16 DAYS LUXURY TRANSOCEANIC CRUISE - TOKYO TO SEWARD

Travel from Tokyo to Alaska on this voyage of cultural contrasts, and ultra-relaxing days at sea. Experience "deep Japan" in Miyako, Iwate, which has the most beautiful shoreline in the county. Hidden gem Aomori is blessed with breathtaking nature, while views of the shining city of Hakodate dazzle at night. Delight in Kodiak, which is a natural paradise, before setting sail for the Last Frontier and the rich history of Valdez, then arrival.

ITINERARY

Day 1 Tokyo, Japan

Dense and delightful, there's nowhere else like Japan's kinetic capital - a city where ancient traditions blend seamlessly with a relentless pursuit for the future's sharpest edge. See the city from above, as elevators rocket you up to towering viewing platforms, from which you can survey a vast urban ocean, interspersed with sky-scraping needles. Look out as far as the

distant loom of Mount Fuji's cone on clear days. Futuristic - second-accurate - transport seamlessly links Tokyo's 14 districts, while the glow of flashing advertisement boards, clinking of arcade machines, and waves of humanity flowing along its streets, adds to the sense of mesmerizing, dizzying, and glorious sensory overload. One of Tokyo's most iconic sights, don't miss the flood of people scrambling to cross Shibuya's famous intersection. Join the choreographed dance, as crowds of briefcase-carrying commuters are given the green light to cross at the same time - all bathed in the light of massive neon advertisements. The culture is immensely rich and deep, with 7th-century, lantern-decorated temples, stunning palaces, and tranquil scarlet shrines waiting below cloaks of incense and nestling between soaring skyscrapers. Restaurants serve up precisely prepared sushi, and wafer-thin seafood slivers, offering a unique taste of the country's refined cuisine. Settle into traditional teahouses, to witness intricate ceremonies, or join the locals as they fill out karaoke bars to sing the night away. In the spring, cherry blossom paints a delicate pink sheen over the city's innumerable parks and gardens.

Day 2 Day at sea

Days at sea are the perfect opportunity to relax, unwind, and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale-watching, catching up on your reading, or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shoreside.

Day 3 Miyako, Iwate

Set on the eastern coast in Japan's Iwate prefecture, Miyako promises stunning scenery and Jorman history in equimeasure.

The coastal city of around 50,000 inhabitants is almost 600 km (372 miles) from Tokyo, but boasts one of the finest beaches in Japan, as well as a treasure trove of succulently fresh seafood restaurants. While travelers to Miyako might arrive expecting the usual amalgam of cultural attractions and high-tech wizardry, they will leave with memories of one of the greatest garden cities they have ever experienced. During the Edo period (1603-1868) the town was once considered as Japan's main seaport, and it is still an important port today with a thriving fishing industry. Mother Nature really does come into her own in Miyako. The city is bordered by the vast Sanriku Fukk National Park, one of the National Parks of Japan. Sanriku Fukk stretches for 180 km (111 miles) along the coast and home a wonderful variety of flora and fauna, including groves of Japanese red pine, rhododendrons, and *Rosa rugosa*. Numerous bird species, including the black-tailed gull and shearwater, call the park home. Butterflies float gently on the breeze and hummingbirds sail like darts through the trees. What's more, bird lovers will undoubtedly love that the nearby Hidejima Island and Sanganjima Island are the only breeding grounds in Japan for the band-rumped storm-petrel.

