PUERTO WILLIAMS TO CAPE TOWN - ANTARCTICA, SOUTH GEORGIA & ATLANTIC OCEAN LUXURY EXPEDITION

Get away from it all, island hopping around the Southern Hemisphere. Visit some of the most remote locations on earth to observe extraordinary wildlife. From Puerto Williams, every stop on this incredible 40 day journey is a rare opportunity, from penguin colonies in the Falklands to the world's largest seabird colony on Gough Islands. Watch colours change from the cool blues of Antarctica's ice to the warm shades of South Africa.

climate, could not weather the arrival of Europeans. The current city was established as a naval base in 1953 and honours the British-Chilean naval commander John Williams Wilson of the 16th century. Initially it served to protect territorial possessions and fishing rights of the area, as well as offering logistical support to Antarctic bases. More recently it has become a departure point for scientific and tourism trips to the Antarctic region. In contrast to the bustle and traffic of a very commercial Ushuaia, Puerto Williams offers a quieter, more relaxed experience. It charms the visitor with a small village feel, complete with rustic buildings and the homely smell of drifting wood smoke. A haven of peace at the end of the world.

Day 3 Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

Day 4 New Island & West Point Island

Remote and raw, New Island lies to the west of the Falkland Islands, and the humble human population here is far outweighed by the extraordinary birdlife that resides along its craggy coastline. Out in the tempestuous wilds of the South Atlantic Ocean, the island is a sanctuary of animal life - with crowds of rockhopper penguins, wrinkled seals and stern-looking albatross among its many residents. The penguins

ITINERARY

Day 1 Pre Cruise

Day 2 Puerto Williams

Puerto Williams is a Chilean city located on Navarino Island on the southern shores of the Beagle Channel. It claims to be the "southernmost city in the world", however owing to its small size - 2500 residents approximately - the much larger Argentinean city of Ushuaia, which sits on the northern side of the same channel, also claims that title. The surrounding scenery is magnificent. The wild windswept mountains rise above the tree line and are regularly dusted with snow. The city itself has the dramatic backdrop called "Dientes de Navarino" (literally "teeth of Navarino"), which rival the famous Torres del Paine further to the north. The area was originally used by the Yaghan people, hunter-gatherers who despite enduring the harsh regional

info@small-cruise-ships.com

of the Falklands are a sight to see, fooling and falling on the beaches, before diving in and whipping through the waters. Home to five different species, including king penguins - who strut with their orange collars glowing against the pure white feathers of their chests. Sea lions, seals and elephant seals bark and lumber along the shoreline, while sleek orcas patrol and Peale's dolphins cut through the waves. Settlement Rookery's cliffs rattle with the sounds of crashing sea waves, and the echoing shouts of hollering black-browed albatross, king cormorants and rockhopper penguins. Enjoy gorgeous sweeping landscapes, littered with shipwrecks and sprinkles of colourful wildflowers. A warm welcome is guaranteed, especially when the local custom of smoko is served up - towering platters of cakes and biscuits with tea and coffee. Things haven't always been so peaceful here, however, and you can pay a visit to the battlefields and memorials of the costly war in 1982, when the British and Argentinians clashed fiercely over these islands. A north-westerly outpost of the scenic Falkland Islands, you'll be welcomed ashore by the calls and cries of a huge colony of black-browed albatross. Indeed, the island was originally known as Albatross Island before being renamed to reflect its geographic location. While the albatrosses - that flash white feathers in the rugged cliffs above the waves - are the most well known residents, they are far from the only animal inhabitants of this remote, isolated land. A huge army of birdlife calls the island sanctuary home, overwhelming the tiny human population and sheep that roam West Point Island's grasses. Meet the rockhopper penguins who scamper and burrow along the coast's boulders, as well as the imperial cormorants who rest here in great numbers. You're also likely to encounter Magellanic penguins during your explorations. Hike the island's quiet landscapes, and look out for endemic plants like Felton's

flower carpeting the green interior. Decorated with some of the archipelago's most dramatic scenery, explore this wind-lashed, distant land of soaring cliffs and towering coastal precipices. Cliff Mountain is the island's standout - a towering sandstone monolith, and the archipelago's highest cliff, falling away to swirling waves below. Look out to the waters to spot Commerson's dolphin chasing each other around the island's wave-washed footprint. Whales also visit, as well as the fur seals who you may spot lounging around West Point Island's inviting shores.

