

ROWLEY SHOALS & KIMBERLEY COAST - AUSTRALIA LUXURY CRUISE

Discover the Rowley Shoals, located 260 kilometres west of Broome in the Timor Sea, regarded as one of the world's most spectacular diving and snorkelling locations. The three coral atolls of Mermaid, Clerke and Imperieuse Reefs rise, near vertical, from the surrounding crystal-clear waters on the edge of the continental shelf. Each atoll is approximately 80 to 90 square kilometres in size and contain shallow lagoons inhabited by a diverse array of corals and abundant marine life, ideal for exploration by snorkelers and scuba divers. The 13,000km of remote isolated Kimberley coastline boasts more than 2,600 islands and is home to the oldest continuous culture on earth, the world's largest living reptile, the only two 'Horizontal Falls' on the planet, the world's largest inshore reef, extensive undisturbed mangrove forests, wild rivers, important seabird and marine turtle breeding colonies and the largest population of migrating humpback whales on the planet. It is a national biodiversity hotspot and listed in the top 3.7% of least impacted marine environments worldwide.

ITINERARY

DAY 1 Embarkation | Broome, Western Australia

Often referred to as the pearl of North West Australia, Broome is Western Australia's coastal gateway to the magnificent wilderness region of the Kimberley. It's also home to the world-famous white sands of Cable Beach, making it one of the State's most popular holiday destinations. Situated 2,240 km (1,390 mi) north of Perth with a permanent population estimated at 14,436, growing to over 45,000 per month during

the tourist season.

DAYS 7-8 Collier Bay & Camden Sound

PASPALEY PEARL will be alongside the wharf in Broome.

DAYS 2-5 Rowley Shoals

Regarded as one of the world's most spectacular diving and snorkelling locations, the Rowley Shoals lie 260 kilometres west of Broome in the Timor Sea. The three coral atolls of Mermaid, Clerke and Imperieuse Reefs rise, near vertical, from the surrounding crystal clear waters on the edge of the continental shelf. Each atoll is approximately 80 to 90 square kilometres in size and contain shallow lagoons inhabited by a diverse array of corals and abundant marine life, ideal for exploration by snorkelers and scuba divers. To take full advantage of the location, PASPALEY PEARL will spend three and a half days at the Rowley shoals.

DAY 6 Sea Day

A day spent at sea provides an ideal opportunity for contemplation, allowing you to reminisce about the extraordinary moments shared with fellow adventurers. Take a moment for yourself to savour the rare tranquillity of the open sea and connect with your expedition team to discover exciting upcoming adventures on the horizon.

Located in one of the remotest regions of Australia, with no road access and the nearest town over 250 kilometres away, the stunningly rugged Collier Bay and Camden Sound are home to the second largest tides in the world. This ebb and flow of the tide has shaped the ancient landscape into a breathtaking vista and created unique tidal phenomena such as Horizontal Falls (Garaanngaddim). The region is of cultural significance to the Dambeemangarddee, a saltwater people who have been living along the coast for many thousands of years. Their culture and connection to the environment has evolved with an inherent association to these tidal movements. The rich marine environment is also home to the world's largest inshore reef system, Montgomery Reef (Yowjab) and each year the world's largest population of migrating humpback whales visit the region.

The region is best known for the iconic destinations of Horizontal Falls (Garaanngaddim), Montgomery Reef (Yowjab), Raft Point (Ngumbree) and Freshwater Cove (Wijingarra Bard Bard).

There are many other destinations inaccessible to larger vessels including Sampson Inlet, Hall Point, Red Cone Creek, Sapphire Falls, Ruby Falls, Sale River, Walcott Inlet, Prior Point and Langgi.

DAY 9 The Lacepede Islands

Itineraries are subject to change.

The Lacepede Islands are Western Australia's most important breeding habitat for Green Turtles (*Chelonia mydas*), and have been named by BirdLife International as an Important Bird Area (IBA). The breeding colony of Brown Boobies is possibly the largest in the world. Up to 20,000 Roseate Terns have also been recorded here. Other birds breeding on the islands include Masked Boobies, Australian Pelicans, Lesser Frigatebirds, Eastern Reef Egrets, Silver Gulls, Crested, Bridled and Lesser Crested Terns, Common Noddies, Pied and Sooty Oystercatchers. Join your expedition team for a guided zodiac tour to view the prolific wildlife.

DAY 10 Disembarkation | Broome, Western Australia

Often referred to as the pearl of North West Australia, Broome is Western Australia's coastal gateway to the magnificent wilderness region of the Kimberley. It's also home to the world-famous white sands of Cable Beach, making it one of the State's most popular holiday destinations. Situated 2,240 km (1,390 mi) north of Perth with a permanent population estimated at 14,436, growing to over 45,000 per month during the tourist season.

PASPALEY PEARL will be alongside the wharf in Broome.
