

SOUTH GREENLAND EXPLORER – AURORA BOREALIS EXPEDITION CRUISE

Southeast Greenland offers many historic sites relating to ancient Thule, Norse, and Moravian culture while also allowing us to walk in the footsteps of famed polar explorers like Fridtjof Nansen. Glaciers, icebergs, and fjords make for a dazzling environment where we may see polar bears, and the crossing to Iceland will give us a great opportunity to observe migrating whales and seabirds.

ITINERARY

Day 1: Erik the Red's Base

Your Greenland adventure begins in Narsarsuaq, where you will board the ship to embark on your voyage. In the evening we visit Bratthalid, where Erik the Red lived about a thousand years ago.

Day 2: Uunartoq hot spring

Today we reach Lichtenau, a lovely though nearly deserted Greenlandic village, where the Hermannhutters had a mission in the 18th century and where some of their large German-style buildings still remain. We will then try to get to Uunartoq, where we can bathe in a large hot spring surrounded by icebergs. Across at Vagar, we find the remains of a Norse homestead.

Day 3: Prins Christian Sund mountains

Our eastward passing of Prins Christian Sund is surrounded by mountains of over 1,000 meters (3,300 feet) and is one of the highlights of the voyage. We will try to make a landing at the small village of Augpilaqtoq, where we can still meet some hunters of the area. As an alternative, we may make a landing at Svaerdfiskens Havn.

Day 4: Fjords and glacier fronts

Sailing northward in the East Greenland Current, we aim for Igutsait Fjord or Napassorsuaq Fjord. Both feature glacier fronts and small icebergs, where an isolated population of polar bears was once found hunting seals.

Day 5: Abandoned settlements

Today we land at Tingmiarmit, seeing an abandoned Greenlandic settlement and remains of Thule houses at the north side of the island. Deep into the Tingmiarmiut Fjord, we are again in the area where polar bears hunt seals among the drifting glacier ice.

Day 6: The valley of Mariedal

Next we visit Skjoldungen, one of the most spectacular fjords of southeast Greenland. Our aim is to land at Qornoq, where we'll see houses from the Thule culture, then visit Mariedal and a

beautiful valley where Greenlanders used to collect berries in autumn.

Day 7: In the steps of Nansen

We sail to today's landing at Umivik, where the explorer Fridtjof Nansen ascended the Greenland ice sheet. Here you may even be able to walk a short distance in his steps.

Day 8-9: Denmark Strait's wildlife and auroras

As we sail in Denmark Strait on our way to Iceland, the going can be rough. But be sure to spend some time on deck looking for migrating whales, seabirds, and the magical lightshow of the aurora borealis.

Day 10: Farewell Greenland, hello Iceland

We return from our adventure with memories that will last a lifetime, arriving at the Icelandic port town of Keflavik.

Please note:

All itineraries are for guidance only. Programs may vary depending on ice, weather, and wildlife conditions. Landings are subject to site availabilities, permissions, and environmental concerns per AECO regulations. Official sailing plans and landing slots are scheduled with AECO prior to the start of the season, but the expedition leader determines the final plan.

YOUR SHIP: PLACIUS

YOUR SHIP:	Plancius
VESSEL TYPE:	Expedition
LENGTH:	
PASSENGER CAPACITY:	
BUILT/REFURBISHED:	

M/V "Plancius" was built in 1976 as an oceanographic research vessel for the Royal Dutch Navy and was named "Hr. Ms. Tydeman". The ship sailed for the Dutch Navy until June 2004 when she was converted into an expedition cruise ship..The vessel was completely rebuilt as a 114-passenger vessel in 2009 and complies with the latest SOLAS-regulations (Safety Of Life At Sea). M/v "Plancius" is classed by Lloyd's Register in London and flies the Dutch flag. "Plancius" accommodates 114 passengers in 53 passenger cabins with private toilet and shower in 4 quadruple private cabins, 39 twin private cabins (ca. 15 square meters) and 10 twin superior cabins (ca. 21 square meters).All cabins offer lower berths (either two single beds or one queen-size bed), except for the 4 quadruple cabins (for 4 persons in 2x upper and lower beds).The vessel offers a restaurant/lecture room on deck 3 and a spacious observation lounge (with bar) on deck 5 with large windows, offering full panorama view. Plancius has large open deck spaces (with full walk-around possibilities on deck 3), giving excellent opportunities to enjoy the scenery and wildlife. She is furthermore equipped with 10 Mark V zodiacs, including 40 HP 4-stroke outboard engines and 2 gangways on the starboard

side, guaranteeing a swift zodiac operation.M/v "Plancius" is comfortable and nicely decorated, but is not a luxury vessel. Our voyages in the Arctic and Antarctic regions are and will still be primarily defined by an exploratory educational travel programme, spending as much time ashore as possible. The vessel is equipped with a diesel-electric propulsion system which reduces the noise and vibration of the engines considerably. The 3 diesel engines generate 1.230 horse-power each, giving the vessel a speed of 10 - 12 knots. The vessel is ice-strengthened and was specially built for oceanographic voyages.M/v "Plancius" is manned by 17 nautical crew, 19 hotel staff (6 chefs, 1 hotel manager, 1 steward-barman and 11 stewards / cabin cleaners), 8 expedition staff (1 expedition leader and 7 guides-lecturers)

and 1 doctor.
