SALISH SEA EXPEDITION WITH CANADIAN GEOGRAPHIC

Delve Into an Odyssey Through Geologic and Human Timescales
Walk through wildflower meadows, historic homesteads, and beautiful beaches this spring in the Gulf Islands, BC. Home to southern resident killer whales and many marine birds, seals, and sea lions- enjoy ample wildlife viewing and possible whale watching. Sail among eclectic island communities, under spring skies, and over sparkling waters. Some people think they've "done" the Salish Sea or Gulf Islands if they've visited Victoria and Salt Spring Island. They've seen only the tiniest, most human-impacted snippet. Our trips leave off where the road ends, alongside sculpted sandstone shorelines, moist rainforests and eagles soaring along rocky bluffs. You'll learn of Canada's history in the region, and a history that's existed far longer, the Coast Salish, as well as the diverse natural history.
