## NORTHWEST PASSAGE: GREENLAND TO ALASKA

Embark on an epic journey across the Northwest Passage from Greenland to Alaska, and follow in the footsteps of intrepid explorers who searched for centuries for a northwest route connecting the Atlantic and Pacific oceans. Experience this epic quest aboard National Geographic Resolution and discover the otherworldly icescapes that challenged generations of adventurers.

### ITINERARY

DAY 1 U.S. / Fly to Kangerlussuaq, Greenland

Arrive by chartered aircraft in western Greenland and embark National Geographic Resolution at the head of the picturesque Kangerlussuaq Fjord. Meals Included: Lunch, Dinner

DAY 2 Greenland's West Coast and Sisimiut

The massive ice sheet that blankets much of Greenland feeds dozens of fjords and glaciers on the dramatic western coast. Be on the lookout for humpback and minke whales as we trace these rugged shores. During a stop at the former whaling port of Sisimiut, visit the local museum and stroll among the town's 18th-century wooden buildings. Meals Included: Breakfast,

[small-cruise-ships.com](http://small-cruise-ships.com)

[info@small-cruise-ships.com](mailto:info@small-cruise-ships.com)

Lunch, Dinner

### DAY 3 Disko Bay and Ilulissat

Sail into Disko Bay to explore the World Heritage-listed Ilulissat Icefjord, a tongue of the Greenland ice sheet that extends to the bay. Here, the Sermeq Kujalleq glacier calves huge amounts of ice at an astonishing rate, releasing icebergs that can soar up to 300 feet. A cruise among these gigantic sculptures of ice is a highlight of our voyage. Explore the remains of the historic fishing village of Sermermiut and take in spectacular views of the ice-laden mouth of the fjord. Meals Included: Breakfast, Lunch, Dinner

### DAYS 4-6 Exploring East Baffin Island, Nunavut, Canada

We begin our exploration of the Canadian High Arctic with a visit to the small Inuit community of Pond Inlet, Nunavut. Explore some of the beautiful bays and inlets along Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage. Our days here are spent searching for ringed seals, arctic foxes, walruses, and polar bears, as well as beluga and bowhead whales. Visit Devon Island and take a walk with our ship's archaeologist to learn about the Thule people—ancestors of the modern Inuit—that once inhabited this region. Meals Included: Breakfast, Lunch, Dinner

### DAYS 7-16 Exploring the Northwest Passage

Our ice-strengthened ship, National Geographic Resolution, navigates the Northwest Passage following nature's path—dependent on ice and weather conditions. Taking our

cues from nature, we follow wildlife, stop for hikes on the tundra, or drop anchor in a beautiful fjord or an icy bay to explore and kayak beneath massive ice sculptures and soaring cliffs. Along the way, explore ice-studded channels and glacier-carved islands that stretch for hundreds of miles—a stunning display of raw geology; survey the rocky, “Mars-like” terrain of uninhabited Devon Island; sail past the northernmost part of mainland North America in the Bellot Strait, one of the narrowest and most infamous of the passage; and cross the top of the Northwest Territory of Canada to search for ringed seals, arctic foxes, musk oxen, walruses, and polar bears, as well as beluga and bowhead whales. History and culture are also on the itinerary. Learn about the Inuit peoples who have hunted and fished here for thousands of years. And hear heroic stories of the early explorers: Roald Amundsen, John Ross, William Edward Parry, and James Clark Ross, among others. Meals Included: Breakfast, Lunch, Dinner

### DAY 17 At Sea

Indulge in National Geographic Resolution's many amenities as we continue along the shores of the Canadian High Arctic. Soak in the ship's infinity-style outdoor hot tubs, take in panoramic views from the rooftop observation deck, and enjoy talks from our onboard experts. Take time to reflect on the amazing wildlife and geology that have highlighted our journey so far. Meals Included: Breakfast, Lunch, Dinner

### DAY 18 Herschel Island, Yukon Territory

Once a thriving whaling village off the coast of the Yukon Territory, Herschel Island is now classified as a Natural Environmental Park. The island protects the wildlife alongside the heritage of the Inuvialuit people and the whaling industry. As we wander through Herschel's historic dwellings, keep an eye

out for the wildlife residents, which include bears, musk oxen and arctic foxes. The area is also home to the largest colony of black guillemots in the Western Arctic. Meals Included: Breakfast, Lunch, Dinner

#### [DAYS 19-21 At Sea](#)

As we continue to sail westward along the northern coast of Alaska, reflect on our adventures while scanning the water for marine life and enjoying life on board. Take a yoga class, unwind with a massage in the wellness center, and curl up next to the fireplace in the library. Share images with our Lindblad Expeditions-National Geographic certified photography instructor, and marvel at footage captured by the ship's underwater camera. Our voyage culminates with a farewell dinner on board. Meals Included: Breakfast, Lunch, Dinner

#### [DAY 22 Nome, Alaska, U.S. / Disembark / Home](#)

Arrive in the remote city of Nome, Alaska, on the coast of the Bering Sea. Enjoy breakfast and lunch on board. Disembark to explore the town prior to our flight to Anchorage. In Anchorage transfer to flights home. Meals Included: Breakfast, Lunch

