

ANTARCTIC EXPRESS: FLY THE DRAKE (WORLD EXPLORER)

You're ready to explore King George Island and the Antarctic Peninsula—and no Drake Passage crossings are required! With a spectacular aerial view, included charter flights between Punta Arenas and Antarctica have you experiencing the majesty of the 7th continent before transferring you to your ship in no time. Keep your camera ready as you cruise in a Zodiac in search of whales, seabirds and astounding icebergs. Beaches dotted with leopard seals and penguins give way to icy plateaus, with snow-capped mountain peaks looming behind. You'll find yourself thankful for the near-constant sunlight by which you can continue to take it all in.

ITINERARY

Day 1 – Punta Arenas, Chile

Your adventure begins in Punta Arenas, Chile, the most populated city in southern Patagonia. If you arrive early, there are many museums, restaurants and shops to keep you busy for days. By early afternoon, a Quark Expeditions representative will meet you at the official starting point hotel, where you'll enjoy a welcome dinner and be briefed about preparing for your embarkation day.

Day 2 – Embarkation Day

Your charter flight from Punta Arenas to Antarctica will have you crossing the legendary Drake Passage in only a few hours. Far below, the ship will approach King George Island for your arrival. Your first glimpse of dramatic Antarctic landscapes will be from a unique perspective, as your plane descends for landing in the South Shetland Islands. After landing, stretch your legs and spend time exploring the island before being transferred by Zodiac to your ship to set sail for the Antarctic Peninsula!

Days 3 to 6 – Antarctic Peninsula and South Shetland Islands

There are few places in the world as evocative as Antarctica. As your ship approaches the White Continent, you may be overcome by feelings of excitement and awe. Much of Antarctica is indescribable and can only be fully appreciated through your own eyes. As your captain and Expedition Team keep a lookout for whales and seabirds, you'll be alerted to any new sightings. Our team of expert lecturers will also provide in-depth explanations of the geology, history and wildlife of the region. Even more exciting are your daily land excursions. Your first Zodiac landing is something you'll never forget! Walking up to a beach dotted with penguins and seals is the most intimate way to experience the unique wildlife of Antarctica. Each landing is different and is dependent on weather, but every day presents new sightings and photo opportunities, and it won't be long before you can tell the difference between an Adelie, gentoo or chinstrap penguin. You may take a Zodiac cruise in search of whales and icebergs around Pleneau Island one day, followed by a hike to a penguin rookery the next day. From the booming sound of a calving glacier at Neko Harbour to the thrill of watching a leopard seal as it hunts a penguin, you'll wake up early and welcome each day with a sense of excitement and a desire to explore that which is unrivaled by any other travel

experience. Your Expedition Team will be with you all along the way, providing insights into the places you visit.

Day 7 – Disembark and Fly to Punta Arenas

After your week of exploration, you'll say goodbye to your Expedition Team and disembark at King George Island. Your three-hour flight across the Drake Passage to Punta Arenas, Chile, brings your adventure to an end. After your transfer from the airport to the hotel, you are free to explore and enjoy one final dinner to reminisce about the sights and sounds of Antarctica.

Day 8 – Depart Punta Arenas

After breakfast, you are welcome to continue on your own travels or make your way to the Punta Arenas airport for your homeward flights.

Please Note:

Embracing the unexpected is part of the legacy – and excitement – of expedition travel. There are no guarantees that we can achieve everything we set out to accomplish. A measure of flexibility is something all of us must bring to a voyage. There are nearly 200 recognized sites in the Antarctic Peninsula and South Shetlands and the places mentioned above may be changed to others equally as interesting.
