MAGICAL ENCOUNTERS IN THE SOLOMON ISLANDS & MICRONESIA

Hop from island to island to discover the natural wonders of the most beautiful archipelagos in the Pacific and enjoy surprising, unforgettable encounters with the local communities. During a 14-day expedition cruise aboard Le Jacques Cartier, nature and culture are combined to offer you an extraordinary trip. Departing from Honiara, set sail on an exceptional journey to the heart of remote regions of wild beauty. In the Solomon Islands, you will be able to enjoy pleasant moments swimming and snorkelling on Njari Island before you discover the picturesque and colourful atmosphere in the traditional markets on Ghizo Island. Le Jacques-Cartier will set sail for Papua New Guinea, a fascinating land that is home to no fewer than 700 ethnic groups within a highly diverse yet mainly unexplored ecosystem. You will visit the Autonomous Region of Bougainville, a unique group of islands that are ecologically and geographically part of the Solomon Islands archipelago but not politically part of the islands. Next, the mysteries of Micronesia will reveal themselves to you. A scattering of islands and atolls, lost in the heart of the northern Pacific, this area is rich in Second World War history. The shores of Chuuk Lagoon and Pulap Island still retain traces of a tragic past and a declared Underwater Military Museum is the resting place of wrecks from Japan's military air and sea fleets. Micronesia consists of a sprinkling of islands and atolls that benefit from an exceptional environment. Its incredibly rich underwater world promises unforgettable dives. On land, the beaches of white sand, the coconut trees and the villages with deep-rooted traditions reveal their charms, like the Ifalik and Gaferut atolls. Your cruise will end in Guam, the biggest volcanic island of the Mariana Islands.

ITINERARY

Day 1 HONIARA, GUADALCANAL ISLAND

Honiara is the capital city of The Solomon Islands, administered as a provincial town on the north-western coast of Guadalcanal Island. Honiara comes from the local Ghari Language "naho-ni-ara" meaning 'facing the ara', the place where the southeast winds meet the land. Discover this city, its beautiful landscape, and the significant role it played in World War II. Particularly The Battle of Henderson Field, the last of the three

info@small-cruise-ships.com

major land offensives conducted by the Japanese in 1942.

Day 2 NJARI ISLAND

There are plenty of opportunities for world class snorkelling, diving and underwater photography throughout the Solomon Islands with sites in the Western and Central Provinces considered among the most popular. The underwater realm is home to more than 1000 species of reef fish, along with dolphins, rays, sharks, and six of the world's seven species of marine turtles. Almost 500 species of corals have been identified amongst the 5,750km² of reefs found in the Solomon Islands. Njari Island is an uninhabited picture postcard island located 15nm from the town of Gizo. Enjoy swimming and snorkelling from its idyllic shores.

Day 3 GHIZO ISLAND

Gizo is situated on Ghizo Island and is the second largest town in the Solomon Islands, after the capital, Honiara. The people of the Western Province are regarded as amongst the most skilled carvers in the world. They produce carvings from various woods including ebony and rosewood. These amazingly intricate carvings can take months to make and accordingly command a high price. You will have the opportunity to visit the traditional markets of Gizo. There are plenty of opportunities for world class snorkelling, diving and underwater photography throughout the Western province and the Islands around Ghizo are considered among the most popular.

Days 4 - 5 BOUGAINVILLE

The Autonomous Region of Bougainville, formerly known as the North Solomons Province, has been known for its picture-perfect beaches and bays since French explorer Louis-Antoine de Bougainville first sighted the island and gave it its name in 1768. The region played a significant role in the Pacific theatre of war during WWII. With 685 km of coastline and 240,000ha of coral reefs teeming with life there are many destinations awaiting discovery.

Day 6 RABAUL, BISMARCK ARCHIPELAGO

Set at the eastern end of the island of New Britain, the tropical port town of Rabaul has always been famous for its spectacular setting. Nestled beside Simpson Harbour, the township is surrounded by six volcanoes, one of which, Mt Tavurvur, is still active today. The most recent major volcanic eruption was in September 1994 when Tavurvur and Vulcan covered much of Rabaul and surrounding villages with volcanic ash. This eruption saw the growth of the nearby coastal town of Kokopo which has now become the administrative and tourism centre for Rabaul.

Join your expedition team for a tour by local transport to see Mt Tavurvur, the Volcano Observatory and various significant sites from World War II.

Days 7 - 8 AT SEA

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation

in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

Day 9 CHUUK (EX TRUK)

Chuuk Lagoon, previously known as Truk Lagoon, is one of the four states of the Federated States of Micronesia. The 16 much-eroded volcanic islands within the lagoon have mangrove swamps along their coasts with rich rainforests in the central mountainous areas. The islands are hugely popular with scuba divers thanks to the incredibly interesting shipwrecks: at depths of 15 to 40 metres, divers can explore a veritable underwater museum of wrecks from the Japanese land-based, aerial and naval fleet bombarded by the Americans in February 1944 in retaliation for the attack on Pearl Harbour. These shipwrecks have become foundations for new reef growth and extraordinary marine fauna.

Day 10 PULAP ISLAND

Pulap is an atoll consisting of three islands located in the Pattiw group in the Caroline Islands. The three islands are, Pollap in the

north, Tamatam in the south, and Fanadik at the western fringe of the reef. The island is surrounded by a number of ghostly shipwrecks that are virtually intact, submerged underwater. This makes for great diving expeditions where you can explore the reef and its incredible marine life as well as the shipwrecks.

Day 11 SATAWAL ISLAND

Satawal is a solitary coral atoll consisting of just one island. Like Pulap, Satawal is located in the Caroline Islands where it is home to just 500 people. Famous for its preservation of traditional navigational techniques without the use of modern instruments, based on indigenous astronomical and maritime concepts. The island is still very traditional which means visitors rarely step ashore but those who do are warmly welcomed by the villagers.

Day 12 IFALIK ATOLL

The Ifalik coral atoll, lying in the warm waters of the North Pacific, in the vast Caroline Island archipelago, is an invitation to serenity, enchantment and discovery. A veritable hidden paradise edged with magnificent beaches with expanses of fine sand, Ifalik will reveal its treasures to you. Between the sumptuous underwater scenery, rich biodiversity, ancestral traditions and warm and welcoming inhabitants, you will marvel at this lush environment, unlike anywhere else, and far from the frenzy of any town.

Day 13 GAFERUT ATOLL

Gaferut Atoll is an outlying atoll in the State of Yap in the Federated States of Micronesia. The tiny island is mostly defined by densely covered rolling hills which are lusciously covered with vegetation. Mangrove swamps line the vast majority of the shore with an outer barrier reef, rich in marine wildlife surrounding the island. there is an enclosed lagoon which too is brimming with a diverse selection of marine wildlife.

Day 14 GUAM

In the Western Pacific, you will call at Guam, the largest volcanic island of Micronesia and the Mariana Islands. Here, the crystal-clear waters and white sandy beaches create a picture-postcard setting, ideal for relaxation and a break from it all. This little-known island, today under the administration of the United States, also offers you the opportunity to visit a number of historical sites, vestiges of Spanish colonisation, and to discover the culture of the Chamorros, the first inhabitants of the islands, talented craftspeople who have preserved their traditions.
