SPRING IN THE HEBRIDES

Enjoy Scotland's magnificent coastline, an indented landscape of enormous natural splendour with offshore islands forming stepping stones into the Atlantic. The sheer diversity of the landscapes and lifestyles will amaze you, as will the spirit and warmth of the small communities we will encounter. With our fleet of Zodiacs we are able to visit some of the most remote and uninhabited islands that surround the Scottish Coast including Lunga, Mingulay and St Kilda as well as the small island community of Iona. This is not a cruise in the conventional sense, more an exploration with like-minded companions to enjoy the peace and tranquility of the islands. Learn something of their history, see the abundant bird and marine life, but above all revel in the timeless enchantment that these islands exude to all those who appreciate the natural world. There is no better way to explore this endlessly fascinating and beautiful region than by small ship and ashore, with our local experts we divide into small groups thereby enjoying a more comprehensive and peaceful experience. Having arranged hundreds of small ship cruises around Scotland, we have learned that everyone takes something different from the experience. We are indeed fortunate in having such marvellous places so close to home. Now more than ever there is a great appreciation for the peace, beauty and culture of this special corner of the UK.

ITINERARY

Day 1 - Oban.

Embark the MS Hebridean Sky this afternoon in Oban. Transfers will be provided from Glasgow Central Railway Station and Glasgow International Airport at a fixed time. Enjoy Welcome Dinner and Drinks and sail this evening.

Day 2 - Colonsay & Jura.

Lying between Mull and Islay, we will spend the morning exploring the island of Colonsay, with her craggy, heather-backed hills and sparse woodland yet impressive array of plant and birdlife. Near Colonsay House, built in 1722 by Malcolm MacNeil and bought by Lord Strathcona in 1904, we will visit the attractively dilapidated wooded gardens which protect the tiny, enigmatic 8th century St Oran's Cross. Return to the vessel for lunch as we sail to Jura, arriving in the late afternoon. We will go ashore at Craighouse and will be welcomed in the cooperage where we will be given an introduction to the Jura Distillery and an opportunity to taste the local product. Alternatively, join one of our naturalists on a walk along the shore or join the local bus for a short drive around the island.

Day 3 - Iona, Staffa & Lunga.

Awake this morning at Iona which has been occupied for thousands of years and has been a place of pilgrimage and Christian worship for several centuries. It was to this flat, Hebridean island that St Columba fled from Ireland in 563 and established a monastery. Here his followers were responsible for the conversion of much of pagan Scotland and Northern England. No less than 62 Scottish Kings are buried in the Abbey. Visit the Abbey or perhaps walk along the white sandy beaches or go in search of the corncrake amongst the irises. Later today we hope to drop anchor off Staffa, the south side where the perpendicular rock face feature an imposing series of black basalt columns, known as the Colonnade, which have been cut by the sea into cathedralesque caverns, most notably Fingal's Cave. Weather permitting we will use our Zodiacs to explore closer and northwest of Staffa lie the Treshnish Isles, an archipelago of uninhabited volcanic islets. The island of Lunga is

the largest of the Treshnish Isles in Argyll and Bute. Of volcanic origin, Lunga has been described as 'a green jewel in a peacock sea' and is a summer nesting-place for hundreds of sea birds.

Day 4 - Mingulay & Vatersay.

Today we explore the remote islands at the tip of South Uist including Mingulay and Vatersay. Mingulay, which is nearly 1600 acres is the largest of the group of islands south of Barra. Its towering cliffs and stacks face the Atlantic while the east side slopes gradually down to the sandy beach of Mingulay Bay. Despite there being a continuous population on the island for at least two thousand years, evacuation began in 1907 and the island was completely abandoned in 1912. Ruins of the village remain close to the shore which we will explore on a guided walk. The islands are also a nature reserve with important breeding populations of razorbills, guillemots, puffins, fulmars and shags.

Day 5 - St Kilda & Stac Lee.

This morning arrive at St Kilda, a remarkable uninhabited archipelago some fifty miles beyond the Outer Hebrides. Dominated by the highest cliffs and sea stacks in Britain, Hirta, St Kilda's main island was occupied on and off for at least two thousand years, with the last 36 Gaelic speaking inhabitants evacuated at their own request in 1930. Immediately after the evacuation, the island was bought by the Marquess of Bute to protect the island's thousands of seabirds including puffin and fulmars and in 1957 it was bequeathed to The National Trust for Scotland. St Kilda is one of only two dozen UNESCO World Heritage Sites with dual status reflecting its natural and cultural significance. The local ranger will join us on board before our expedition staff lead guided walks on the island. Later, we will cruise past one of the largest gannetries in the world at Stac

The Small Cruise Ship Collection

small-cruise-ships.com

info@small-cruise-ships.com

Lee. The impressive stacs rise 170 metres from the sea and are home to up to 60,000 breeding pairs of northern gannet.

Day 6 - Isle of Lewis & Shiant Islands.

On leaving the island capital of Stornoway, today's tour takes you across the island to the beautiful west coast and to Callanish. Described as Scotland's Stonehenge, the Callanish Standing Stones date from around 3000 BC. There are a total of 32 stones in a circular and avenue design. The stones stand like a petrified forest on the flat top of a peninsula which reaches out into East Loch Roag. Visit the excellent visitor centre to learn more about the site and venture out amongst the stones themselves to experience their mysterious atmosphere. Continue around the west coast to the site of Dun Carloway Pictish Broch. Probably built sometime in the last century BC, it would have served as an occasionally defensible residence for an extended family complete with accommodation for animals at ground floor level. We then head north to Gearrannan Blackhouse Village, a reconstructed settlement of traditional black houses where people and animals lived in close proximity. The houses are made using dry stone masonry and have thatched roofs, distinctively weighted down with rocks. Visit the Canna House small museum, enjoy a display of a typical crofting activity such as weaving and take in the views at this dramatic site on the wild Atlantic coast. This afternoon we will board the Zodiacs for a cruise around the spectacular basalt cliffs of the Shiant Islands, a group of little islands located a few miles off the shores of Lewis. This is an excellent place to spot puffins, razorbills, guillemots, seals and hopefully white-tailed eagles.

Day 7 - Canna & Loch Scavaig.

Strategically placed between the mountains of Rum and the Outer Hebrides, the island of Canna and its adjoining neighbour

Sanday are bound together like some rare text that reveals over 60 million years of Hebridean geology and history. They have an amazingly rich archaeological landscape with remains dating to all periods of settled occupation in Scotland. Canna is run as a single farm and bird sanctuary by the National Trust for Scotland and enjoys the best harbour in the Small Isles, a hornshaped haven. The fertile soil and its diversity of habitats mean that the island has an incredibly rich plant life with 248 native flowering plants recorded. We will see Canna House and wander across grassy basalt plateaus to the 600 foot cliffs on the north shore. Enjoy lunch as we sail to lovely Loch Scavaig on the island of Skye. Just beyond is the freshwater Loch Corruisk with its breathtakingly beautiful view over the Cuillins. This is great walking country and our expedition team will run a series of hikes for all interests. For those who prefer a less energetic afternoon our Zodiacs will explore the coast looking out for seals.

Day 8 - Oban.

Disembark this morning after breakfast. Transfers will be provided to Glasgow International Airport and Central Station at a fixed time.
