GALAPAGOS CRUISE - 4 DAYS (GRAND MAJESTIC)

Our complete itineraries are developed for the benefit of our passengers, who will have the opportunity to combine hiking, snorkeling, beach and kayaking; our professional guides will introduce you to the most relevant sites on each island.

ITINERARY

Day 1 (Monday) San Cristobal Island

El Junco Lagoon The Junco Lagoon, located about 700 m above sea level, is one of the few permanent freshwater bodies in the Galapagos. Frigate birds are often seen here washing the salt from their feathers as well as white-cheeked pintails and common gallinules. Its name comes from a type of plant that is common in this area called “junco”.

Day 2 (Tuesday) Floreana Island

In the morning, you will visit the famous Post Office Bay. You will land on a beach and head to a spot where 18th century whalers placed a wooden barrel used as an unofficial mail box. The custom continues to this day with Galapagos visitors. So, don't forget your postcards, and don't be surprised if the post card

arrives to its destination before you even get home! Your afternoon visit is to Cormorant Point. Here you will enjoy a hike to a salt-water lagoon which is home to flamingos. You will also have a chance to snorkel around Devil's Crown which is the rocky remains of an offshore volcano sticking out of the water. This is a great location to spot a wide range of marine creatures.

Day 3 (Wednesday) Española Island

In the morning, you will visit Suarez Point. On the trail you will have the chance to see blue-footed boobies, albatrosses, and Nazca boobies. This island is the breeding site of nearly all of the world's 12,000 pairs of waved albatrosses. You will also visit a beautiful site on the ocean front where there is a cliff that the large albatrosses use as a launching pad! You will have the chance to see the famous blowhole that spurts sea water into the air. The landscape is great for photography. The afternoon excursion takes you to the spectacular Gardner Bay. After landing, you can walk across a lovely white-sand beach amongst a busy sea lion colony or dive into the water to swim with sea lion pups. You may also see curious mockingbirds on the beach.

Day 4 (Thursday) Santa Cruz Island

In the morning, you will visit the Twin Craters located opposite to each other on both sides of the road leading from Puerto Ayora to Baltra. The name is only figurative; not real craters, these formations were created by the collapse of surface material in underground fissures and chambers. The view is breathtaking. After visiting the Twin Craters, you will be transferred to the Baltra airport to catch your flight to Guayaquil or Quito on mainland Ecuador.

Please Note:

Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, safety concerns, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the time or nature of visits. Your guide and captain will always endeavor to select the best itinerary within these limits.