[Day 5 Port Stanley](#)

Despite it being a stalwart of Britishness, Stanley more resembles Patagonia than Portsmouth. But, despite the windswept, vast and achingly beautiful landscape of the Falkland Islands, don't be too surprised to find the odd pub serving ales and even fish'n'chips. While landmarks such as Christ Church Cathedral, with its whalebone arch are 100% local, there is also a good smattering of imported garden gnomes and Union Jacks to remind you whose territory you are really on. The Falkland Islands' ownership has long been a matter of controversy, ever since colonisation in the 18th century. At various points in their life they have been considered French, British, Spanish and Argentine. The Falklands War in 1982, despite only lasting for a short while, proved that the Brits clung to this remote outpost and the islands remain part of the British Commonwealth today. Margaret Thatcher, under whom the war was masterminded, remains something of a local hero as can be seen in the street signs (such as Thatcher Drive). For those who want to dig deeper into the past, the Historic

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

Docklands Museum provides lots of information on the chequered historical and political background of the Falklands. However, the true heroes of Stanley are of course the thousands and thousands of penguins. Five species nest here during mating season (including the rare rockhopper penguin). There are virtually no barriers between you and the wildlife; allowing for a truly interactive, authentic and totally unforgettable experience.

[Days 6 - 7 Day at sea](#)

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

[Days 8 - 10 South Georgia](#)

Charcoal-black mountains ladled with snow, giant glaciers and thriving wildlife combine to make South Georgia one of the great natural islands. Adventure to these far flung lands - where the animals are in charge and humans come a distant second. Here you'll witness a cacophony of calling birds, natural set pieces like elephant seals clashing and thrashing, and crowds of colourful king penguins stretching out as far as the eye can see. An overseas territory of the UK, these isolated, subantarctic islands once formed a remote whaling centre - and you can still visit the former whaling stations. Nowadays the giants of the sea are free to cruise the icy waters uninhibited. Written into explorer

history due to its links with Ernest Shackleton's tale of Antarctic exploration, shipwreck and survival, the Endurance's crew were saved when he reached the salvation of these shores in 1916 - before returning to collect the remaining sailors from Elephant Island. A museum commemorates the legendary mission, and you can see the memorial to Shackleton that stands over his final resting place on this fabled island. South Georgia's colonies of king penguins - with vivid bursts of yellow and orange around their necks - stand, squabble and curiously investigate, enjoying the isolated respite of this island. They're joined by smaller penguin species like Macaroni penguins, and other glorious birdlife like the majestic wandering albatrosses, which you can see gliding on gusts of wind, over the choppy waves.

[Days 11 - 12 Day at sea](#)

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

[Day 13 Elephant Island](#)

Promising thrilling adventure, legendary tales and immaculate Antarctic beauty, Elephant Island is perhaps Antarctica's best-known location. The exploits of its early explorers have immortalised this harsh, monochrome island in the tomes of human history. Believed to take its name from the elephant

info@small-cruise-ships.com

seals that early explorers spotted lolling on its rocks, the volcanic island was not properly explored until 1916 - when Ernest Shackleton and his men were stricken by the weather and sought salvation on its shores. Their story of survival, stranded in this barren land, is one of humanity's most evocative and inspiring accounts. Elephant Island is written deep into the legend of Antarctic exploration, and you'll discover Shackleton's tale for yourself as you arrive in the island's icy realm. The remarkable, slowly flowing Endurance Glacier - which you'll see on arrival here - takes its name from their ship, The Endurance. Visit the monument that stands to Shackleton, often surrounded by a migrating crowd of tiny gentoo penguins, at Point Wild - the spot where he and his 28 crew members camped for four and a half months of Antarctic winter. Eventually, Shackleton and a handful of courageous others sailed for South Georgia Island, before returning to secure the rescue of the remaining crew members. Aside from sailing amid breathtaking winter vistas, witnessing incredible fauna and feeling the sheer rush of an adventure to the unknown - one of the true joys of any Antarctic cruise is to follow in the footsteps of the brave explorers who first sought out the alluring nectar of these dangerous, evocative landscapes. If this will be your first-time visiting Antarctica, read our blog explaining how you can prepare for the exploits ahead.