Day 4 Aomori, Japan

From fiery festivals to spectacular mountain scenery, soaring temples to castles surrounded by cherry blossom blooms, Aomori is one of Japan's most enchanting destinations. Framed by dark peaks clad with dense forestry, the city enjoys a picturesque location on Japan's main island Honshu. While there are gorgeous, pink-tinted parks, tiered castles and towering Buddha statues to explore, the Aomori prefecture's capital is perhaps best known for the summer festival of fire that lights it up each year. Lavish illuminated floats fill the streets

during Nebuta Matsuri festival, as dancing locals wave flickering lanterns through the night sky - and drummers pound out pulsating rhythms. Nebuta Matsuri has a euphoric and energetic atmosphere which makes it stand out as an unmissable experience compared with some of Japan's more restrained festivals. At other times of the year, places like the stunning Hirosaki Castle bloom with rose-pink cherry blossom, as spring's sunshine clears away winter's plentiful snowfall. The castle's moat, glowing with the pale hue of fallen blossom, is a truly mesmerizing sight to behold. Don't worry if you are too late though, you might be able to catch the pink-flush of the apple blossom - which comes slightly later. Extraordinary prehistoric Jomon period history is waiting to be unearthed at the living archaeological site, Sannai-Maruyama Ruins. Or the untouched wilderness of UNESCO World Heritage Site Shirakami Sanchi is within reach. This sprawling mass of beech trees covers a third of the Shirakami mountain range, and the dense forestry once blanketed most of the northern Japan's land. Visit to scratch the surface of this untamed landscape's beauty and see sprawling waterfalls cascading down mountainsides, in a beautiful off-limits landscape, where black bears roam freely.

Day 5 Hakodate (Hokkaido), Japan

Gaze down over Hakodate, from the heights of its namesake peak - Mount Hakodate - to see the city stretching out spectacularly, with back-to-back twin bays splitting the ocean. Hakodate port was one of the first to open Japan up to the world and to international trade in 1859 - a fact reflected in the architecture, with its influences from the West and beyond. The port area is a redbrick wash of warehouses turned shopping malls, all observed by the onion domes of the city's Russian Orthodox church. Elsewhere, the star-shaped Goryokaku fortress

glows with natural colors and a beautiful haze of cherry blossoms during the season. Goryokaku Tower, which rises up beside it, offers a sweeping bird's eye view of the green fortress and mountain backdrop. Buses trundle up the 335-meter incline to the top of Mount Hakodate, but the best way to reach the views is to jump on the ropeway, which swings high above downtown's buildings, over a carpet of pine trees. Head up to the mountain's heights as sunset approaches. With darkness sweeping in, and the lights flickering to life, the panorama is one of Japan's most spectacular. Soak it all in, and look out to the horizon, dotted with the shimmering lights of ships hauling in harvests of the city's renowned squid. The plankton-rich waters attract a delicious variety of feasting sea life to Hakodate's coast, which is then plated up in the city's numerous, skilled restaurants. For an eye-opening, whirring morning, see the freshest produce being doled out at Hakodate Morning Market - amid a cacophony of noise and activity.

Days 6 - 8 Days at sea

Days at sea are the perfect opportunity to relax, unwind, and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale-watching, catching up on your reading, or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shoreside.

Day 10 Date Line gain a day

Crossing the date line (theoretically the 180-degree line of longitude) from the Eastern to the Western Hemisphere seafaring guests will find themselves in the unusual situation of actually gaining a day and prolonging their holiday - at no extra cost! By crossing the (fictitious) line that dissects the planet exactly in half from Greenwich, you travel over time zones and

find yourself with an extra day on board. The phenomenon was used by Jules Verne in his novel *Around the World in 80 Days* when his hero Phileas Fogg finds out he had returned home a full day earlier than calculated having always traveled towards the east. As some countries have decided to change to different time zones than allotted based on longitude, this phenomenon is not strictly linked to the 180-degree line of longitude any longer.

Days 10 - 12 Days at sea

Days at sea are the perfect opportunity to relax, unwind, and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale-watching, catching up on your reading, or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shoreside.

