

ARCTIC CRUISE FROM GREENLAND TO CANADA & NORTHERN LIGHTS

Embark on a luxury cruise from Greenland to Canada, tracing a legendary route rich in history and natural wonders. This journey begins in Nuuk, Greenland's bustling capital, and concludes two weeks later in Halifax, Nova Scotia. Along the way, witness towering icebergs and explore remote communities, offering a unique glimpse into the Arctic world. Throughout this Arctic adventure, you'll visit awe-inspiring locations like the Evigheds Glacier's calving icebergs and Eternity Fjord. Discover the ancient Norse site at the UNESCO site L'Anse aux Meadows in Newfoundland, and marvel in Gros Morne National Park's fjords. Additionally, a stop in Iqaluit offers insight into Inuit traditions, while the towering cliffs of Lady Franklin Island reveal some of Earth's oldest rocks. Aboard the luxury cruise, indulge in a range of activities. Enjoy expert-led lectures and photographic workshops, kayak with an expedition team, or explore Arctic waters by day and rest in comfort aboard. Perfect your photography skills or dive into the ship's well-stocked library to deepen your understanding of the region. This journey promises a rare blend of adventure and discovery amidst the pristine Arctic landscape.

ITINERARY

Days 0 - 1 Pre Cruise & Nuuk

Home to more than a third of Greenlanders, the capital of Nuuk has a thriving cultural scene including the Greenland National Museum, home to the world-renowned Qilakitsoq mummies. Also known by its Danish name of Godthab (Good Hope), Nuuk's bustling harbour features Nuuk Cathedral and colourful wooden houses, alongside modern architecture. Nuuk also serves as a gateway to Inuit experiences and adventures in the surrounding fjords and mountains.

Day 2 Evigheds Glacier

The Evigheds Glacier, a majestic outflow from the Greenland Ice Sheet, carves through the dramatic Kangerlussuatsiaq Fjord, also known as Eternity Fjord. This 75-km-long waterway is a haven for wildlife, with white-tailed eagles and black-legged kittiwakes soaring above. Calving icebergs showcase Greenland's raw beauty, but sadly like many glaciers, it is slowly retreating due to global warming's impact on this fragile Arctic ecosystem.

Day 3 Qeqertarsuaq

Qeqertarsuaq is the largest town on Disko Island, Greenland's largest island, on its west coast, part of Disko Bay, a UNESCO-listed site for its icebergs. The Lyngemark Glacier rises above the town. The area's hills, basalt columns and black sand beaches reflect its volcanic origin. The area is fertile and home to species not found elsewhere in Greenland. Keep an eye out for its hot springs as we move through floating icebergs.

Day 4 Itilleq

Brightly painted houses fan out across the waterfront of the remote Itilleq island, accessible by weekly ferry or helicopter. Just north of the Arctic Circle on the Davis Strait, surrounded by glaciers and mountains, this former trading station was once a fishing community. Islanders come together for football when not in school, at the factory, or hunting. Birds here include snow buntings, kittiwakes and guillemots.

Day 5 Day at sea

Sea days are rarely dull. Take the time to sit back and let the world go by. The ship's observation decks provide stunning views of the passing ocean. A day at sea gives you the opportunity to mingle with other passengers and share your experiences of this incredible trip or head to our library which is stocked full of reference books. Get an expert's view in one of our on-board lectures or perhaps perfect your photography skills with invaluable advice from our onboard professional photographers.

Day 6 Iqaluit, NU

The native Inuit are an integral part of Iqaluit, a remote community at the head of Frobisher Bay. The bay provides insight into Inuit history and culture including dog-sledding on handmade qamutik sleds led by qimmiq - North America's oldest and rarest purebred canine. Nunatta Sunakkutaangit Museum displays Inuit artwork while Crystal II, an ancient Thule Inuit settlement, lies outside of Sylvia Grinnell Territorial Park.

Day 7 Lady Franklin Island, NU

Most known for its huge vertical cliffs of Archean rocks, reputedly the oldest stones in Canada, Lady Franklin Island is an uninhabited isle off Hall Peninsula on Baffin Island. Black guillemots, ptarmigan and gulls all nest in this ice-filled area of the Davis Strait. Lumbering walrus haul out to the south at Monumental Island, a well-known denning site for polar bears. Nearby, the Cumberland Sound is home to its own species of beluga whale.

Day 8 Torngat Mountains National Park, NL

Staffed completely by Inuit, Torngat Mountains National Park takes its name from the Inuktitut word Tongait, meaning place of spirits. Here, Inuit share their stories of spirits and traditions in their homeland, where for centuries they have been fishing and hunting polar bears and caribou. This magical land made up of dramatically spectacular mountains and deep fjords nudging up to iceberg-filled waters is only accessible by boat.

