

CYPRUS TO GREECE SMALL SHIP CRUISE

In a week - through half the ancient oecumene... And have you heard about a tiny Greek pearl beneath the bounteous belly of Turkish Lycia?

ITINERARY

Day 1 Limassol

Limassol is the second largest town in Cyprus. Apart from being a major tourist destination, it is also a principal hub for international business in Cyprus. This gives Limassol a cosmopolitan feel.

A many-kilometer stretch of coastline, from Pissouri to Governor's Beach, makes up one of Limassol's greatest advantages. Whether you are seeking a cosmopolitan atmosphere or a remote location, a family-oriented beach or one suitable for games and late night parties, there are dozens of beaches in the city and province of Limassol that cover all preferences for relaxation or water activities.

info@small-cruise-ships.com

Beautiful attractions, from ancient kingdoms to medieval churches, and from the neoclassical buildings of the city center to locations of natural beauty, combined with unique options for accommodation, wellness, and activities, all come together to create a diverse experience both in the city and countryside of Limassol.

Don't just see the city, experience it. Limassol crackles with its own unique energy. It is historical. It is cosmopolitan. It is exciting. It is wild. But above all, it is everything you could want it to be...

Day 2 At Sea

Whole day TALL SHIP sailing

While roving the sea, we will do our best to let you immerse into the genuine atmosphere of marine travel. We start with a tour of the ship, succeeded with the Bridge tour and the Engine tour. And we sincerely recommend you took part in our exclusive Marine Activities: children and adults alike will admire tying sailor's knots under the Boatswain's guidance; why not try yourself at mast climbing; the Captain and the Officers give regular master-classes on celestial navigation, sails setting, and probably the most exciting of all - you can put your hands on the steering-wheel and run the huge ship yourself like Captain Sparrow, basking in the feeling of freedom.

Day 3 Kastelorizo

The remotest Island of Greece

Aristocratic Neoclassical Mansions, Red Fortresses, Phantasmagorical Caves and Sapphire Waters in a Lilliputian Island.

On the easternmost edge of Greece, one will have the opportunity to explore the colourful island of Kastelorizo. Kastelorizo is a well-kept secret, a buried hidden treasure and a hideaway escape in the Aegean waiting for you to discover it. Just off the coast of Asia Minor, the remotest island of Greece might lack in size, but it replenishes in landscapes and colours; besides they say less is more. Kastelorizo is a true getaway escape. Dive in the sapphire waters of the biggest underwater cave of the country, hop into a boat to visit the isle of Ro, admire the neoclassical houses of the seaside promenade, taste the fresh fish of the fishermen at the seaside taverns and climb up to the Red Castle to enjoy the panoramic views! Kastelorizo will charm you from the first moment, as it is blessed from an atmospheric oasis found in few places in the world. Dare to flirt with this true experience!

Day 4 Symi

Main town features a neoclassical harbour of pastel-coloured buildings. Beyond the town, you'll find coastal hikes, coves ideal for swimming and historic sights, from the elegant Panormitis

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

monastery to castle ruins.

The entrance of the horseshoe-shaped port is dominated by Roloi, a clock tower. The Town Hall, the cathedral, the square and the Naval Museum of Symi are the main attractions on this side. At the location Myloi, visit Pontikokastro (the castle of mice!); there is a prehistoric tomb as well as remnants of old mills, used in the past for crushing grains into flour, yet some of them are households today. Behind the highest mountain of the island (560m) lies a beautiful cypress and pine tree forest.

The forest at Kourkouniotis is home to 120 byzantine wine presses of which eleven have been restored. The island held a fine tradition in winemaking up to the 18th c.

The most significant event is Symi's Festival that hosts a large number of cultural events such as classical and modern music concerts, dance, theater, cinema, and literature evenings from July to September every year.

Day 5 Astepalaia

"The bank of the Gods"

Astypalaia - or Astropalia as the locals call their island in their own dialect - is a lovely island that you will never forget. Thanks to its secluded location, it has managed to stay off the radar and has emerged as a great alternative destination. The Venetian Castle on the top of a hill in Chora, traditional windmills and whitewashed houses create a magical setting that never fails to seduce visitors!

Astypalea beaches are mostly unorganized and secluded,

offering the perfect setting for those who seek privacy and want to unwind away. Two of the most beautiful beaches of the island can be reached by the tourist boats which set off from Pera Yalos and Maltezana. These beaches are Kaminakia, where there is a tavern which serves boiled goat (stew), an island speciality, and Vatses, where there is a cave with stalactites and stalagmites.

Once upon a time the castle of Astypalaia had a key that was used to lock the island's belles in and out of the reach of visitors. Now-days on the other hand Astypalaia Island is wide open and shows its beauties as its inhabitants are welcoming to visitors who soon became friends and will come again!

Day 6 Santorini

This island houses the largest sea volcano in the world. Part of its crater went under water during an eruption, thus creating a caldera - a funnel filled with sea water. The resulting intense tsunami led to the sunset of the Minoan civilization. There is a theory that it was exactly this tsunami that sunk Atlantida (also known as Atlantis). The edge of the caldera is an upright rock, approximately 300 meters high. One may get to the top on foot, conquering 687 steps, ride a mountain road lined with stones, or take a funicular. Once up at the height of 220 meters above sea level, you will find yourself in the most beautiful town of Fira - the capital of Santorini. Picturesque views of the town attract cinema directors, painters and photographers from all over the world. Not surprisingly, people say that all most beautiful movies of Greece were made here - snow-white houses, blue roofs and

info@small-cruise-ships.com

thrilling views of the sea and sky merging together.

