SOUTH GREENLAND ADVENTURE - THE MAJESTIC ALPINE ARCTIC

Our South Greenland Adventure: The Majestic Alpine Arctic itinerary is designed for travelers seeking to explore the majestic fjords, glaciers and mountains of South Greenland. This itinerary offers guests one-of-a-kind excursions exclusive to Quark Expeditions--some of them only made possible by our newest ship, the technologically-advanced Ultramarine, which is equipped with two twin-engine helicopters. On this journey, you can be as active as you like, or you can opt for more relaxing, immersive experiences. Developed in partnership with local communities--a first of its kind in expedition travel--this itinerary offers unprecedented opportunities to explore the majesty of South Greenland's diverse fjordlands. Ultramarine's two helicopters will take you to areas in South Greenland that others can't reach, especially for off-ship excursions. Some of these, such as our Heli Hiking and the Greenland Ice Sheet Experience, are included for all guests, who can also enjoy hikes, community visits and Zodiac cruises. This voyage--accessible to guests of all fitness levels--offers something for everyone, whether you're interested in soaking up the serene mountain views, sailing through the icebergs on a Zodiac cruise, or trying optional activities such as heli-hiking or camping in style on the shores of Tasermiut Fjord with local hosts.

ITINERARY

Day 1 - Arrive in Reykjavik

Arrive in the Icelandic capital and make your way to your included hotel. You will have the rest of the day to explore the city on your own.

Day 2 - Embarkation in Reykjavik

This afternoon, you'll board your vessel in Reykjavik and begin your expedition. Get ready for a great adventure ahead on our technologically-advanced ship Ultramarine, which is equipped with two twin-engine helicopters and a fleet of 20 quick-launching Zodiacs to deliver unique off-ship experiences in South Greenland.

Days 3 and 4 - At Sea

As we cruise north across the Denmark Strait, with views of Greenland in the distance, your Expedition Team will prepare you for the adventures ahead. Learn about the storied history of the Arctic, its fascinating wildlife, geology, glaciology, ecology and climate, and the incredible sights you will soon explore. The team will also help you search for seabirds soaring around your ship, as well as whales that frequent the surrounding waters.

Days 5 and 6 - The Wild East

As we approach and arrive in Greenland, the first natural features you'll see will be the towering steep-walled fjords and hanging glaciers. We'll explore the uninhabited east coast. This area offers opportunities for wildlife sightings, including the possibility of polar bears and humpback whales. Activities include heli-landings, hiking, paddle excursions, Zodiac cruises, and shore landings in this remote, ice-laden landscape of tumbling glaciers, alpine vistas and wildlife. We set out for the wild fjords of the uninhabited east coast, one of which is

Lindenow Fjord, also known by its Greenlandic name, Kangerlussuaq. Thousands of years ago, groups of Paleonuit hunters and fishermen made their home in these isolated fjords, living off the land and surviving mostly on the resources provided by the sea--long before the arrival of European explorers and successive waves of migration prompted mass settlements. Traces of these early inhabitants can be found today against the backdrop of cascading glaciers and steep-walled mountains. The fjords are where you can observe plenty of wildlife, especially marine mammals. Rare sightings of polar bears are also possible as they drift down from the north on sea ice floes propelled by the East-Greenland current. Humpback whales are often sighted when entering fjords as the shallowing seas bring an upwelling of nutrients to the surface. While we keep our eyes peeled for wildlife, the magnificent alpine terrain invites us to explore by sea, land and air to immerse ourselves completely in the remote icescapes of the region. The wild east is ideal for heli landings, paddle excursions, hiking, Zodiac cruises and shore landings.

