

FJORDS AND GLACIERS OF SPITSBERGEN - LUXURY ADVENTURE EXPEDITION

Somewhere in the High Arctic , between 76 and 80 degrees latitude North, Spitsbergen , meaning "pointed mountains", awaits you for seven days of unforgettable travel looking out for wild life. You will lift the anchor in Longyearbyen , where colourful wooden homes dot the landscape with a human presence that will certainly be the last you see for a while. The sea rolls on, and the white-striped mountains, which gave the region its name, rise up from deeply tinted waters. The polar light combines with the changing weather of the Arctic, a big blue sky, the horizon scattered with clouds, the enveloping mist erasing the border between the land and the sea: these variations all provide the magical, almost surreal, setting with new nuances. The ship is escorted by Arctic fulmars. The first ice appears; still discreet, it seems to be dancing around you. At the end of a fjord, you will find yourself before an immense glacier. Black-legged kittiwakes share an iceberg, while Arctic terns fly over the area. Aboard the ship or a Zodiac dinghy, you will admire the power of nature while becoming aware of its fragility. The music of the thaw has begun its soft melody: a combination of cracking, roaring, murmuring and fizzing defies the silence of the polar desert. On land, you will set foot on malleable earth, known as moraine. Only moss, lichen and a few rare flowers have managed to adapt and to take hold here, forming the tundra. On these inhospitable lands, Svalbard reindeer and Arctic foxes coexist with walruses, lying on the beach. It has been a long time since the Pomor settlers, of which traces remain, came to hunt them. Here, the lord of the Arctic, the polar bear , is never very far away. The crucial aspects of this cruise involve searching and keeping an eye out. On board, the team of naturalists will scan the horizon so they can provide you with marvellous sightings of wildlife and, in particular, the polar bear. The region's elusive fauna upholds its mysteries while the uncertain nature of the encounter bestows an indescribable magic upon it. _Itinerary is?subject to change according to port authorizations and government regulations. We are privileged guests in these remote lands where we are at the mercy of weather, ice, tidal and current conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by

the AECO._

ITINERARY

Day 1 Longyearbyen, Spitsbergen

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

Days 2 - 3 South-West Region of Spitsbergen

Set sail for southwest Spitsbergen, immerse yourself in this environment unlike any other and explore its unexpected riches. In this natural sanctuary, the polar light combines with the changing weather of the Arctic, a big blue sky, the horizon scattered with clouds, the enveloping mist erasing the border between the land and the sea. Follow in the footsteps of the first explorers and admire the majestic fjords and glaciers sculpting the breathtaking landscapes, their icy waters shimmering beneath the midnight sun. The fjords, veritable cathedrals of ice, reveal their millennial secrets, while the glaciers, like sleeping giants, move slowly towards the sea, setting free sparkling icebergs. On the water, you might spot belugas and rorquals, while on the shores, seals and Arctic foxes add a touch of mystery to this living tableau, where the steep cliffs become breeding grounds for thousands of seabirds, like guillemots. Southwest Spitsbergen is an ode to nature in its rawest and purest form.

Day 4 Sailing toward the ice floes

Your captain will sail right up to the limit of the ice, to the edge of the ice floe. Weather conditions and state of the ice allowing, you will be able to go out in a zodiac dinghy for a unique experience in the middle of these floating slabs of ice. In addition to this grandiose journey through the middle of these floes with their cut and blue-tinged edges, sometimes over 2 metres thick, it is also often an opportunity to see a particular kind of fauna, totally dependent on the ice floe: birds, seals and polar bears.

Days 5 - 6 North-West region of Spitsbergen

A kingdom of contrasts and natural marvels dotted with islands and peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. The fjords bathed by icy waters, the jagged mountains and the imposing glaciers stand majestically before you, like monumental sculptures. In these lands, where souls are filled with deep serenity, only the murmur of broken ice, bearing mysteries and legends, disturbs the calmness. Aboard our Zodiacs and in the company of naturalist-guides, get as close as possible to this unique fauna and discover this centre for scientific expedition departures. In the distance, majestic whales glide silently through the glacial waters, whereas seals, walrus and Arctic foxes add a playful touch of life. As Svalbard reindeer wander the vast expanses, Arctic terns liven up the polar sky with their gracious flight and polar bears, which you may be lucky enough to see, patrol magnificently along the icy shores.

Day 7 Ny-Alesund, Spitsbergen

During your cruise, discover Ny-Ålesund, a former mining town that has been transformed into a scientific base. Founded in

1916, this small town was the departure point for many Arctic expeditions, including those of the famous explorer Roald Amundsen. Don't miss a visit to the museum and its famous post office, considered to be the most northerly in the world!

Day 8 Longyearbyen, Spitsbergen

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.
