiacs, a glass-bottom boat, and kayaks. A full refurbishment in 2018 saw the addition of private balconies, the much-loved Xplorer sundeck bar, and all new furnishings throughout the ship. Comfortable, reliable, and intimately scaled, Coral Discoverer now conducts expeditions across Australia's coast - Tasmania, Cape York and Arnhem Land and the Kimberley. Australian flagged and staffed by an Australian and New Zealand crew, your experience aboard Coral Discoverer will be memorable. Onboard Accommodation Onboard accommodation comprises 36 spacious modern

staterooms. You can select from Bridge, Promenade or Main Deck staterooms offering a choice of twin through to junior king-size doubles. All staterooms have an ocean view, en-suite facilities, settee, large wardrobe, desk, luggage storage, individual air-conditioning control, and are serviced daily. Onboard Facilities What you would expect of a much larger cruise ship: Large sundeck Spa Pool Guest computer Comprehensive reference library Phone and fax facilities Lecture lounge with large plasma screen Limited laundry facilities Two fully stocked cocktail bars Boutique and dive shop Air-conditioned public areas Coral Discoverer is equipped with the latest technology active stabilizers and is fitted with state-of-the-art safety and navigational equipment and is the only Australian passenger ship registered with full SOLAS compliance allowing opportunities to explore a multitude of international voyages. Dining All meals during the cruise are included. Breakfast and lunch are served in the Dining Room located on the Main Deck and are buffet-style while dinner is table d'hote. Coffee and tea is available 24 hours. Standard hours are breakfast from 7:00-8:30am, lunch at 12:30pm and dinner at 7:30pm however meal times may vary according to the day's activities. Meal times will be advised in the onboard daily bulletins. Excursion Boats And Zodiacs The "Xplorer" is a specially designed aluminium excursion vessel used for the majority of our excursions. This vessel has high horsepower engines and will accommodate all passengers at one time. The "Xplorer" will be used for landings and for extensive exploration of rivers and tributaries. For your added convenience and comfort, the "Xplorer" is equipped with an awning and toilet. We

also carry two inflatable landing craft (Zodiacs). Designed for expedition work, these large and heavy-duty inflatables are extremely safe. Separate air compartments retain a large reserve of buoyancy even if the boats damaged. The flat bottom design permits these crafts to land directly onto the beaches. Expect nonetheless to wade through shallow water to reach the shore. See photo