Days 7 and 8 - The Westlands

We'll sail along the spectacular west coast of Greenland into the Westlands, the same journey the Greenlandic Norse followed to reach the Western fjords. You'll experience the contrast between the Greenland Ice Sheet--the second-largest body of ice on the planet--and the grassy valleys of the coast, which is steeped in Viking history, especially at landmarks such as the Kujataa UNESCO World Heritage site. The latter provides an excellent opportunity to learn about the region's history and cultural traditions, as well as the interaction between Norse and Inuit cultures. We'll explore the mammoth Ice Sheet by helicopter, hike the surrounding foothills, cruise through ice-filled waters,

and engage with local communities. We will visit the small settlement of Qassiarsuk, as well as the remains of Erik the Red's estate of Brattahlíð, both of which offer further insights into South Greenland's history and culture. You will appreciate quite quickly why Erik the Red chose this land as his home and gave Greenland its name: every direction you look rewards visitors with vistas of blue, ice-strewn waters set against a breathtaking backdrop of lush, verdant valleys and green pastures bursting with blooms. Unique to Greenland, and indeed the entire Arctic, warm microclimates deep in the fjords have created a surprisingly fertile Arctic Garden of Eden. South Greenlandic farming traditions dating back to Viking days are still kept alive. Many families work their remote sheep farms along the shores of the fjords, their lives very much attuned to the seasons as they produce a variety of organic homegrown produce (such as potatoes, turnips and kale). Also in the West, we find perfect access points to the Greenland Ice Sheet, which we'll reach by helicopter. You'll enjoy the most incredible views of the largest mass of ice in the northern hemisphere flowing from the heights of the polar plateau to sea level. Become one of the very few people to ever set foot on this incredible body of ice during our included Greenland Ice Sheet Experience. Over these two days you will have the opportunity to explore the Ice Sheet, hike the surrounding foothills, cruise or paddle through the azure ice-filled waters, and engage with our local friends and partners during the most meaningful and in-depth community experiences offered on any Quark Expeditions voyage.

Days 9 to 11 - Arctic Patagonia

We'll transit through the scenic 105-kilometer long Prins Christian Sund (Ikerasassuaq), and explore the dramatic fjords of South Greenland. Our team has planned a visit to the village

of Aappilattoq, where you can experience local culture, music, and traditional foods. The journey continues to the steep-walled 70-kilometer Tasermiut Fjord, known as "Arctic Patagonia," where overnight camping and various excursions are available amidst stunning glaciers and peaks. The maze of fjords, sounds, islets, inlets and skerries (rocky islands) in and around Cape Farewell (Nunap Isua) at Greenland's most southern tip possesses its own particular magic. Transiting the Prins Christian Sund (Ikerasassuaq)--one of the world's most scenic fjords--will be truly unforgettable. Guests can then look forward to dramatic mountain and seascapes with glaciers tumbling down to the sea, and spectacular vistas around every corner. Inhabiting this domain are Southern Greenlanders living on the frontier, a people as unique as the landscape they call home. This is where the migrating hunting peoples from the east finally settled around the European trading posts. The few villages in this southern region have gained a level of fame thanks to the inhabitants who remain steadfastly faithful to their hunting and fishing heritage. As mentioned above, we hope to visit Aappilattoq, perched on the shores of Prins Christian Sund, to introduce you to our local partners and friends. We want our guests to have the opportunity to listen to inhabitants' stories, hear their music, taste their food, learn about their hunting traditions, and perhaps even join a friendly game of soccer as a player or spectator. Your time in Arctic Patagonia will allow you to marvel at the impressive glacier at its head, with rivers of ice tumbling toward the sea, and the imposing peaks of Nalumasortoq and Ulamertorsuaq that dominate the skyline, making for the most scenic backdrops to your hike or helicopter excursion.

Days 12 and 13 - Sailing Southbound across Denmark Strait

As your Arctic adventure winds down, you can take in a polar presentation by our onboard experts, share your photos, sip an icy cocktail in the bar, or watch a movie. This is a great opportunity to ask members of Expedition Team any remaining questions you have about any aspect of your voyage.

Day 14 - Disembark in Reykjavik, Iceland

You'll disembark in Reykjavik, Iceland's capital, at the end of your journey. If you have booked post-expedition accommodation, we provide a transfer to a central downtown location.
