Day 3 - Svolvaer, Lofoten

Located on the island of Austvagøy, in the county of Nordland, Svolvaer will be your ideal entry point for discovering the Lofoten islands. An important stopover to the north of Norway, fishing is one of the town's main features. And its speciality is? Cod. A picturesque white Lutheran church rests atop a hillside ridge, overlooking the town's multi-coloured houses. Still higher, the "The Solvaer Goat" mountain looks over the town from its rocky heights. Topped with two peaks like the horns of an animal, it is one of the region's must-see natural attractions.

Day 4 - Leknes, Lofoten

Way beyond the Arctic Circle, Lofoten Islands are truly considered to be in "another world". A jewel of nature in its most pristine state, this archipelago with its jagged coastline offers you majestic settings of high alpine summits, sandy beaches, green prairies and fjords of a deep blue, where countless bird colonies make their nests. Whether you visit Å, or Nusfjord, listed by UNESCO, enjoy authentic and memorable moments.

Day 5 - Bronnoysund

Nestling on the Torget peninsula a short distance from the Arctic Circle, not far from the mythical Torghatten granite dome, Bronnoysund invites you on an unforgettable journey into the heart of wild nature, between chains of rocky, green and snow-covered islets. The port of call in this former Viking city will also be an opportunity to discover the Vega archipelago, a UNESCO World Heritage Site. Its 6,500 or so islands will offer you indelible moments in this natural setting, where time seems to stand still. Surrounded by high mountains that drop sharply into the Norwegian Sea, these insular natural sanctuaries are home to many species of seabirds, like the common eider.

Day 6 - At sea aboard Le Commandant Charcot

Spend exceptional moments sailing aboard Le Commandant Charcot, the world's first luxury polar exploration vessel and the first PC2-class polar cruise ship capable of sailing into the very heart of the ice, on seas and oceans which the frozen conditions render inaccessible to ordinary ships. Le Commandant Charcot is fitted with oceanographic and scientific equipment selected by a committee of experts. Take advantage of the on-board lectures and opportunities for discussion with these specialists to learn more about the poles. Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Day 7 - Sailing in the Geiranger Fjord

Listed as a UNESCO World Heritage Site since 2005, Geirangerfjord is part of the West Norwegian Fjords. Located in the south-west of Norway, to the north-east of Bergen, the fjord stretches from Stavanger in the south to Andalsnes, 500 km north-east. It is one of the longest and deepest fjords in the world and considered to be one of the most spectacular landscapes on the planet. You will admire the exceptional natural beauty of its narrow and steep-sided crystalline rock walls, rising to a height of 1,400 m and extending 500 m below sea level. Numerous waterfalls are part of the great variety of natural terrestrial and marine phenomena to be found at this site.

Day 8 - Alesund

Surrounded by a multitude of islands, fjords and majestic mountains, the town of Ålesund surprises many visitors. In fact, it is internationally renowned for its Art nouveau architecture. After the terrible fire of 1904 which reduced a large part of the town to ashes, Norwegian architects inspired by the Art nouveau

style contributed to its reconstruction, with a very picturesque result. Not far from Ålesund, you will also discover Giske, the native island of Rollon, the great Viking leader who commanded the Norse expeditions to Normandy, or the beautiful island of Godoy and the village of Alnes, which offers a grandiose panorama over the Atlantic Ocean and the surrounding islands.

Day 9 - Nordfjordeid

Nordfjordeid is a small town lying south of Ålesund, nestling in one of the arms of the Nordfjorden and its wild and magnificent shores. Between valleys with abundant vegetation and mountainous terrain, nature here offers a 360-degree view which was conducive to the early settlement of Viking communities, judging by the large number of tombs, among the country's largest and richest. You may get to deepen your knowledge of the Nordic culture and traditions at Sagastad, a surprising museum with interactive exhibitions and home, among other sights, to the Myklebust, one of the world's largest Viking ships, measuring 30 metres (98 feet) in length.

Day 10 - Flam

Nestled in the heart of the fjord country, less than 200 kilometres from Bergen, the picturesque village of Flam - pronounced Flom - offers you an experience of authentic Norway. You can mosey around the brightly coloured streets and admire the majestic contours of the surrounding mountains. The town is also the departure point for the mythical train route Flamsbana, 20 kilometres long, whose journey offers a superb view of the scenery, as sublime as it is pristine. This attraction makes Flam one of the country's main tourist destinations.

Days 11 - 12 At sea aboard Le Commandant Charcot

Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Days 13 - 14 Bergen

Located at the end of Byfjord, Bergen was the capital of Norway in the 12th and 13th Centuries and has preserved some very beautiful monuments from the time when it was home to royalty. Wandering through Bergen's streets means going back in time, in search of the hidden treasures that have been listed as World Heritage Sites by UNESCO. A veritable openair museum, Bergen is home to a thriving artistic community of painters, potters, jewellers. The Bergen cable car offers you a splendid panorama over the port and the surrounding fjords. Do not miss the visit to the old quarter with its narrow streets, a testimony of the power of the hanseatic League that controlled trade in Northern Europe at the end of the Middle Ages.