All sunsets at Santorini are as unique as the colors of the sea before the sun sets, and they never repeat themselves. The color of the sky becomes supernatural, and along with the views of the waves, the shape of the clouds, the smells and the wind - all come together to create a sense of magic. Add to this incredible multicolored beaches with volcano sand and you get one of the most wonderful places on Earth!

Day 7 Milos

Rich in allusions to Greek mythology and artwork

Thanks to its volcanic origin, Milos boasts a magnificent colorful landscape and a coastline that counts more than 40 exotic beaches.

Standing out for its majestic ambiance, rich history, picturesque fishing villages, amazing food, and indigo bays, Milos island in Greece is a timeless Cycladic gem that will steal your breath with its enchanting beauty. The variety of landscapes in Milos is unreal- you'll see nothing twice, there's always something new to discover. Being home to the Venus of Milo statue, which was discovered on the island and the stunning Sarakiniko beach, Milos' beauty is expressed in many ways!

Milos Greece welcomes everyone, but it is particularly popular with couples, which find in the serene natural landscape of Milos the perfect setting for their romantic holidays. Indeed, the

numerous caves, mysterious catacombs, and emerald Milos beaches squeeze enough charm to bewitch any traveler. Milos beaches are iconic, and especially the gorgeous Sarakiniko beach. This beach boasts a lunar landscape, consisting of volcanic gleaming white rock formations and crystal clear turquoise waters.

Day 8 Lavrion

Lavrion port is a major hub for ferries and cruise ships that connect Athens with the Cyclades islands. It is situated on the southeastern coast of Attica, and it offers easy access to popular destinations like Kea, Kythnos, and Serifos. The harbor is equipped with modern facilities and services, such as cafes, restaurants, and shops, as well as a marina for private yachts. Lavrion is also known for its rich history and cultural heritage, as it was an important center of silver mining and naval trade in ancient times.

YOUR SHIP: RUNNING ON WAVES

YOUR SHIP:	Running On Waves
VESSEL TYPE:	Three-Mast Sailing Vessel, Barquentine
LENGTH:	64 metres
PASSENGER CAPACITY:	42
BUILT/REFURBISHED:	

Running On Waves is one of the biggest sailing yachts in the world. According to SOLAS convention, the highest safety standards are maintained on board a vessel of this class, the same as would apply to a cruise liner carrying thousands of passengers. "Running on Waves" operates under the flag of Malta. The ship was conceived to combine maneuverability of a sport yacht, the highest standards of comfort and decor, and a shallow draft that allows calling at small marinas inaccessible even to many a big yacht, let alone cruise liners. The unmatched draft of 3.2 metres was made possible owing to a brilliant idea to use lead ballast. The uniqueness of a number of technological solutions confirmed by the US Patent Department. Every guest of ours enjoys 15,5 square metres of available open teakwood deck space, that is three times more than aboard most expensive cruise ships and would befit a most prestigious private mega-yacht. The policy of the Company is to always keep the boat in a mint condition. That is why, despite her tender age, we do profound refitting every winter, so that in Spring she welcomes you in full glamour of perfection. Sails are our main driving power, thus we boast unbeatably low level of

fuel consumption, on average 75 l per hour only, which is about 10 times lower than on a motor boat of a comparable size. Premium comfort notwithstanding, RUNNING ON WAVES is nothing close to a floating hotel or a museum on water, she is a supercharged windship, and with favourable wind can run at 16 - 17 knots under sail. The ship's superbly efficient ratio of sailing surface to displacement 2 sw.m/t makes her one of the fastest sailboats of old and new times. To make sailing comfortable at any sea conditions, cutting-edge technologies were used, such as pitch-killing stabilizers, while sophisticatedly calculated mass distribution prevents the hull oscillation frequency from resonating with the frequency, which affects human vestibular system. There are desalinators on board which account for the unlimited supply of fresh water. Air-conditioning throughout the vessel makes you feel a sheikh even in hottest days of Mediterranean summer. Our state-of-the-art hydraulic ramp at the stern of the vessel allows for a direct access to water for swimming and water sports. Sun Deck Primary feature -- a spacious deck for sunbathing with 16 chaise lounge chairs, which are accessible at any time absolutely free of charge. Additionally, the ship has a large area of covered surfaces, creating vast shaded zones on open decks, which allow for an enjoyable cruise while being protected from the sun. A fresh water Jacuzzi-swimming pool, accommodating six people, is located in the fore of the ship. In the aft of the ship, navigation equipment is behind the command bridge, followed by the massage center and the lounge area. A tour of the command bridge can be arranged at passenger's request. One may enjoy professional massage services in the massage parlor, followed

by some downtime on a small sofa in the lounge area. Main Deck The restaurant located on the Main deck is ready to please the ship's guests with delicacies of Mediterranean cuisine. A fantastic Ocean Bar, located in front of the restaurant in the central part of the deck, offers refreshing drinks and exotic cocktails. You can enjoy your breakfast seated on comfortable sofas located in the cockpit, aft of the ship. Smoking is not prohibited in this zone. An observation deck in the fore of the ship is above the bowsprit, creating the feeling of flying over the water! Mini-suites and Premium cabins are located on the main deck. Size of the cabins vary from 16m² to 20m² (172ft² - 215ft²). Tween Deck Passenger cabins occupy most of the tween deck. Crew cabins, companion cabins for the crew and the galley are also located on the tween deck. Fully equipped Water sports center with access to a hydraulic ramp is located in the stern. The stern can be opened up and lowered onto the water, transforming into a diving deck for water sports and recreation. Standard cabins and economy class cabins are located on the tween deck. Cabin sizes vary from 11m² to 12m² (118ft²

- 129ft²).
