ANTARCTICA, SOUTH GEORGIA, AND THE FALKLANDS EXPEDITION CRUISE

This voyage has it all: the impossible beauty of the Antarctic ice, the vast king penguin colonies of South Georgia, and the Falklands' amazing albatross colonies. Not even the mass migrations of Africa can rival the awesomeness of seeing a king penguin colony of tens of thousands individuals stretching as far as the eye can see. You'll have other rare sightings here too: massive, in both senses of the word, herds of elephant seals; and a wandering albatross stretching its 11-foot wings. It's the impossible beauty of an Antarctica trip exponentially increased by unimaginable numbers of animals. For most travelers, visiting Antarctica is a once-in-a-lifetime experience. So for those with the luxury of time, including the Falklands and South Georgia just makes sense. And it makes for a genuine experience of a lifetime.

ITINERARY

Day 1 Buenos Aires, Argentina

Arrive in Buenos Aires, the cosmopolitan capital of Argentina. Transfer from the airport to the Alvear Art, or similar.

****Arrival Time:**** Arrive before 11:00 a.m. local time.

The Small Cruise Ship Collection

small-cruise-ships.com

info@small-cruise-ships.com

****Arrival City:**** Buenos Aires, Argentina

Day 2 Ushuaia / Embark Ship

This day has a recommended group flight.

Join the recommended flight to Ushuaia, the southernmost city in the world, where you'll meet the ship; transfers to the airport and luggage assistance will be provided. Ushuaia's spectacular setting, between the jagged peaks of the Darwin Range and the protected waters of the Beagle Channel, makes it an appropriately wild place to begin your journey to the White Continent and a great destination in its own right. Visit Tierra del Fuego National Park. Lunch will be served onboard a private catamaran while cruising the Beagle Channel, where you'll be on the lookout for huge South American sea lions and birds like imperial cormorants.

Meals Included: Breakfast, Lunch, Dinner

Day 3 At Sea

Settle into shipboard life as you sail to the Falkland Islands. Keep a lookout for albatross that glide alongside the ship.

Meals Included: Breakfast, Lunch, Dinner

Days 4-5 Falkland Islands

All the best aspects of expedition travel seem to come together in the western Falkland Islands. Where else can you land on a beach tucked into a rocky cove, hike out across a rolling green pasture and suddenly find yourself at the crest of a sea cliff looking out over the South Atlantic surf? Just a few steps further and you're standing at the edge of a breeding colony of

black-browed albatross, so close that you can hear the wind on their wings as they swoop in to land beside you. Check out the thousands of irresistible gentoo, rockhopper and Magellanic penguins that congregate here, along with fur seals.

Stanley, the bright, pretty capital of the Falkland Islands, is a wonderfully unexpected place: a charming outpost of British culture tucked into a small bay on the shore of these windswept islands in the far South Atlantic. Many Falkland Islanders still live in very traditional ways, and you'll have a chance to visit a small farm to see some expert sheep shearing and learn about the best techniques for cutting blocks of peat for the fire. The rocky hills and white sand beaches outside town offer some excellent hikes, and afterward, a cup of tea or a pint at the local tavern goes down very nicely.

Meals Included: Breakfast, Lunch, Dinner

Days 6-7 At Sea

With whales beneath and birds above, continue toward South Georgia Island. Your naturalists will prepare you for the exciting days ahead with presentations on the wildlife of South Georgia, and, of course, the inspiring story of Sir Ernest Shackleton and the Endurance.

Meals Included: Breakfast, Lunch, Dinner

Days 8-12 South Georgia Island

Simply put, there is nowhere else in the world like South Georgia. King penguins, the second largest species in the world, are unquestionably the most iconic wildlife of South Georgia. This rugged and remote island offers one of nature's most dazzling spectacles: tens of thousands of king penguins, the

small-cruise-ships.com

info@small-cruise-ships.com

second largest penguin species in the world.

Explore the spectacular coastline of South Georgia Island. In keeping with the nature of an expedition, the schedule is flexible with opportunities for walking, hiking, kayaking and Zodiac excursions. Sailing along the coast, you'll have your choice of activities every day including visits to Grytviken--the final resting place of Shackleton--and Stromness Harbour, where Ernest Shackleton, Tom Crean and Frank Worsley finally reached aid at a whaling station.

The island is also home to huge elephant seals and thousands of king penguins. South Georgia is sometimes called "the Serengeti of the Southern Ocean", but even that description seems inadequate; this lonely island is unique in the world, so rich and so beautiful that it defies any comparison.

Meals Included: Breakfast, Lunch, Dinner

Days 13-14 At Sea

As you voyage, head up to the Bridge to watch for icebergs and observe expert navigation at work as your skilled Captain and officers sail these historic waters. There'll also be time to enjoy a massage in the wellness center, work out in the gym and browse in the library. Each day your naturalists offer talks that add depth to your experience.

Meals Included: Breakfast, Lunch, Dinner

Days 15-18 Antarctica

With long hours of daylight at this time of year, you'll have ample opportunities to explore. The schedule is flexible, allowing you to take advantage of the unexpected. You might set out by

kayak to encounter towering icebergs at water level; embark on a Zodiac excursion in search of seals and blue-eyed shags; walk amid thousands of Adelie and gentoo penguins; or experience the thrill of the ship crunching through pack ice. Everywhere you go in Antarctica you'll be surrounded by opportunities to capture uniquely beautiful images. Along the way your expert expedition team will enrich your experiences.

