

SCORESBYSUND AUTUMN MICRO CRUISE

For landscape lovers and aurora chasers - the ultimate expedition of Earth and sky. Explore Scoresbysund in autumn, and witness the northern lights casting their spell across the sky. This otherworldly event is particularly common here at this time of year, illuminating the night sky above a mythical land where Arctic wildlife roam the shores and monolithic icebergs drift down fairytale fjords. Otherworldly landscapes and the heavens dancing above you. East Greenland in autumn is a feast for the senses - on land, at sea, and in the sky. Explore the mythical Scoresbysund, the largest fjord system in the world, its labyrinthine pathways strewn with cathedral-size icebergs. Encounter the local wildlife, including musk ox, Arctic foxes, Arctic hares, and maybe even (though they are rare here) polar bears and narwhals. But keep your eyes on the skies and listen for the knock on your cabin door at night. The northern lights are the ultimate East Greenland sight at this time of year. Capturing them on camera is the goal of photographers great and small. This voyage takes place during the latter half of September, at the optimum time for encountering the Scoresbysund northern lights. Whilst never guaranteed, there is a good chance to witness this magical phenomenon in one of the most scenic places on Earth, with zero light pollution and majestic mountains all around.

ITINERARY

Day 1 Keflavik

Meet other guests and Secret Atlas rep at the pre-arranged meeting point in Keflavik Airport, or Reykjavik Airport, Iceland, before going through security together and boarding our charter plane to Nerlerit Inaat Airport (Constable Point), Greenland.

From the airport, we will take a short hike to the shore and board Zodiac boats to take us to our expedition ship.

Days 2 - 3 Viking Bay & Danmark Island

Explore Viking Bay by Zodiac cruise, marvelling at the bird cliffs and stunning basalt columns.

Hike on Danmark Island, a striking island in the fjord, spotting divers and maybe even musk oxen, alongside ancient Thule remains.

Days 4 - 6 Hare Fjord & Bear Islands

Sail into Hare Fjord, which likely gained its name from the Arctic hares that preside here.

Tour steep-sided Ofjord and land on the Bear Islands for panoramic views of this scenic stretch of Scoresbysund.

Land on Sydkap to discover Thule remains and a hunters' cabin, gaining a dramatic view of the surrounding icebergs on the border of the Northeast Greenland National Park.

Day 7 Ittoqqortoormiit

Sail to Ittoqqortoormiit, one of the remotest towns on the planet, with an idiosyncratic culture and way of life.

Day 8 Back to Iceland

On the final day, we'll take a charter flight back to Iceland, where you'll enjoy a relaxing evening and overnight stay at our comfortable hotel -- a chance to unwind and reflect on your unforgettable journey through Greenland.

Day 9 Reykjavík

Enjoy your last day in Reykjavik, Iceland

For those continuing, there's the opportunity to join an adventure with Hyperborea, our trusted local tour operator partners in Iceland -- perhaps exploring Reykjavik's vibrant culture, soaking in the Blue Lagoon, or discovering the country's dramatic waterfalls, glaciers, and volcanic landscapes on a scenic day tour.

A perfect finale to your Arctic journey.