[Day 14 Antarctic Sound](#)

Few voyages ignite the imagination like a journey down to one of the planet's most remote, extreme and enchanting wilderness, Antarctica. An adventure in its purest form, only a handful of people will ever be lucky enough to experience the majestic

beauty of these monochrome landscapes first-hand. The Antarctic Sound will be one of your first encounters of this whitewash kingdom, located at the northerly tip of the Antarctic Peninsula - which sprawls up like a tentacle towards Tierra del Fuego, South America's most southerly point, otherwise known as the 'End of the World'. Taking its name from the first ship to brave the passageway between the peninsular and the Joinville Island groups back in 1902, the Sound is a raw, sensory assault of imposing iceberg slabs, broken away from the disintegrating Larsen Ice Shelf. Come face-to-face with stadium-sized islands of ice and meet the extraordinary birdlife that call this whitewash kingdom home. Watch on, as colonies of Gentoo penguins hop around, and cape petrels sweep overhead, as the continent's unique wildlife thrives around you. If you're planning your first venture into Antarctica, you'll want to brush up on your photography skills in advance, to capture this unforgiving continent in all of its unrestrained glory. Read our blog for tips on how to ensure that your photos do justice to the adventure of a lifetime.

[Days 15 - 16 Antarctic Peninsula](#)

The Antarctic Peninsula unravels upwards towards South America, reaching out a beckoning finger to the adventurous, who dare to explore this untamed realm. Stretching up from the heart of the world's southernmost continent, the Antarctic Peninsula lies a mere 620 mile from Tierra del Fuego and, for many, offers a spectacular first taste of the snow-blanketed landscapes and colossal ice sculptures, which make up Earth's least-explored continent. Unseen by humans until 1820 - a blink of an eye ago in relative terms - this is an adventure sure

The Small Cruise
Ship Collection

01432 507 280 (within UK)

info@small-cruise-ships.com | small-cruise-ships.com

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

to make your hairs stand on end, as you experience the thrill of the truly unknown and extraordinary. The vast peninsula is sprinkled with research bases, which are at the frontline of human scientific endeavour, pushing to study and understand this unique landscape, its exceptional wildlife, and the impact that humans are having on this pristine continent. Witness cathedral-sized icebergs up close, and blue-hued glaciers, slowly slipping from imposing locations like Hope Bay. Blanched mountain peaks cover the peninsula, and you'll find thousands of adorable Adelie penguin pairs thriving undisturbed in this peninsula's unique setting.

Day 17 South Shetland Islands

The ice-coated Antarctic Peninsula forms perhaps the most accessible region of mainland Antarctica, lying a mere 480-miles away from South America, across the fabled waters of Drakes Passage. Lying close to the northwestern tip of the Antarctic Peninsula, separated by the Bransfield Strait, the South Shetland Islands fall under the jurisdiction of the Antarctic Treaty, suspending claims on their sovereignty. Several countries maintain research bases here, and with plump elephant seals, and crowds of Gentoo, Chinstrap and Adelie Penguins also calling the islands home, it can even feel a little crowded at times. King George Island is the largest and most hospitable island, hosting the majority of the research stations - some of which are populated all-year-round by tiny, hardy crews. Don't be fooled though, these islands offer extraordinary adventure in one of the most remote locations on earth. The triple peaks of Mount Foster tower above the archipelago, and you'll feel your heart pumping a little quicker, as you sail into the core of

Deception Island's magnificent collapsed volcano caldera. Hike the luna landscapes within, and even dip into the improbably warm, geothermally-heated waters of Pendulum Cove. Elephant Island, meanwhile, is written deep into the annals of Antarctic expedition legend, as the site where Ernest Shackleton and the stricken crew of the Endurance miraculously survived a harsh Antarctic winter, in 1916. Discover even more reasons to visit this incredible icy kingdom and find out why many consider the South Shetland Islands to be the jewel in Antarctica's Crown, by reading our blog.