Meals Included: Breakfast, Lunch, Dinner

Days 19-20 At Sea

This 500-mile-wide strait between the Antarctic Peninsula and South America is one of the most famous bodies of water in the world. Sometimes ferocious, sometimes flat calm, the Drake is always a fascinating place in its own right. This part of the journey is your best opportunity to see gorgeous seabirds like the wandering albatross, and you might be lucky enough to encounter orca whales or rare species of dolphins. Visit the Bridge (a great place to spot wildlife), have a relaxing massage, attend a talk about the biology of the penguins you've just seen or settle into a comfy chair in the observation lounge to look out over the waves and reflect on your incredible journey. Toast your epic voyage at a festive farewell dinner.

Meals Included: Breakfast, Lunch, Dinner

Day 21 Disembark Ship / Ushuaia / Buenos Aires

Disembark in Ushuaia, the southernmost city in the world. Take the recommended flight to Buenos Aires and connect with your flight home.

Departure Time: Depart after 9:00 p.m. local time.

Departure City: Buenos Aires, Argentina

YOUR SHIP: NATIONAL GEOGRAPHIC ENDURANCE

YOUR SHIP: National Geographic Endurance

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

A next-generation expedition ship, purpose-built for polar navigation. National Geographic Endurance is a next-generation expedition ship, purpose-built for polar navigation. A fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessel, it is designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. Its patented X-BOW® is key to its design; its powerful wave-slicing action provides an extremely smooth ride in even adverse conditions, and even reduces spray on deck, for superior observation. She carries a full suite of expedition tools and offers a variety of experience-enhancing amenities. The luxury of comfort on expedition National Geographic Endurance comfortably accommodates 126 guests in 69 outside-facing cabins. Cabins are efficiently designed, with sizes range from the 140-square-foot solo cabin to the 430-square-foot category 7 suite. Fifty-three of the 69 cabins, including all 12 of the solo cabins, will feature small balconies with floor-to-ceiling sliding doors that bring in the spectacular views and ample natural light. Comfort & convenience in every room Every cabin has two portholes, a large window or balcony, and temperature controls. Bathrooms are modern and stocked

with botanically inspired hair products, soap, and shower gel, plus a hairdryer. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers. Dining: Food served aboard is fresh, local, and delicious, and sourced from suppliers who share our values of sustainable use whenever possible. Meals aboard are almost always served in the dining room, located aft of the lounge deck. When weather conditions allow, lighter fare may be served on the observation deck. There is no assigned seating and our dining room accommodates the entire expedition community in a single seating. During meals your expedition leader, naturalists, and any guest speakers aboard will join you. Public Areas: Two restaurants, a Chef's Table for small group dining, Observation Lounge with bar, gym, Wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an "open bridge" for access to our captain, officers and the art of navigation. Meals: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef's table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare. Cabins: All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers. Expedition Tools: Zodiac landing craft, kayaks,

snowshoes, cross-country skis, undersea specialist operating a remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera and video microscope. Special Features: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, an internet cafe and laundry. Wellness: The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high- and low-heat saunas with ocean views. Expedition Landing Craft: Key to our operation is our fleet of expedition landing craft, which we use to land in places that would otherwise be inaccessible. With 8 of these boats and two loading stations used every time we disembark, we're able to transfer guests off the ship quickly, so you can be out on adventures, not idly waiting. The expedition landing craft we use are 19 feet long, powered by four-stroke outboard engines, and are capable of comfortably carrying 10-12 people. They are widely recognized as the safest and most versatile small boats afloat. Remotely Operated Vehicle: Capable of reaching 1,000 feet, far beyond the range of any Scuba diver, the ROV allows you to literally view parts of the undersea that are as unexplored as the moon. Chances are you, like many of our guests, will be struck by how surprisingly colorful undersea life is in these unlikely places. And this glimpse may fundamentally change how you view the ocean. Kayaks: National Geographic Endurance will be equipped with a fleet of kayaks large enough to ensure everyone who wants to can paddle at every opportunity. Consequently, prior kayaking experience isn't necessary--many of our guests have their first kayaking experience in extraordinary locations. Our custom-designed floating platform lets us deploy kayaks from

the ship, or any location we want--including far from shore. Kayakers are usually free to explore where they want within boundaries set by the undersea specialist and officer of the watch. Underwater camera: Our undersea specialist will dive often during your expedition, even in Alaska, with cold-water gear, to shoot high-definition, Cousteau-like footage of the deep. Colorful nudibranchs, swimming, plant-like crinoids, and mysterious fish with antifreeze blood that thrive in the frigid sea will give you an entirely new appreciation of the marine environment. Video microscope: Naturalists will use the video microscope to help explain all elements of the environment, including tiny organisms that are the building block of the marine ecosystem. Spellbinding live views of krill at 80x magnification fills the high-definition screens in the lounge with vivid detail, and fills every onlooker with a sense of wonder at the importance of otherwise unobservable creatures. Hydrophone: This underwater microphone is deployed to listen to the vocalizations of marine mammals. Real time transmissions of their eerie, haunting sounds can be broadcast through the ship or recorded for later playback. Few experiences in nature are as captivating as watching humpback whales feed close to the ship as their vocalizations play through the ship's PA system. Electronic charts: An electronic chart showing the ship's location, course, and speed is almost always on display in the lounge. Open bridge: You'll find our captains are engaged, knowledgeable members of your expedition who are eager to share their passion with you. Venture's open bridge features comfortable spaces to sit, enjoy the view, drink your morning coffee, or simply chat with the officers. Snorkeling gear & wetsuits: On warm weather itineraries where there will be snorkeling, you'll select a mask, snorkel, fins, and wetsuit that remain yours for the duration of the expedition. There's no need
