## FROM SCOTLAND TO SPITSBERGEN LUXURY EXPEDITION CRUISE

Set off on a 14-day PONANT cruise that takes you from marvellous Scottish shores to the Norwegian island of Spitsbergen. Aboard *Le Lyrial*, you discover the preserved landscapes of Northern Europe and the boundaries of Norway and its island, which is among the world's northernmost. Departing from Glasgow, Scotland's warm cultural capital with a rich artistic and architectural heritage, you will set sail for the Hebrides archipelago. You make a stop on Iona, the birthplace of Christianity in Scotland, home to an impressive abbey, and you discover Callanish on the Isle of Lewis. This port of call takes you back in time to between 2900 and 2600 BC, the period during which the island's megalithic site would have been created... Before the circle of standing stones, aligned with the cardinal points, the mystery remains entire, the emotion is palpable. *Le Lyrial* then sails towards the Shetland archipelago and the island of Mousa, which is home to Scotland's best-preserved Broch - constructed in around 100BC, this tower-shaped fortification served to defend against invaders. Further north, you marvel at the mysterious charm of the Lofoten archipelago. These islands have landscapes of surreal beauty alternating between sea, spectacular fjords, mountain slopes, fine sand beaches and huts on stilts. Your Arctic adventure begins with your stopover in Tromsø. You also sail by Bear Island, halfway between the North Cape of Norway and the South Cape of Spitsbergen. You see many seabirds, such as guillemots or Atlantic puffins, which have found refuge in the vast cliffs of the south of the island. Even further north, you reach Spitsbergen, the main island of the Svalbard archipelago. In the land at the end of the world, millennial

glaciers, steely mountains and spectacular fjords form the backdrop for whales, arctic foxes, walrus and the kings of their realm, polar bears. Your cruise ends in Longyearbyen. We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. The itinerary, landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by

the AECO.\_

### ITINERARY

#### Day 1 Glasgow, Scotland

In the heart of the Clyde Valley, the bustling city of Glasgow contrasts starkly with the wild beauty of the surrounding countryside. Scotland's biggest city overflows with landmarks from its extensive artistic heritage and outstanding architectural tradition. The city's chequerboard layout makes walking through the major pedestrian thoroughfares easy: go with the flow and let the lively street atmosphere take you past the many Victorian monuments. Don't miss the collections on display in the numerous museums and art galleries. The Kelvingrove Art Gallery and Museum is an outstanding example.

#### Day 2 Iona, Hebrides

Of all the islands in the Inner Hebrides, Iona is by far the most conducive to contemplation and meditation. And for good reason... it is here that St Columba landed from Ireland in 563 and undertook to establish Christianity in Scotland. Now an abbey, the island's true spiritual centre stands where the ancient monastery founded by the Irish missionary was built. Many kings of Scotland, including the legendary Macbeth, are buried in the nearby cemetery. In sunny weather, arriving on the Isle of Iona is a stunningly beautiful experience.

#### Day 3 Callanish, Outer Hebrides

In Scotland's Outer Hebrides, on the legendary Isle of Lewis, Callanish dazzles and surprises, fascinates and questions. On the eastern coast of the island, where land and sea rub shoulders and clash in the tumult of wild nature, discover the Callanish Stones megalithic site. No fewer than 51 stones stand in the middle of the peat fields. Deliberately arranged about 5,000 years ago, they are a mysterious testimony to the Stone

Age. There are many theories as to the purpose of these stones -- a place of worship, a lunar calendar, an astronomic observatory or a healing centre -- but they remain an enigma. The singular atmosphere of this site lends itself to all sorts of interpretations, to all sorts of dreams and musings.

#### Day 4 Mousa Broch, Shetland Islands

A conical dry stone tower dating back to the end of the Iron Age, the Broch of Mousa is one of the many buildings constructed in the Highlands and in the Hebrides, Orkney and Shetlands archipelagos to fend off invaders. Constructed circa 100 BC, it is the tallest broch still standing, at 13 metres (almost 43 feet), and the best-preserved in Europe. Its excellent state of preservation can be explained among other factors by its isolated location and its massive construction: it has a single entrance passage and thick walls, with a diameter that is smaller than that of other brochs. The building was used over the centuries and is mentioned in the Norse sagas, Egil's Saga and the Orkneyinga Saga.

