Days 0 - 2 - Pre Cruise & King George Island

**Pre Cruise Benefits - Hotel, Charter flights, Charter flights**

King George Island is the largest of the South Shetland Islands and the closest thing Antarctica has to a gateway. With an airport, more than ten international research stations, and a permanent Russian Orthodox church, it sits just 120 kilometers from the Antarctic Peninsula: the threshold between the familiar world and one defined entirely by ice, wind, and wildlife. Adelie, Chinstrap, and Gentoo Penguins commute between the island and the peninsula; Weddell and leopard seals haul out along the shore. A cruise stop that marks the true beginning of the deep south.

Day 3 - Antarctic Peninsula

The Antarctic Peninsula unravels upwards towards South America, reaching out a beckoning finger to the adventurous, who dare to explore this untamed realm. Witness cathedral-sized icebergs up close, and blue-hued glaciers, slowly slipping from imposing locations like Hope Bay. Stretching up from the heart of the world's southernmost continent, the Antarctic Peninsula lies a mere 620 miles from Tierra del Fuego and, for many, with luxury Antarctic, unique landscapes, and wildlife adding further depth to the experience, giving the call a strong sense of place.

Day 6 - Antarctic Sound

Antarctic Sound is a compelling stop where few voyages ignite the imagination like a journey down to one of the planet's most remote, extreme, and enchanting wilderness, Antarctica. An adventure in its purest form, only a handful of people will ever be lucky enough to experience the majestic beauty of these monochrome landscapes first-hand. Watch on, as colonies of Gentoo penguins hop around, and cape petrels sweep overhead, as the continent's unique wildlife thrives around you, with luxury Antarctic cruise, extraordinary birdlife, and ice shelf adding further depth to the experience, giving.

Day 7 - Elephant Island

Elephant Island is one of Antarctica's most storied outposts, a bleakly beautiful volcanic island forever linked to Ernest Shackleton's extraordinary survival saga. Its dark cliffs, glaciers, and storm-lashed shores convey the harsh grandeur of the Southern Ocean, while elephant seals and seabirds underscore the island's wild isolation. To see it is to encounter both Antarctic history and raw nature at once: an austere, unforgettable landmark at the edge of the world, making the destination feel both refined and memorable.

Day 8 - Day at sea

Days at sea are the perfect opportunity to relax, unwind, and pursue personal interests, whether visiting the gym, the spa, or simply watching for whales from deck. These blue sea days offer an ideal balance to busy days spent exploring ashore.
