

FROM MONTEVIDEO TO USHUAIA CRUISE

Far away from civilisation, the HANSEATIC inspiration will take you deep into a fascinating icy world full of truly thrilling expedition moments. The Zodiacs head for the water time and time again to ensure that you get right to the heart of the action. Mighty glaciers and glittering icebergs, huge colonies of penguins and the territory of the whales awaits you. Please Note: your voyage rates include Charter flights as per itinerary in Economy Class.

ITINERARY

Day 1 Montevideo/Uruguay
Departure 18.00 hrs

Days 2 - 5 Relaxation at sea

Days 6 - 8 South Georgia

In this unique wildlife paradise, the Zodiacs are used several times a day to let you experience very special sightings. For example, standing with the experts in front of a gigantic colony of king penguins. The island is home to almost 200,000 animals inhabiting the steep slopes and coasts – such as Salisbury Plain or the Gold Harbour beach where fur seals and elephant seals will not be disturbed by your visit. At the former Grytviken whaling station, the grave of Sir Ernest Shackleton recalls the adventures of times gone by.

Days 9 - 10 Relaxation at sea

Days 11 - 16 South Shetland Islands, Weddell Sea, Antarctic Peninsula

Enjoy unforgettable moments when, for example, you set foot on the Antarctic mainland near to Paradise Bay. Snow-capped summits surround the bay, where icebergs the size of houses drift and glaciers tower hundreds of metres above. The gigantic glacier cliffs, such as those of Neko Harbor, provide a unique backdrop. Gentoo penguins stretch as far as the eye can see, for example on Cuverville Island. One of the most impressive shipping passages in the world is the Lemaire Channel: mountains up to 1,000 m (3,280 ft) high line the strait of water. The Neumayer Channel and Port Lockroy provide panoramic views of glaciers that are no less breathtaking. When cruising in the Antarctic Sound, the deck becomes your front-row seat for unique natural spectacles, for example when water is suddenly parted by the fluke of a majestic whale. The Weddell Sea is home to breathtaking ice formations, some of which are as tall as a house and covered by Adelie penguins and dense pack ice. How far can your expedition ship go? For example, in 1903, the Nordenskjold expedition was forced to wait ten months to be rescued on the volcanic Paulet Island. Today, the island is home to countless penguins and, like Devil Island, makes for a very lively spectacle.

Days 17 - 18 Sailing through the Drake Passage

Day 19 Ushuaia/Argentina

Arrival 6.00 hrs Charter flight to Buenos Aires