#### Days 5 - 6 At sea

During your day at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This day without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

### Day 7 Bronnoysund

Nestling on the Torget peninsula a short distance from the Arctic Circle, not far from the mythical Torghatten granite dome, Bronnoysund invites you on an unforgettable journey into the heart of wild nature, between chains of rocky, green and snow-covered islets. The port of call in this former Viking city will also be an opportunity to discover the Vega archipelago, a UNESCO World Heritage Site. Its 6,500 or so islands will offer you indelible moments in this natural setting, where time seems to stand still. Surrounded by high mountains that drop sharply into the Norwegian Sea, these insular natural sanctuaries are home to many species of seabirds, like the common eider.

### Day 8 Reine, Lofoten & Sailing in Trollfjorden

Way beyond the Arctic Circle, Lofoten Islands are truly considered to be in "another world". A jewel of nature in its most pristine state, this archipelago with its jagged coastline offers you majestic settings of high alpine summits, sandy beaches, green prairies and fjords of a deep blue, where countless bird colonies make their nests. Whether you visit Å, or Nusfjord, listed by UNESCO, enjoy authentic and memorable moments.

According to legend, trolls were the guardians of this 2-km long fjord accessible via the Raftsund Strait, between the Vesteralen Archipelago and the Lofoten Islands. Dominated on both sides by vertical rock faces that stand up to 1,000 metres high in parts, Trollfjorden welcomes you in a magical atmosphere which its narrowness helps to create. During this unforgettable journey, you will indeed have the impression that you're grazing the surrounding mountains and that you'll never see the end of this marine cul-de-sac. After a delicate U-turn, your ship will finally head back in the opposite direction: this will perhaps be the opportunity to observe, for want of trolls, seals and eagles,

which are often present in this site, unique on earth.

### Day 9 Tromsø

In the north of the Arctic circle you'll discover Tromsø, a secluded town located in the county of Troms. Norwegians call it the "Paris of the north". You'll soon see why when you discover its extensive neoclassical architectural heritage. A stunning example is the Arctic cathedral, a major monument whose stylistic purity echoes the outline of the mountains surrounding the town.

### Day 10 Sailing along Bjørnøya (Bear Island)

Halfway between Norway and Spitsbergen, you will sail not far from the coastlines of Bjørnøya, the southernmost island of Svalbard. From your ship, observe this isolated piece of land discovered in 1596 by the Dutch navigator Willem Barents, then looking for the Northwest Passage. Following a tough fight between a polar bear and the members of the expedition, he dubbed the place Bear Island. Regularly covered by a thick layer of fog, Bjørnøya shelters a meteorological station built in 1923, which is still in operation. Declared a nature reserve in 2002, the island is above all home to an enormous colony of sea birds: skuas, guillemots, puffins, Tridactyl gulls, petrels, gulls and little auks all coexist here.

### Day 11 - 13 South-West Region of Spitsbergen

Set sail for southwest Spitsbergen, immerse yourself in this environment unlike any other and explore its unexpected riches. In this natural sanctuary, the polar light combines with the changing weather of the Arctic, a big blue sky, the horizon scattered with clouds, the enveloping mist erasing the border between the land and the sea. Follow in the footsteps of the first explorers and admire the majestic fjords and glaciers sculpting

the breathtaking landscapes, their icy waters shimmering beneath the midnight sun. The fjords, veritable cathedrals of ice, reveal their millennial secrets, while the glaciers, like sleeping giants, move slowly towards the sea, setting free sparkling icebergs. On the water, you might spot belugas and rorquals, while on the shores, seals and Arctic foxes add a touch of mystery to this living tableau, where the steep cliffs become breeding grounds for thousands of seabirds, like guillemots. Southwest Spitsbergen is an ode to nature in its rawest and purest form.

### Day 14 Longyearbyen, Spitsbergen

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.