Day 13 Kodiak Island, Alaska, United States

The domain of grizzlies, brown and black bears, Kodiak Island is a raw, wild, and utterly authentic Alaskan wilderness. The Emerald Isle is the USA's second-largest island, and with a wilderness stretching out over 3,670 square miles, it's a thrilling voyage into the Alaskan unknown. The weather may get a little cloudy at times, but the locals actively welcome a covering of cloud - perhaps partly because the clouds and fog are said to have deterred Japanese attacks during World War II's hostilities. Be sure to bring your camera with you; it's nigh on impossible to take a bad photo of these irresistible vistas - and you'll quickly see why Kodiak Island is the destination of choice for wildlife documentary producers. Cinematic set pieces regularly play out, as eagles soar over expansive sweeps of fir-tree forested mountains and still lakes, releasing occasional piercing calls. Some of the animal kingdom's most feared and revered

creatures call Kodiak Island home, and your first sight of a bear reaching a massive paw into the water, or treading through a gently burbling stream, will live with you forever. Soar in a seaplane to track the bears with an expert guide. Masters of disguise, it often takes a trained eye to spot the bears in their natural habitats. The waters of Kodiak Island are also home to some of the world's most productive fishing. Try out your own skills, or accompany a seafaring fishing vessel, to witness life on the waves first-hand, as they plunder the depths of the ocean.

Day 14 Day at sea

Days at sea are the perfect opportunity to relax, unwind, and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale-watching, catching up on your reading, or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shoreside.

Day 15 Valdez, Alaska, United States

Valdez is a spectacular coastal city tucked into the deep shores of Prince William Sound. The open scenery is one of unspoiled wildness, majestic mountains, tidewater glaciers, and deep green rainforests. Take the chance to admire this landscape and become a part of it.

Colombia Glacier is one of the fastest-moving glaciers in the world, renowned for its dramatic carving, leaving colossal chunks of ice in the water. Get up close to this icy phenomenon by boat or by helicopter. Flightseeing tours having the advantage of offering exceptional aerial views of the glacier and the surrounding Chugach mountains.

Sea kayaking is popular and navigating the vast landscape in a small kayak immerses you in nature like nothing else, visit forgotten glaciers, strange ice formations, and icy sea caves.

Valdez holds some of the oldest fish derbies in Alaska with big prize money, a testament to the superb fishing opportunities available. Try your luck to land a prize salmon or big halibut by shore or sea.

If not, watch the experts, from mid-June to August when the salmon are spawning and the waters are silver and pink with fish, sea lions, and brown and black bears come to take their catch of the day.

Hike trails of all levels of difficulty are well maintained and offer awesome views, including dramatic waterfalls and lots of wildlife. With eagles, seabirds, bears, seals, sea lions, and sea otters all commonly seen, and whales and porpoises frequent visitors it can be hard to know where to look next.

[Day 16 Seward \(Anchorage, Alaska\), United States](#)

Monumental scenery surrounds you in this remote corner of the world, where glaciers calve and whales cruise through inky waters, before an immense mountain backdrop. Almost totally submerged by the colossal landscapes around it, Seward - and the wonders of Kenai Fjords National Park - offer some of astonishing Alaska's most thrilling scenery. Located in a deep gash in the Kenai Peninsula, Seward is a place to immerse yourself in nature's majesty. Fjords carve into the landscape, while the Harding Icefield - which caps Kenai Fjords National Park - reaches out its icy fingers, with glaciers spilling down between mountain peaks. Head to Holgate Glacier, to come face to face with a breathtaking stack of intense blue and white ice. Get up close in a kayak or boat ride, to slalom through the discarded confetti of ice chunks, and perhaps even witness the powerful spectacle of an ice ledge creaking and groaning, before plunging to the waters below. The city of Anchorage is

easily within reach from here, offering an incongruous contrast to the wild wonders of Alaska. A place where deep-sea fishermen bump shoulders with businesspeople on the 9-5, it's a fascinating, remote city. Home to almost half of the Alaskan population, Anchorage and its humble skyline are dwarfed by the snowy peaks of the wilderness beyond. Don't miss the opportunity to immerse yourself in the unique culture, traditions and heritage of the First Nations people of these lands too.