Day 18 Drake Passage

Sailing the legendary Drake Passage is an experience that few are ever lucky enough to experience. The southern tip of the Americas already feels like a wild enough environment - but the sensation of watching the distant cliffs of the peninsular known as the 'End of the World' fade into the horizon, is one that's equal parts epic, eerie and magical. Set sail, to slowly drop off the bottom of the map from Cape Horn, and voyage on an expedition down into the icy underworld of Antarctica. Drake Passage is an extraordinary voyage of romantic ocean faring legend, as you aim for Antarctica's icy realm. On arrival, skyscraper sized icebergs salute you, as you traverse the waters of this continent where snow and ice dwelling creatures like penguins and whales roam undisturbed. Your first sight of this most-unexplored place will most likely be the South Shetland Islands. Walk in the footsteps of some of history's greatest and bravest explorers as you explore famed, snow-covered landmasses like Elephant and Deception Island. If the journey across Drake Passage sounds daunting, don't worry - even in

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

rough seas you're never alone, and will often be accompanied on this spine-tingling adventure by soaring albatrosses and maybe even a protective pod of humpbacks and hourglass dolphins or two. Converging warm and cool ocean currents attract some spectacular animal life to the passage. If this is your first visit to this magical continent, you'll also want to familiarise yourself with our blog for first timers to Antarctica.

[Days 19 - 20 Puerto Williams](#)

Puerto Williams is a Chilean city located on Navarino Island on the southern shores of the Beagle Channel. It claims to be the "southernmost city in the world", however owing to its small size - 2500 residents approximately - the much larger Argentinean city of Ushuaia, which sits on the northern side of the same channel, also claims that title. The surrounding scenery is magnificent. The wild windswept mountains rise above the tree line and are regularly dusted with snow. The city itself has the dramatic backdrop called "Dientes de Navarino" (literally "teeth of Navarino"), which rival the famous Torres del Paine further to the north. The area was originally used by the Yaghan people, hunter-gatherers who despite enduring the harsh regional climate, could not weather the arrival of Europeans. The current city was established as a naval base in 1953 and honours the British-Chilean naval commander John Williams Wilson of the 16th century. Initially it served to protect territorial possessions and fishing rights of the area, as well as offering logistical support to Antarctic bases. More recently it has become a departure point for scientific and tourism trips to the Antarctic region. In contrast to the bustle and traffic of a very commercial Ushuaia, Puerto Williams offers a quieter, more relaxed

experience. It charms the visitor with a small village feel, complete with rustic buildings and the homely smell of drifting wood smoke. A haven of peace at the end of the world.

[Day 21 Day at sea](#)

Days 30 - 33 Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

Day 34 Tristan da Cunha

Sailing to these lonely volcanic islands feels a little like dropping off the map, as you aim for the seemingly endless ocean horizon. A true adventure, the journey rewards generously, as you track down the world's most remote archipelago, and discover its incredible, endemic birdlife. A full 1,500 miles away from the nearest neighbour, St. Helena, it's fair to say that the Tristan Da Cunha archipelago is a long way off of the beaten path. Venture to the only inhabited island, where a hardy 250 souls live out their lives. Tristan Da Cunha was first discovered at the beginning of the 16th century by Portuguese explorer Tristao da Cunha - who named the island after himself. He was unable to actually step out onto its land, however, as the waves churned violently below his ship, rendering the shores inaccessible. A volcanic island, the 2,000-metre tall Queen

The Small Cruise Ship Collection

www.small-cruise-ships.com

small-cruise-ships.com

info@small-cruise-ships.com

Mary's Peak dominates it - although the islanders were unaware of its sleeping power until it rumbled into life in 1961. The population were forced to abandon the shores temporarily for their own safety. The extraordinary, rare wildlife is the main reason why most set their compass for these far-flung islands. Tristan Da Cunha is alive with vibrant birdlife, from Atlantic yellow-nosed albatross to Tristan thrush, and many, many more - including the endemic and endangered Tristan wandering albatross. Roughly 90% of the northern rockhopper penguin population also visit to breed on this vital outpost, while sea lions lay around on the shores, and whales and dolphins cruise the waters.

