

ARCTIC HIGHLIGHTS - 15 DAYS CRUISE - FROM LONGYEARBYEN OR REYKJAVIK

Sailing from Svalbard to Greenland, follow the ice's edge with an eye peeled to the horizon for wildlife. Navigating south, you'll explore this remote landscape not only by ship but also on foot and via Zodiac. This journey highlights the contrast and change in the Arctic as you move south, finally ending in Iceland, "the Land of Fire and Ice." An Inuit village, unique wildlife, and remote destinations are just some of the highlights on this truly unforgettable voyage through the Arctic.

ITINERARY

Day 1 Longyearbyen

Embark aboard the Expedition in the afternoon and depart Longyearbyen in the late afternoon. Arrival transfer included.

Please make sure you drop your checked luggage off at the meeting point between 9am - 12pm. A local representative will be in the luggage storage room. They can provide general information about the town or your embarkation process.

All passengers will be transferred to the ship as a group for

embarkation at 4pm. Please ensure that for embarkation you have your passport accessible (not in your luggage which is being transferred separately to the ship).

Days 2–5 Svalbard/Greenland Sea

Taking advantage of local ice and weather conditions, explore the Northwest Spitsbergen National Park, one of those rare places on Earth blessed with both awe-inspiring landscape and compelling history.

Over four full days, explore a small portion of the western coast of Svalbard. Entering the fall the days are getting shorter so try to take advantage of all of the sunlight possible to search for wildlife.

Spend these days in search of the elusive polar bears as they hunt seals. Look out for Svalbard's unique subspecies of reindeer. Although much smaller than their southern relatives, they still carry impressive antlers. Keep a sharp lookout for Arctic foxes.

By not having a set itinerary, we take on an expedition spirit and are free to take advantage of the best that Svalbard has to offer.

Days 6–7 Greenland Sea

Keep an eye out for majestic whales, which are known to feed here in the summer months. Spot orca, humpback and minke whales, as well as dolphins. Enjoy lectures by expedition staff.

Frigid waters drain from the Arctic Ocean in a southwest current along the coast of Northeast Greenland. Often, drifting pack ice is pushed along the coast. We will attempt to approach and follow the pack ice edge to explore the polar seascape. Keep a lookout for sea mammals like seals and whales and also sea birds such as kittiwakes and fulmars.

Days 8–12 Northeast Greenland National Park

Spend a few days exploring the massive fjord system of Northeast Greenland National Park, which includes portions of Scorsbysund. Visit the tiny settlement of Ittoqqortoormiit for a look at how these most northerly people live.

Sail through and land in some of the most spectacular fjord country in the world along down the coast of Greenland, while exploring rarely visited glaciers, bays and inlets.

This is the largest national park in the world, nearly impossible to reach except on expedition ships. Spectacular geology combined with glacial features create steep mountains raising directly from the sea. Look out for picturesque scenery, wildlife and other interesting landing sites in this unspoiled wilderness.

Depending on ice, spend these days exploring the massive fjord system of Northeast Greenland National Park, which includes portions of Scoresbysund. These intricate fjord systems are everything from wide and unimaginable to narrow and steeply spectacular with some of the best mountain scenery in the world. Walking over lush stands of colourful autumn tundra may lead to opportunities to see musk oxen grazing nearby.

Days 13–14 Denmark Strait/Reykjavik

Enjoy the lecture series while watching the seas for whales. Head towards Iceland and the steaming hot springs of Reykjavik. The view is often complemented by soaring fulmars, kittiwakes, gannets, guillemots, and razorbills.

Day 15 Reykjavik

Shortly after breakfast, disembark at the Midbakki Pier - Port of Reykjavik, walking distance from downtown.

For guests departing on disembarkation day, G Adventures will provide a complimentary transfer at 8:00am to Keflavik International Airport from the port.

For guests who are planning on staying in Reykjavik post trip, taxis will be available for hire at the pier to transfer them to their accommodations.

All transfer arrangements will be confirmed while on board prior to departure, to ensure that all needs are met.

Please do not book onward travel prior to 12:00pm.

Please note:

Itineraries are subject to change.

YOUR SHIP: EXPEDITION

YOUR SHIP: **Expedition**

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

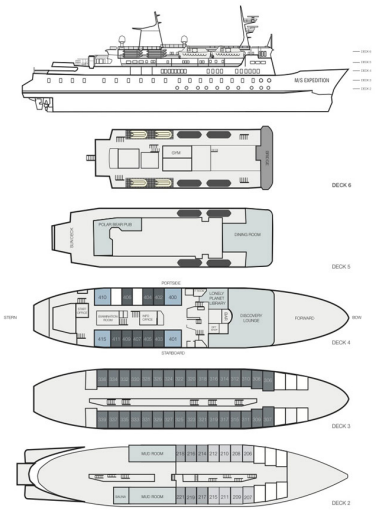

BUILT/REFURBISHED:

The MS Expedition provides an intimate small-ship cruising experience.
