

GIANTS OF THE SOUTHERN OCEAN: WHALE VOYAGE

This is our fantastic 9-day sunset voyage to the Great White Continent. Experience incredible whales, stunning mountain sceneries and gigantic icebergs in action-packed days on what we like to call a true expedition. Once we hit mid to late march, we end our season with a truly unique experience. These shorter days with magical sunsets allow us to explore the isolated Antarctica more or less by ourselves, as the peace settles in. We do expect plentiful company in the form of humpback whales as their numbers peak in this part of the season. Wildlife is the highlight of a mid to late march trip as pictures of whales, seals, birds and penguins fill our SD memory cards. Departing Ushuaia in Argentina, we cross the mighty Drake Passage en route for the South Shetland Islands, making Zodiac landings at fascinating places along the way. Taking our time to soak in all the beauty of these astonishing landscapes we deploy kayaks and arrange hikes to get as close to the nature as possible. Onboard our strong, ice-classed expedition vessels, we are sure to get close to the dramatic coastlines. Zodiac cruising and shore landings are an important and considerable part of the planned itinerary, enabling all expedition guests to set foot several times on the Antarctic continent, as well as the many surrounding sub-antarctic islands. Any voyage to Antarctica is an adventure, but with a maximum capacity of 198 guests aboard Ocean Atlantic or 186 guests aboard Ocean Victory/Ocean Albatros, these cruises offers a unique experience for the few. Shore landings, excursions, lectures and whale safaris are easily accommodated to help you enjoy a matchless expedition experience. With the patented X-BOW design, the Ocean Victory and Ocean Albatros will offer you a smoother sailing across the

Drake passage, and due to the speed of the vessels, we might be able to do a first landing or activity in the South Shetland islands on Day 3 late

afternoon.

ITINERARY

DAY 1 ARRIVAL USHUAIA, EMBARKATION

Arrive in Ushuaia, Argentina - the world's southernmost town. Explore the quaint city or local countryside. Alternatively, consider a day trip off the beaten path to the raw, natural

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

archipelago of Tierra del Fuego. It's a hiker's paradise with rugged snow-capped mountains, glaciers, flower-filled meadows and boggy quagmires. In the afternoon, we board our ship. Our journey begins as we navigate through the calms of Beagle Channel, a strait in the Tierra del Fuego Archipelago

DAY 2-3 AT SEA - CROSS DRAKE PASSAGE, SOUTH SHETLAND ISLANDS

Sailing onward, we cross the famed Drake Passage - a body of water that marks the intersection of the cold Antarctic with the warmer Atlantic and Pacific Oceans. Drake Passage is known for rollicking conditions and strong westerly winds, called the Roaring Fifties. While this passage may be challenging, you can rest confidently aboard our expedition vessel, which is purpose-built with stabilizers, powerful engines and a highly-qualified crew. The most spirited sailors consider Drake Passage a lifetime achievement, and you will complete the crossing twice! In the Drake, the excitement builds as Antarctic wildlife comes into view. Weather permitting, we will catch our first sight of seals and penguins! The area is also well known for its abundance of birds. With the patented X-BOW design, the Ocean Victory will offer you a smoother sailing across the Drake passage, and due to the speed of the vessel, we might be able to do a first landing or activity in the South Shetland Islands on the afternoon of day 3, weather permitting.

DAY 4 SOUTH SHETLAND ISLANDS

Over the day, we will begin the exciting Antarctic experience our ancestors only dreamed of. We will explore the sub-Antarctic islands of the South Shetland chain and be marveled by the captivating landscapes we will encounter along the way. Weather permitting, our projected landfalls include: Deception Island, an extinct volcano with waters warm enough for a polar swim; and Half Moon Island with nesting Wilson's storm petrels.

The itinerary and activities depend on weather and ice conditions. The route and shore landings will be determined by the captain and expedition leader and communicated to guests through regularly scheduled briefings.

