SULAWESI ISLAND ADVENTURE - TOGEAN ISLANDS SMALL SHIP CRUISE

Sulawesi is the world's 11th largest island and looks like a monster letter K sprawling in the centre of the Indonesian archipelago. On this amazing liveaboard adventure, our explorations are largely focused around the Togean islands, situated off Central Sulawesi in the Gulf of Tomini. The 56 islands that make up the Togean archipelago are a nature lover's nirvana, encompassing unspoilt beaches, turquoise waters and vibrant reefs. We explore this water-wonderland by kayak, snorkel and scuba diving, discovering daily the delights of this tropical island paradise. While in the Togean Islands there are opportunities to snorkel with stingless jellyfish in a fresh water lake, hike to the the volcano on Una Una, spy the colourful bird life as we trek along verdant jungle trails and kayak coastlines where, perhaps, only the locals have paddled before us. With remote locations inaccessible by land, a liveaboard allows for far-reaching exploration, creating an unforgettable sense of discovery and adventure. After each day's explorations we return to the boat for delicious meals, very comfortable cabins and well-earned relaxation.

Days 3-10 Explore the islands by kayak, snorkel and diving

Explore the islands by kayak, snorkel and diving. Highlights include Pulau Puah, a remote and beautiful low sandy island surrounded by a fringing reef where we hope to cross paths with local fishers from the Bajo ethnic group paddling their dugout canoes. At Palau Togean, we drop anchor in front of picturesque Karina Beach and make our way to Mariona Lake, best known as Jelly Fish Lake, to swim with stingless jellies! Palau Una Una is framed by striking black sands and ringed by coconut palms and turquoise seas. The island's forests are alive with birds such as bright blue kingfishers and red long tailed pigeons.

Day 11 Gorontalo

Arrive Gorontalo*, Northern Sulawesi. Trip concludes.

The 28 Sep-8 Oct 2026 date is in reverse and finishes in Luwuk.