Day 35 Nightingale Island

Uninhabited except for the majestic, million-plus seabirds that call this castaway island home, it doesn't get much more raw and remote than Nightingale Island. Adrift between South America and Africa, in the Tristan da Cunha archipelago, the island takes its name from British explorer Gamaliel Nightingale and is the smallest of these distant volcanic lands. Craggy coastline and rugged cliffs rise imposingly from the waters of the South Atlantic, as you approach this remote volcano island - which erupted most recently in 2004. Largely free from human interference, Nightingale Island is known for the abundant birdlife that thrives here and is a shelter for some of the world's rarest species. Designated as an Endemic Bird Area and an Important Bird Area, the island's birds are awarded special protection, and only select visits to these shores are permitted. Amid the cawing and calling of the island's endless flocks, you can spot the rare canary-like Nightingale bunting, and Wilkins's

bunting - which are found only here. Little gangs of rockhopper penguins patrol the rocks and hop over boulders - easy to distinguish against the blackened landscape, with their distinctive yellow flashes of feathers. You'll also see the graceful glide of Atlantic yellow-nosed albatrosses, and the plunges of great shearwaters. Keep one eye open for the glint of gold during your expedition ashore - rumours swirl that undiscovered pirate treasure was once stashed somewhere on the island.

Day 36 Gough Island

Look for Gough Island on a map, and you'll struggle to locate it, cast far into the expanse of the South Atlantic Ocean. An almost entirely uninhabited volcanic island, barely within the grasp of humans historically, just a small bunch of hardy researchers live here. They share their home - a full 1,700 miles to the west of Cape Town - with a stunning array of seabirds, including endemic species like the Gough moorhen and Gough bunting. Part of the UK overseas territory of St Helena, Ascension and Tristan da Cunha - the world's most remote inhabited archipelago - Gough Island forms part of a remarkable UNESCO World Heritage Site and serves as a vital island sanctuary for rare and celebrated birdlife. Blasted by harsh winds and rough seas throughout the year, Gough Island's coastline has been shaped and sculpted into a dramatic, imposing site. An island of extraordinary wildlife, migrating whales cruise through the waters around it, while colonies of albatross and rockhopper penguins wander its shores and cliff faces. If you arrive on these shores following a downpour, you'll be treated to displays of waterfalls cascading through the undergrowth. Gough Island may serve as a sanctuary for seabirds, but a concerted effort

has had to be made to deal with mice, which were brought by humans in the 19th century. With few predators, they thrived here, endangering the Tristan albatross in the process. A project has been launched to decrease the mice population and protect the island's delicate ecological balance.

[Days 37 - 40 Day at sea](#)

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

[Days 41 - 42 Cape Town](#)

Sprawling across endless, staggeringly blue coastline, and watched over by the iconic plane of Table Mountain, Cape Town is without doubt one of the world's most beautiful cities. A blend of spectacular mountain scenery, multiculturalism and relaxed ocean charm awaits in the Mother City, where you can venture out to rolling vineyards, dine in laid back sea suburbs, or spend days exploring cool urban culture. Cape Town's natural splendour fully reveals itself as the cable car rears sharply to the top of Table Mountain. From the summit, 3,500 feet above sea level, you can let the scale of the panoramic vistas of the city rolling down towards the ocean wash over you. Another heavenly perspective waits at the top of Lion's Head's tapering peak. A sharp hike and an early start is required, but the views of the morning sun painting Table Mountain honey-gold are some of

Cape Town's finest. Cape Town's glorious sunshine and inviting blue rollers can be a little deceiving - these oceans are anything but warm at times, with nothing between the peninsula's end and Antarctica's icy chill. This cool water has upsides though, bringing a colony of adorably cute African penguins to Boulders Beach. Boarded walkways offer the perfect vantage point to see the cute creatures dipping into the sea and lounging in the sun. Nearby, journey to the end of Africa at the Cape of Good Hope, where you can stand at the bottom of this mighty continent, watching out over the merging waves of the Atlantic and Indian Oceans. Cape Town's beauty is counterpointed by the ominous island form, which sits four miles offshore from the bustling restaurants and lazy seals of the lively V&A Waterfront. A living history lesson, you can sail in the ships that transported prisoners out to Robben Island, before a former prisoner tells of the traumas of life on this offshore prison. Your guide will show you the cramped cells, and render Mandela's long walk to freedom in heartbreaking, visceral clarity.

Timelessly elegant yet luxuriously relaxed, Silver Wind strikes the perfect balance of yacht-like intimacy combined with the space, amenities and diversions typically reserved for larger vessels. Warm welcomes and gracious personalized service inspire our guests to call Silver Wind their "home away from home" \- join us and discover the charms of Silver Wind. Silversea's oceanview suites are some of the most spacious in cruising, and all include the services of a butler.
