

GREAT BEAR RAINFOREST - NORTH AMERICAN SAFARI IN THE FALL

The Ancient North American Rainforest Explore the wild and remote regions of the central coast of British Columbia on a Great Bear Rainforest tour in the Autumn. The fall months bring the return of the salmon and with it a feeding frenzy to be witnessed. Whales, marine mammals, marine birds, bears and more all gather in this region to feast on the bountiful salmon that have returned to spawn in the rivers. This is the best chance to witness the rare spirit bear at a salmon stream or see a mother grizzly teach her cub how to catch a salmon in a major river estuary. Great Bear Rainforest tours set out to explore fjordlands, remote islands, river estuaries, and west coast beaches. Get to know the intricate and complex temperate rainforest and the species that thrive here, with expert guides and an informative naturalist whose knowledge of the natural history will be shared with you. _Some departures may have slightly modified itineraries. Please confirm the itinerary with an Expedition Specialist._ _Shorter six-day voyages are available. Please contact us for more information._
