In case of bad weather, we will make a stop at nearby Milna. Afterwards we head to Hvar, the longest island in Croatia, the sunniest in all Europe (2724 sunny hours each year) and undeniably among the most beautiful islands in the world. The Blue cave is famous all over the world for its extraordinary, magical, indescribable silver-blue light. After this enchanting experience we continue our journey towards Vis, an island we can say is the most mysterious island in Croatia. For many years it was the military and naval headquarters of Tito's partisan army and was closed to the public until 1989. This means that it had escaped large commercial development and was able to retain its natural

beauty and charm, resist development and become a world famous destination for real nature lovers and people seeking new adventures, these are but a few reasons we are in love with Vis. Evening is free to explore this charming little town on your own.
