

FROM THE ST LAWRENCE TO GREENLAND, THE LAST MOMENTS OF WINTER

Winter is almost over. Although the ice has begun to break up in the, a blanket of white still covers the tops of the conifers that make up the boreal forest. From the delicious comfort of Le Commandant Charcot, the cliffs of Gaspe and Forillon National Park hide the mysteries of the hinterland. Meanwhile, on the shores of the Gulf of St. Lawrence, the majestic wooded expanses formed by sugar maples, yellow birches and American beeches still wear a cloak of white. On Greenland's frozen south-west coast, the sheer vastness of the landscape stops time as the broken ice takes possession of the land. Here, the colour white reveals its nuances in the drifting icebergs, broken sea ice, majestic fjords and jagged mountains that form the changing landscape. At this exceptional time of year, when spring is in the air, you will have the chance to meet the Inuit communities and experience authentic moments of connection.

ITINERARY

Day 1 Montreal

Famous for its gentle way of life, Montreal, Canada's second-largest city, is a warm and cosmopolitan metropolis. Situated on the eponymous river island, it is home to a multitude of districts, each as unique as the other. Set off to discover Old Montreal, most of which is declared a historic area, Little Italy, where you'll be able to stroll around the largest open-air market in North America, or the Golden Square Mile, the luxurious district located on one of the hills of Mount Royal and which has sumptuous Victorian-style residences. Simultaneously marked by the influences of the Old Continent and North-American gigantism, Montreal will never cease to amaze you.

Day 2 Exploring River Saint Lawrence & Sailing Saguenay River

Linking the Atlantic Ocean to the Great Lakes region inland, the Saint Lawrence Seaway was inaugurated in 1959, more than 250 years after the initial construction aiming to avoid the rapids obstructing navigation in these parts. This large engineering project, which required four years of huge work, offers a unique sailing experience.

In the heart of winter, the Saguenay River becomes an enchanting setting. Aboard Le Commandant Charcot, set sail on a captivating cruise. The once turbulent waters of the Saguenay are now calm and silent, covered in a thick layer of ice. The trees lining its shores are wrapped in a glistening coat of snow, forming a majestic alley. At twilight, when the sun is setting behind the mountains, pink and gold reflections light up the horizon, turning the landscape into a bewitching tableau.

Day 3 Saguenay

The city of Saguenay nestles in a valley through which flows the eponymous river, one of the region's treasures. As it joins the Saint-Lawrence, the Saguenay River forms a spectacular fjord boasting extraordinarily differing landscapes. From Saguenay, you can explore the attractive Saguenay-Lac-Saint-Jean region, which is a paradise for those who love the great outdoors. You can combine country walks with boat trips within the various national parks studded throughout this extraordinary natural kingdom.

Day 4 Exploring River Saint Lawrence

Linking the Atlantic Ocean to the Great Lakes region inland, the Saint Lawrence Seaway was inaugurated in 1959, more than 250 years after the initial construction aiming to avoid the rapids obstructing navigation in these parts. This large engineering project, which required four years of huge work, offers a unique sailing experience.

Days 5 - 6 Gaspé

In the glacial darkness of the Canadian winter, Gaspe stands proud like a preserved and authentic jewel at the edge of the dark waters of the Gulf of Saint Lawrence. Nature seems to be holding its breath. The captivating Mount Jacques-Cartier, the highest point of the Chic-Choc Mountains range and the South, is dressed with an immaculate coat of snow, while the frozen rivers slowly wind their way, fixing time in their icy embrace. During a snowshoe walk, fall in love with the captivating landscapes of the L'Anse-au-Griffon Valley, right in the heart of the Forillon National Park. Then, in Perce, opposite the famous eponymous Rock, dive into the natural beauty of the "magic forest", where thousands of conifers decked out in an immaculate white cloak are like silent guardians watching over this isolated piece of land. You may also fall in love with this charming town, where the exciting history and the conviviality of the locals come together in a delightful blend.

Day 7 Sailing Saint Lawrence Gulf

In the Gulf of Saint Lawrence, the waters are still partially frozen but the ice break-up has begun. The broken-up ice makes for a fascinating spectacle, forming shapes that seem to be dancing across the waves. You will sail in the Gulf of Saint Lawrence, following in the footsteps of Jacques Cartier, who reached it during his first voyage in 1534. From the bridge, if luck is on your side, you will contemplate the seals and belugas that populate the region during this season. In the distance, the boreal forests, their peaks whitened by the last snow, offer you the idealised image of this piece of Canada. A moment of indescribable magic.

Days 8 Crossing Belle Isle Strait

Sailing the Strait of Belle Isle will guarantee a moment of intense emotion. Your ship will enter this waterway, which separates Newfoundland from the North American continent, while the ice break-up is only just beginning its cycle. From the bridge, if the ice is still present, you will perhaps observe the Greenland seals which populate these waters dotted with fragments of ice floe, aiming to breed there. Time stands still, a magical spell is cast.

Days 9 - 10 At sea aboard Le Commandant Charcot

Spend exceptional moments sailing aboard Le Commandant Charcot, the world's first luxury polar exploration vessel and the first PC2-class polar cruise ship capable of sailing into the very heart of the ice, on seas and oceans which the frozen conditions render inaccessible to ordinary ships. Le Commandant Charcot is fitted with oceanographic and scientific equipment selected by a committee of experts. Take advantage of the on-board lectures and opportunities for discussion with these specialists to learn more about the poles. Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Day 11 Qaqortoq

Follow the Davis Strait currents and Qaqortoq, the largest town in southern Greenland, reveals itself in a rocky setting covered in immaculate white in winter and enchanting green in summer. From the moment your ship enters the fjord edging the town, off in the distance you will be able to glimpse the delightful, brightly-coloured houses built upon the hillsides surrounding this charming fishing port, the most southerly in Greenland. You will have the opportunity to wander around the streets of the town centre which have distinct Danish influences and are home to numerous historical buildings and landmarks, such as the country's famous and oldest fountain, topped with whales. Not far from there, you will also have the chance to discover the town's open-air fish market, where fishermen come to sell the day's catch.