## YOUR SHIP: NATIONAL GEOGRAPHIC RESOLUTION

**YOUR SHIP:**

**National Geographic Resolution**

**VESSEL TYPE:**

**LENGTH:**

**PASSENGER CAPACITY:**

**BUILT/REFURBISHED:**

A next-generation expedition ship, purpose-built for polar navigation. National Geographic Resolution is a next-generation expedition ship, purpose-built for polar navigation. A twin to National Geographic Endurance, she is a fully stabilized, highly strengthened, ice-class Polar Class 5 (PC5) vessel, it is designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. Its patented X-BOW® is key to its design; its powerful wave-slicing action provides an extremely smooth ride in even adverse conditions, and even reduces spray on deck, for superior observation. She carries a full suite of expedition tools and offers a variety of experience-enhancing amenities. The luxury of comfort on expedition. National Geographic Resolution comfortably accommodates 126 guests in 69 outside-facing cabins. Cabins are efficiently designed, with sizes range from the 140-square-foot solo cabin to the 430-square-foot category 7 suite. Fifty-three of the 69 cabins, including all 12 of the solo cabins, will feature small balconies with floor-to-ceiling sliding doors that bring in the spectacular views and ample natural light. Comfort & convenience in every room. Every cabin has two portholes, a large window or balcony, and temperature controls.

Bathrooms are modern and stocked with botanically inspired hair products, soap, and shower gel, plus a hairdryer. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers. Dining. Food served aboard is fresh, local, and delicious, and sourced from suppliers who share our values of sustainable use whenever possible. Meals aboard are almost always served in the dining room, located aft of the lounge deck. When weather conditions allow, lighter fare may be served on the observation deck. There is no assigned seating and our dining room accommodates the entire expedition community in a single seating. During meals your expedition leader, naturalists, and any guest speakers aboard will join you. Public Areas: Two restaurants, a Chef's Table for small group dining, Observation Lounge with bar, gym, Wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an "open bridge" for access to our captain, officers and the art of navigation. Meals: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef's table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare. Special Features: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, an internet cafe and laundry. Wellness: The vessel is staffed by our wellness specialists and features a

## The Small Cruise Ship Collection

[www.small-cruise-ships.com](http://www.small-cruise-ships.com)

[small-cruise-ships.com](http://small-cruise-ships.com)

[info@small-cruise-ships.com](mailto:info@small-cruise-ships.com)

glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high- and low-heat saunas with ocean views. Expedition Landing Craft. Key to our operation is our fleet of expedition landing craft, which we use to land in places that would otherwise be inaccessible. With 14 of these boats and two loading stations used every time we disembark, we're able to transfer guests off the ship quickly, so you can be out on adventures, not idly waiting. The expedition landing craft we use are 19 feet long, powered by four-stroke outboard engines, and are capable of comfortably carrying 10-12 people. They are widely recognized as the safest and most versatile small boats afloat. Remotely Operated Vehicle. Capable of reaching 1,000 feet, far beyond the range of any Scuba diver, the ROV allows you to literally view parts of the undersea that are as unexplored as the moon. Chances are you, like many of our guests, will be struck by how surprisingly colorful undersea life is in these unlikely places. And this glimpse may fundamentally change how you view the ocean. Kayaks. National Geographic Resolution will be equipped with a fleet of kayaks large enough to ensure everyone who wants to can paddle at every opportunity. Consequently, prior kayaking experience isn't necessary--many of our guests have their first kayaking experience in extraordinary locations. Our custom-designed floating platform lets us deploy kayaks from the ship, or any location we want--including far from shore. Kayakers are usually free to explore where they want within boundaries set by the undersea specialist and officer of the watch. Underwater camera. Our undersea specialist will dive often during your expedition, even in polar regions, with cold-water gear, to shoot high-definition, Cousteau-like footage of the deep. Colorful nudibranchs, swimming, plant-like crinoids, and mysterious fish with antifreeze blood that thrive in the frigid sea will give you an

entirely new appreciation of the marine environment. Video microscope. Naturalists will use the video microscope to help explain all elements of the environment, including tiny organisms that are the building block of the marine ecosystem. Spellbinding live views of krill at 80x magnification fills the high-definition screens in the lounge with vivid detail, and fills every onlooker with a sense of wonder at the importance of otherwise unobservable creatures. Hydrophone. This underwater microphone is deployed to listen to the vocalizations of marine mammals. Real time transmissions of their eerie, haunting sounds can be broadcast through the ship or recorded for later playback. Few experiences in nature are as captivating as watching humpback whales feed close to the ship as their vocalizations play through the ship's PA system. Electronic charts. An electronic chart showing the ship's location, course, and speed is almost always on display in the lounge. Open bridge. You'll find our captains are engaged, knowledgeable members of your expedition who are eager to share their passion with you. National Geographic Resolution's open bridge features comfortable spaces to sit, enjoy the view, drink your morning coffee, or simply chat with the officers. Snorkeling gear & wetsuits. On warm weather itineraries where there will be snorkeling, you'll select a mask, snorkel, fins, and wetsuit that remain yours for the duration of the expedition. There's no need to pack and tote your own gear, although guests who prefer to are welcome to bring