Day 9 Hebron, NL

The remote Arctic outpost of Hebron, an Inuit community, provides insight into Inuit traditions and Arctic life. The Hebron National Historic Site showcases Arctic landscapes, including fjords, icebergs and wildlife, while shedding light on Inuit heritage through abandoned mission buildings. In 1959, during an Easter service, Moravian church officials abruptly closed the mission, relocating 58 families to other coastal Labrador towns.

Day 10 Day at sea

Sea days are rarely dull. Take the time to sit back and let the

world go by. The ship's observation decks provide stunning views of the passing ocean. A day at sea gives you the opportunity to mingle with other passengers and share your experiences of this incredible trip or head to our library which is stocked full of reference books. Get an expert's view in one of our on-board lectures or perhaps perfect your photography skills with invaluable advice from our onboard professional photographers.

Day 11 L'Anse Aux Meadows, NL

The 1,000-year-old Norse settlement at L'Anse aux Meadows (Meadows Cove), on the northernmost tip of Newfoundland, is the first and only authenticated Viking site in the Americas, believed to have been occupied by Leif Erikson. He was the first European to explore Canada's east coast in around 1021. Some of the 800 original Norse artefacts and eight sod houses are on view during a tour of the recreated village, now a UNESCO World Heritage Site.

Day 12 Bonne Bay, NL

Bonne Bay, Newfoundland's only true fjord, is part of Gros Morne National Park, a UNESCO World Heritage Site. Waterfalls and rocky pinnacles dot the cliffs, while majestic whales breach the surface of the fjord and playful dolphins frolic in the waves. Woody Point is a small town on its south side, known for its heritage wooden buildings, with the John William Roberts House, a testament to the town's shipbuilding past.

Day 13 Day at sea

Sea days are rarely dull. Take the time to sit back and let the

world go by. The ship's observation decks provide stunning views of the passing ocean. A day at sea gives you the opportunity to mingle with other passengers and share your experiences of this incredible trip or head to our library which is stocked full of reference books. Get an expert's view in one of our on-board lectures or perhaps perfect your photography skills with invaluable advice from our onboard professional photographers.

Day 14 Halifax, NS

Founded as a naval base in 1749, Halifax's seafaring history is well-grounded with the Canadian Museum of Immigration, where one million Europeans landed up until 1971, and the Noon Gun that has fired from the Citadel fortress since 1857. When the Titanic struck the iceberg at 11:40 pm, April 14, 1912, ships set sail from here. Many victims are buried at Fairview Lawn Cemetery, while the Maritime Museum of the Atlantic displays rescued artefacts.

YOUR SHIP: VEGA AND MINERVA

YOUR SHIP: Vega and Minerva

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

Launched in 2022, this state of the art ship has been designed to journey to off the beaten path destinations and remote polar regions in style and comfort. The ship incorporates a PC5 ice-strengthened hull combined with extra-large stabilisers to make your journey as smooth as possible. Sophisticated Elegance. We know how important outdoor space is, so our spacious, relaxing public spaces provide wide open, unobstructed views throughout the ship. The destination will always be in view. Your Wellbeing. The safety & happiness of our guests is paramount to our 120-strong crew on board as well as our passionate expedition team who'll be serving up thrilling shore excursions and lasting memories. Cabin Types. Our 76 cabins including 6 suites have all the amenities you will need to feel comfortable including dressing gowns, hairdryers, personal safes and minibars. Our stylish cabins all have desks, a dressing area and comfy seating. En suite bathrooms all feature glass-enclosed rain showers. Wheelchair access Guests who use wheelchairs must bring their own, as we have only a small number of wheelchairs stored onboard for emergencies. To ensure ease of movement on the ship, wheelchairs and mobility aids must be no wider than 65cm. All mobility or medical

equipment brought on board must be capable of being carried safely and must be declared before sailing. To ensure that all guests can safely evacuate during an emergency, guests requiring a wheelchair can only be accommodated in our ADA-accessible cabins. We offer an Oceanview stateroom on Vega which is specifically designed to be completely ADA compliant and have a fully operable wheelchair-access wet unit. Vega has two lifts, serving every passenger deck apart from the Stargazing top deck, which is, therefore, more difficult to access, as are the Aft Marina and Swan's Nest forward observation platform. Also, we don't have special equipment to access the swimming pool, jacuzzi, or sauna. Otherwise, the ship is entirely at your disposal. Many of the expeditions ashore in remote places are by Zodiac. Boarding these boats and returning aboard can present challenges for wheelchair users, as can navigating uneven terrain. These challenges are by no means always insurmountable, though, and our highly experienced crew is trained to provide reliable advice and assistance. They will make every effort to ensure wheelchair-using guests enjoy a memorable experience at each destination. Our general guidance, however, is to recommend wheelchair users travel with a companion for their ease and enjoyment. If you prefer to remain aboard, our panoramic interiors and ample open decks ensure an immersive, intimate experience of your inspiring