DAY 5-6 ANTARCTIC PENINSULA

As the white shimmer of Antarctica looms on our horizon, wildlife abounds along our projected route along the Antarctic Peninsula, with especially Antarctic fur seals, gentoo penguins and humpback whales being active in these wonderful waters. We aim to take our time at these outings, allowing us to deploy kayaks and arrange wonderful hikes in the pristine nature. The late season solitude creates unique memories as the sun sets and as we leave these isolated areas that most probably won't welcome any visitors until next spring. The projected landings include: Wilhelmina bay with plenty of humpback whales; Neko harbour with its gentoo penguins and seals; Brown station and Paradise harbour with wonderful views and on our way back north, a wonderful walk at Hannah Point awaits us. The itinerary and activities over the next days depend on weather and ice conditions. The route and shore landings will be determined by the captain and expedition leader and communicated to guests through regularly scheduled briefings. Please note that all the outings and landings rely on weather, sea and ice conditions being favorable both for the ship to access the areas, as for the zodiacs and kayaks to maneuver under adequate conditions, ensuring the safety of all our passengers and staff. For this reason, during moments of harsh weather and throughout the entire trip, our ships offer excellent public areas such as wellness/sauna, restaurant, bar and a library for our passengers to spend their spare time. Our ships are staffed by experts in the field who will also share great lectures along the way, ranging

from exploration history to biology, geology, ice and wildlife. Visitors to these far southern reaches in mid to late March/beginning of April will experience large amounts of whales, wonderful sunsets, crisp fresh air, dustings of snow and other telltale signs of the seasonal change. Some penguin colonies will be near deserted whilst others will be very busy. Many say that this is the time to visit the real Antarctic, and have it all for yourselves. It is safe to say that there will be fewer other ships around as we wrap up the season.

DAY 7-8 DEPART ANTARCTICA - AT SEA

We depart Antarctica and spend two days at sea on our way back to the calms of Beagle Channel and Ushuaia, Argentina. En route, we will cross Drake Passage and cruise past Cape Horn, a legendary maritime landmark and the southern tip of South America. During our time at sea, a variety of activities will be arranged on board which will provide the perfect opportunity to socialize with fellow travelers equally passionate for discovering the world, enjoy the lectures by our expedition on board, visit our shop or relax at leisure on our ship's facilities, designed to provide a comfortable, relaxing time.

DAY 9 BACK IN USHUAIA AND DISEMBARKATION

This morning, we arrive back in Ushuaia for the conclusion of our tour, where you can continue your adventures or begin your return home.

Please Note:

Itineraries are subject to change.

YOUR SHIP: OCEAN ALBATROS

YOUR SHIP:

Ocean Albatros

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

The Ocean Albatros will be deployed to a large selection of expedition cruise destinations, Antarctica, the Arctic, any various exciting new destinations in between. With a total of 95 comfortable staterooms and suites, all with unobstructed sea view, most with their own balcony, the Ocean Albatros will definitely become one of the most popular expedition cruise vessels in the world. Like its sistership, the Ocean Victory, it offers two restaurants, a wellness area, an Albatros Nordic Bar, an open deck dining facility, a modern lecture lounge, and other state-of-the-art amenities. The vessel will have more than a 50% lower carbon footprint than traditional expedition vessels and be one of the most environmentally friendly, implementing the Green Initiative Program, ensuring both absolute comfort and sustainability for our guests. Unlike the Ocean Victory, the Ocean Albatros will also offer a unique panorama sauna, and a total of 12 dedicated solo travel cabins without a single-supplement. The vessel belongs to the greenest generation of cruise ships in the world. Its tier 3 compliant engines give up to 80 percent less emissions and operate on significantly lower fuel consumption. **BRIDGE** Due to its important role as a control center for all nautical and technical

processes, the ship's bridge is a vital, sensitive place. Therefore, the bridge may not be accessible to the public at all times. Conditions permitting, we will be happy to welcome you into the bridge for a visit. Guests must be accompanied by the master or our expedition leader. **STATEROOM SERVICE** Your stateroom is serviced daily. We provide a turn-down service. We provide meal to room only for serious cases of guest being sick. Our suites will have VIP services. **ZODIAC LANDINGS** One feature of our expedition cruises includes landings and excursions aboard Ocean Albatros's fleet of 18 inflatable, motorized rubber "Zodiac" boats. The Zodiac brand has earned a well-deserved reputation as the sturdiest and safest small watercraft available. These boats have a low draft and great stability. Zodiacs are constructed for professional use and are outfitted with a top-quality outboard engine, yet their design minimally impacts the environment. The Zodiacs are designed to provide unrestricted access to the world's last great frontier. Their versatility enables us to make landfall on remote shores, cruise along awe-inspiring coastlines and share breathtakingly close encounters with whales, seals, penguins, seabirds and more. We will come within arm's reach of icebergs and set foot on land discovered by pioneering explorers just over a century ago. Your safety and comfort are our #1 priority, and your expedition leader will carefully plan for as many Zodiac excursions as possible, dependent upon the local weather and prevailing conditions. In each case, the expedition leader makes the final decision if the landing is possible or not. Safety regulations apply on landings. All guests receive a mandatory instruction of the safety guidelines. Life jackets are mandatory to wear. Please

