

SVALBARD 10 DAY SUMMER SOLSTICE MICRO CRUISE

Our extended micro cruise sets sail when the midnight sun is at its zenith, scouring the ice edge in the far north of Svalbard for unforgettable wildlife encounters. In the glowing 24-hour sun of the Svalbard summer, experience Arctic wildlife in their natural habitat. Make the most of the superior conditions on an intrepid itinerary, where great swathes of the archipelago bring a new encounter with the wild. See Svalbard come alive with wildlife. Our longest micro cruise sets sail when the Svalbard day is at its longest, giving you the perfect conditions and all the time you need to scout the ice edge far to the north of the archipelago and capture beautiful, indelible wildlife images. Over the course of a full fortnight's exploration, our guides will help you scope out incredible opportunities along the ice edge. Sailing under the midnight sun, this micro cruise maximises the extended daylight hours at the height of summer, when Svalbard's wildlife is at its most abundant.

ITINERARY

Day 1 Longyearbyen

Depart Longyearbyen at 4pm.

Sail past striking Fuglefjella (Bird Mountain), a fine example of plateau mountainous landscape, as we leave Longyearbyen.

Alkhornet, at the opening of Isfjorden, showcases the change in geology from plateau to edge-dominated, alpine mountainous landscape.

Days 02–03

Explore Poolepynten, a headland on Prins Karls Forland, home to a walrus colony and burial site.

Visit Ny-Ålesund Research Station, the world's northernmost year-round research facility, and Kongsfjorden, with landings and cruises to its two glaciers, Kronebreen and Kongsbreen.

Sail along the continental shelf, scouting for fin and blue whales

that gather in the upwelling zones.

Days 04–07

Search the ice edge, a dynamic setting of texture and light, home to seals, seabirds, and polar bears.

Marvel at Alkefjellet, a stunning bird cliff, nesting location of Brunnich guillemot.

Take a Zodiac cruise to see Storisstraumen and a ship cruise to Brasvellbreen of the Austfonna ice cap, Europe's third-largest glacier by volume and area.

Explore the island of Kvitøya, taking in the walrus colony and cultural remains of the Andreeneset headland.

Day 08

Hike on an area of Sjuøyane, or "Seven Islands", the northernmost part of Svalbard, home bird cliffs, overflowing in the summer with black guillemots, ivory gulls, and kittiwakes, cultural remains, and walrus haulouts.

Days 09–11

Cruise down Liefdefjorden, standing in awe where the Monaco glacier meets the sea, and/or landing at Texas Bar, an historic trappers' hut.

See the historical site at Bruceneset in beautiful Alicehamna bay, during a Zodiac cruise or hike.

Take a fjord cruise down Magdalenefjord, with its stunning natural architecture of pointed mountains.

Stand before Lilliehook glacier, in search of calving ice.

Tour St. Johnsfjord, landing at Copper Camp to view cultural remains.

Sail past Alkhornet (Bird Mountain), home to extensive seabird colonies, and marvel at Sveabreen, one of Svalbard's largest and most active glaciers. Return to Longyearbyen.

Day 12

Disembark in Longyearbyen at 9am.

Please note:

Itineraries are subject to change.

YOUR SHIP: FREYA

YOUR SHIP:	**Freya**
VESSEL TYPE:	**Ice Class Small Ship**
LENGTH:	**45 meters**
PASSENGER CAPACITY:	**12**
BUILT/REFURBISHED:	

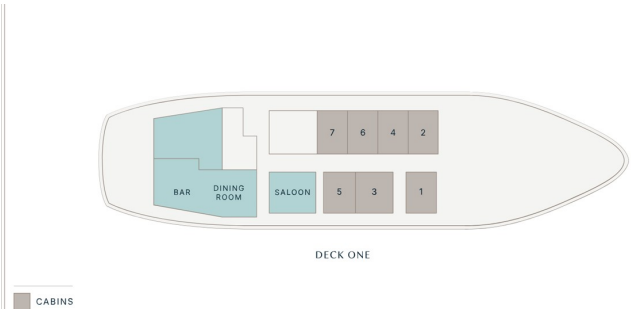

Explore the Arctic in style aboard our small expedition ship, the MV Freya.
