IN THE HEART OF THE NORTHWEST PASSAGE 2026 LUXURY EXPEDITION CRUISE

With PONANT, set off to discover Baffin Bay all the way to the mythical Northwest Passage during a 20-day expedition cruise aboard L'Austral. Leaving from Kangerlussuaq, explore the heart of this historic maritime route and set off for an unforgettable stay among the Arctic's most beautiful landscapes. First of all, you will explore the western coast of Greenland which will welcome you with its majestic icebergs in Disko Bay, a UNESCO World Heritage Site, and its colourful villages encircled by mountains and basalt formations. This is the ideal opportunity for meeting the local population and learning about Greenland Inuit culture. Then set sail for the Nunavut province in Northern Canada, to approach the entrance of the Northwest Passage. Amundsen was the first to pave the way on this northern route between the Atlantic and the Pacific Oceans, which long remained just a theory for navigators and scientists. On Beechey Island, retrace the steps of the Franklin expedition, before marvelling at the sublime canyon at Fury Beach. Throughout your trip, you will enter grandiose fjords and sail at the edge of the ice floes, in the hope of glimpsing the polar bear, the lord of the Far North. After Bellot Strait, the narrow passage of Coningham Bay will provide the perfect spot for an encounter with majestic belugas. In Artic Bay, you will meet the inhabitants of an Inuit village and will be able to build unique relationships. The exploration of nature and wildlife and, above all, the polar history linked to this mythical route are the common theme of this journey, which will let you experience magic and unforgettable moments. The raw beauty of the Arctic offers an unforgettable backdrop, while the team of on-board naturalists sharpens your adventurer's soul. With a keen eye, you will scan

the coastlines, fjords and glaciers in search of traces of life - a colony of walruses, a polar bear, beluga, northern fulmar, guillemot, Arctic tern, black-legged kittiwake... - and comprehend the historic places that bear witness to this

iconic passage.

ITINERARY

Days 1 - 20 Northwest Passage Exploration

You will embark in Nuuk on 31 August 2026 and disembark in Nuuk on the 19 September 2026.

As the capital of Greenland and a key regional hub, Nuuk offers port facilities fully suited to maritime operations, as well as

excellent air connectivity, making your journey to and from the destination seamless.

The first stop in Nooralaq, on Greenland's eastern coast, allows for immediate immersion in the vast tundra landscapes and the region's wild fjords. The journey then continues towards Disko Bay, where a longer exploration period is allocated, offering a more in-depth discovery of this emblematic region of western Greenland, renowned for its monumental glaciers, volcanic formations, and spectacular light.

The expedition then extends deep into the Canadian Arctic, within the Nunavut Archipelago, with a gradual and thorough exploration of some of the most remote territories in the Northern Hemisphere. Calls at Pond Inlet, Philpots Island, and Devon Island provide several days dedicated to discovering these grandiose landscapes of glaciers, sheer cliffs, and vast tundra expanses. We would like to inform you that access to the Baffin fjords is regulated and currently restricted by the Inuit communities of Pond Inlet, who conduct their annual subsistence narwhal hunt there.

Zodiac landings, supervised by our naturalist guides, allow for close access to the coastline and remarkable natural sites.

Navigation continues towards the Somerset Island region, followed by the crossing of the spectacular Bellot Strait a legendary passage in the history of great Arctic expeditions then onwards to Prince of Wales Island and Beechey Island, a major site of polar heritage. These exploration area offer new opportunities for landings and onshore discoveries, ideal for observing Arctic wildlife and interpreting landscapes shaped by

ice and time.

Periods of navigation through Lancaster Sound and at sea complete this exploration harmoniously. They are particularly conducive to observing drifting ice and marine wildlife, especially marine mammals, while also allowing guests to fully enjoy the comfort of the ship and life on board.

The return to Greenland includes calls at Svartenhavn, Qeqertarsuaq, and the Evighedsfjord, where majestic fjords and rugged reliefs provide a spectacular conclusion to this great Arctic crossing, before your final disembarkation in Nuuk.