info@small-cruise-ships.com

note, we highly recommend the use of waterproof bags in order to protect your personal camera or binoculars, as both hands must be free of everything during boarding. Participation is fairly easy and comfortable for able-bodied guests but can be more challenging for those with physical handicaps. **GRATUITIES** Following international standards in the service industry, it is customary to leave gratuity for the ship's crew at the end of the voyage. All gratuities will be divided among the crew. Typically, a recommended amount is approximately 13.5 USD per person per day. Gratuity is, of course, not required and any gratuity payments are voluntary. **DRESS CODE** The dress code on board is casual. Ties, jackets and evening dresses you may leave at home. It is rather more important to wear the right clothes in order to adapt to the different weather conditions. We recommend comfortable, breathable, waterproof and windproof clothing. Also, you should have a pair of gloves, thermal underwear and sturdy footwear in your luggage. For the captains and farewell cocktail, we recommend a smart casual dress style. **INTERNET / PHONE** Keep in mind, we will be cruising in a very remote region of the world. Where accessible, internet access is available for an extra charge. Mobile phone reception may be possible in select regions along our route. For further details please contact your mobile phone operator. Prices can be found in the information folder in your state room. Please ensure that your 'Data Roaming' function is switched off. **RECEPTION** The daily office hours of the board reception are from 06:00 until 23:00. **ALBATROS OCEAN SHOP** The selection of items available for purchase varies by ship, and may include a range of warm and practical clothing, as well as souvenirs, local arts and postcards at reasonable prices. A small selection of soap, toothpaste and other personal effects are also sold. **HEALTH / MEDICAL EMERGENCY** Each of our vessels has a small medical

facility equipped with the necessary equipment and medicine to handle small emergencies. The infirmary is always staffed by a professionally licensed, English-speaking physician and nurse. Should a serious incident occur, the nearest hospital will be contacted. All guests must have personal travel/health insurance. Although we do not have an official requirement regarding personal fitness, you should be able to move on board and ashore without the help of others. Please be aware that the ship does not provide wheelchair accessible state rooms. Due to safety reasons a cruise is only possible for pregnant women until the 24th week of pregnancy. The state of pregnancy must be presented by a medical certificate. **PHYSICAL DISABILITIES / WHEELCHAIR ACCESSIBILITY** Guests with physical disabilities are recommended to travel with an accompanying person. The processes on board should be handled without external help. The gangway can be - depending on the individual disability - a challenge. The angle of inclination of the gangway varies due to tide and different circumstances in the respective port. Please note that the guest's participation in shore excursions as well as the (dis-)embarkation by Zodiac can be denied by the expedition leader due to security reasons. The instructions of the expedition leader must be followed. The ship is not suitable for wheelchairs. **SEASICKNESS / STABILISATORS** The ship is equipped with stabilizers in order to reduce the ship's roll. However, these expeditions are hosted in remote regions, and it is possible to periodically encounter changing environments and climate patterns, including rough seas and large swells. Seasickness patches (Scopoderm or similar) work solely or in part to help cure nausea for most people. These medicines can cause sleepiness. If you are prone to motion sickness, consult with your doctor prior to departure to help ensure your comfort while travelling. **SPECIAL DIETARY REQUESTS** All meals on board

the vessel is chef-prepared. If you have special dietary requirements (food allergies, intolerances, health conditions or religious preferences), please inform us as early as possible - ideally, no later than 2 weeks before departure. In order to ensure efficient service, please re-confirm your requirements with the crew upon boarding the ship. LAUNDRY If you wish to have some laundry done while aboard the ship, laundry service is available for an

additional fee.