Day 12 Narsarsuaq Region

The Narsarsuaq region is a veritable Arctic jewel, famous for its majestic landscapes and its historic and cultural treasures. Fall under the spell of the untamed power of this region's deep fjords, between sheer cliffs and impressive summits, during a Zodiac cruise on the Bredefjord. You will navigate among the icebergs with their fascinating shapes and blue tones, or set off to explore the neighbouring island for a total immersion in this grandiose nature. You will also discover the local history and culture by visiting the remarkably well-preserved Viking vestiges - evidence of a rich past and a reminder that they were the first to discover Greenland in 942 (Erik the Red) - or the charming village of Qassiarsuk, where you will learn more about the way of life of local communities.

Day 13 Uunartoq & Tasermiut Fjord

In the heart of Greenland's icy waters lies the island of Uunartoq, a harsh and wild land forged by the constant Arctic winds. Discovered in 2005 by explorer Dennis Schmitt, Uunartoq is an impressive island of sheer cliffs sculpted by the relentless waves and home to unexpected natural wonders. An icy mantle covers every part of this austere land, with the exception of a hidden cove where hot springs defy the harshness of the Arctic cold. Surrounded by icebergs and drifting glacial ice, Uunartoq offers an unusual activity: the chance to swim in a natural pool carved out of the rock. Here, after a polar hike, you will have the opportunity to shed your

winter clothes, immerse yourself in these relaxing springs and let the warmth soothe each of your muscles as it envelops your body.

Tasermiut Fjord, a true natural wonder lying at the southern tip of Greenland, is 70 kilometres long. Isolated for much of the year by ice, the fjord cuts deep into the wild tundra, revealing breathtakingly beautiful hidden valleys and varied wildlife. You can also admire immense granite cliffs. The reflections of the mountains in the cold blue waters of the fjord make a magnificent landscape for you to explore in this part of Greenland.

Day 14 At sea aboard Le Commandant Charcot

Spend exceptional moments sailing aboard Le Commandant Charcot, the world's first luxury polar exploration vessel and the first PC2-class polar cruise ship capable of sailing into the very heart of the ice, on seas and oceans which the frozen conditions render inaccessible to ordinary ships. Le Commandant Charcot is fitted with oceanographic and scientific equipment selected by a committee of experts. Take advantage of the on-board lectures and opportunities for discussion with these specialists to learn more about the poles. Participate in furthering scientific research with PONANT and let us discover together what these fascinating destinations have yet to reveal to us.

Day 15 Nuuk

When Erik Le Rouge, the exiled Norse chief, landed on the coast of Nuuk, he found a fertile and welcoming land dotted with fjords. He settled there with a group of his former countrymen, and the Norse remained the principal inhabitants until, over a period of 500 years, their population declined and gave way to the Inuit. Nuuk is situated at the mouth of one of the largest networks of fjords in the world, where the waters never freeze. The town spreads gently out towards the Davis Strait and enjoys an historic center that is particularly rich in national heritage. The vivid reds, blues, greens and yellows of the houses are a lively contrast to the somber waters of Greenland and serve to lift the spirits of the locals during the Winter months.

YOUR SHIP: LE COMMANDANT-CHARCOT

YOUR SHIP: **Le Commandant-Charcot**

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

With its hybrid propulsion combining liquefied natural gas (LNG) and electric generators, Le Commandant-Charcot has been designed to minimise the environmental impact of travel to the furthest latitudes. The decoration of the ship, designed by two internationally renowned design and architecture firms - the studio of Jean-Philippe Nuel and Wilmotte & Associes - is designed to be in harmony with the environment. The approach is contemporary with the desire to create a warm and elegant setting; stone, wood and leather recall the natural environment in which the ship is sailing. Equipped with just 135 staterooms including 31 suites with balconies and outside views, Le Commandant-Charcot welcomes you in an intimate and refined atmosphere. Outstanding gastronomy in the two restaurants, relaxation in the indoor pool surrounded by its winter garden, relaxation in the well-being area with sauna and Snow Room... Like on a private yacht, each of our guests is unique. PUBLIC AREAS Le Commandant-Charcot has many common areas that are designed and equipped to meet all of your needs while preserving the intimacy of each passenger. A 177 m² reception area includes: A reception/concierge desk, An expeditions desk, The ship's administrative services, The sales office, manned by our Hospitality & Travel Manager officer, Our boutique which sells clothing, jewellery, beauty products, postcards and various accessories, The image & photo desk. The different lounges include a 302 m² main lounge including a 28 m² cigar lounge, a tea corner and a bar, with live music on selected evenings, A 400 m² panoramic bar and lounge, An open-air Bar. The recreation spaces Fitness & Beauty Corner: Fitness room: Elliptic, running machines, bicycles... Beauty Corner: Hairdresser, Massage rooms, Sauna, Snow Room, Nail Shop. Pool area: Indoor Pool and winter garden - Outdoor Pool Theatre: Capacity: 270-276 - Main show room for conferences and live entertainment on selected evenings - State-of-the-art audio and video technology. Leisure area: Public areas - Library - Medical centre. 16

Zodiacs on board.
