

ANTARCTICA PENINSULA - BASECAMP ORTELIUS

The Antarctic Peninsula Basecamp cruise offers you a myriad of ways to explore and enjoy the Antarctic Region. This expedition allows you to hike, snowshoe, kayak, go mountaineering, and even camp out under the Southern Polar skies. During our “Basecamp” departures, all offered activities (including camping, kayaking, snowshoe/hiking, mountaineering, photo workshop) as well as our standard included shore excursions and zodiac cruises) are free of charge.

ITINERARY

Day 1: End of the world, start of a journey

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed “The End of the World,” and sail the mountain-fringed Beagle Channel for the remainder of the evening.

Day 2 - 3: Path of the polar explorers

Over the next two days on the Drake Passage, you enjoy some of the same experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence – Antarctica’s natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas – you are in the circum-Antarctic upwelling

zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson's storm petrels, blue petrels, and Antarctic petrels are a few of the birds you might see.

Day 4 - 9: Entering Antarctica

Gray stone peaks sketched with snow, towers of broken blue-white ice, and dramatically different wildlife below and above. You first pass the snow-capped Melchior Islands and Schollaert Channel, sailing between Brabant and Anvers Islands. Places you might visit includes: Neumayer Channel – The vessel may position itself here, launching its multiple basecamp activities from the protected waters around Wiencke Island. You can enjoy the splendors of this alpine environment at sea with Zodiac and kayaking trips, or if you're in the mood for a walk, there are possible snowshoe hikes and soft-climb mountaineering options farther inland. Naturally, favorable weather conditions determine the possible activities. Port Lockroy – After sailing through the Neumayer Channel, you may get a chance to visit the former British research station – now a museum and post office – of Port Lockroy on Goudier Island. You may also be able to partake in activities around Jougla Point, meeting gentoo penguins and blue-eyed shags. There are great opportunities also for kayaking and camping here, and when conditions are right, you can even snowshoe around the shore. Pléneau & Petermann Islands – If the ice allows it, you can sail through the Lemaire Channel in search of Adélie penguins and blue-eyed shags. There's also a good chance you'll encounter humpback and minke whales here, as well as leopard seals. Kayaking, glacier walks, and more ambitious mountaineering trips are the potential activities of this location.

Neko Harbour – An epic landscape of mammoth glaciers and endless wind-carved snow, Neko Harbour offers opportunities for a Zodiac cruise and landing that afford the closest views of the surrounding alpine peaks. Paradise Bay – You have the chance to make camp here like a true polar explorer (but with a better tent), enjoying a supreme overnight Antarctic adventure. Errera Channel – Possible sites in this area include Danco Island and Cuverville Island, but also the lesser known (though equally picturesque) Orne Island and Georges Point on Rongé Island. On your last day of near-shore activities, you pass the Melchior Islands toward the open sea. Keep a sharp lookout for humpback whales in Dallmann Bay. You might also shoot for Half Moon Island, in the South Shetlands, with further chances for activities. Conditions on the Drake Passage determine the exact time of departure.

Day 10 - 11: Familiar seas, familiar friends

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

Day 12: There and back again

Every adventure, no matter how grand, must eventually come to an end. It's now time to disembark in Ushuaia, but with memories that will accompany you wherever your next adventure lies.

Please note:

All itineraries are for guidance only. Programs may vary depending on local ice, weather, and wildlife conditions. The on-board expedition leader will determine the final itinerary. Flexibility is paramount for expedition cruises.

YOUR SHIP: ORTELIUS

YOUR SHIP:

Ortelius

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

The ice-strengthened vessel "Ortelius" is an excellent vessel for Polar expedition cruises in the Arctic and Antarctica, providing possibilities to adventure remote locations such as the Ross Sea. The vessel has the highest ice-class notation (UL1 equivalent to 1A) and is therefore very suitable to navigate in solid one-year sea ice and loose multi-year pack ice. "Ortelius" is a great expedition vessel for 100 passengers with lots of open-deck spaces and a very large bridge which is accessible to the passengers. The vessel is manned by 34 highly experienced crew, 15 international catering staff, including stewardesses, 6 expedition staff (1 expedition leader and 5 guides/lecturers) and 1 doctor. "Ortelius" offers a comfortable hotel standard, with two restaurants, a bar/lecture room and a sauna. Ortelius' voyages are primarily developed to offer our passengers a quality exploratory wildlife program, trying to spend as much time ashore as possible. As the number of passengers is limited to approximately 100 on the "Ortelius", flexibility assures maximum wildlife opportunities. Passengers on a typical voyage range from in their 30s to their 80s, with the majority usually between 45 - 65. Our expeditions attract independent travelers from around the globe who are characterized by a strong interest

in exploring remote regions. The camaraderie that develops on board is an important part of the Oceanwide experience, and many passenger groups include several nationalities. "Ortelius" was built in Gdynia, Poland in 1989, was named "Marina Svetaeva", and served as a special purpose vessel for the Russian Academy of Science. The vessel is re-flagged and renamed "Ortelius". Ortelius was a Dutch / Flemish cartographer. Abraham Ortelius (1527 - 1598) published the first modern world atlas, the Theatrum Orbis Terrarum or Theatre of the World in 1570. At that time, the atlas was the most expensive book ever printed. What to Wear In keeping with the spirit of expedition, dress on board is informal. Bring casual and comfortable clothing for all activities, and keep in mind that much of the scenery can be appreciated from deck which can be slippery. Bring sturdy shoes with no-slip soles, and make sure your parka is never far away in case one of our crew shouts "Whales!" over the loudspeaker and you have to dash outside in a moment's notice. Opt for layers, as it is comfortably warm aboard the ship though often cold on deck. Electric Current The electrical supply aboard ship is 220v, 60Hz. Electrical outlets are standard European with two thick round pins, so some passengers may need a 220v/110v converter. Tipping The customary gratuity to the ship's service personnel is made as a blanket contribution at the end of the voyage and is divided among the crew. Tipping is a personal matter, and the amount you wish to give is at your sole discretion. As a generally accepted guideline, we suggest 8 - 10 euros per passenger per day. It is better for the crew if you give cash. Smoking Policy Ortelius has a non-smoking policy inside, though you can smoke
