

SVALBARD ADVENTURE ABOARD SJOVEIEN

The midnight sun reigns supreme, the bird colonies are teeming with life and the peaks of the dramatic mountain ranges are beautifully snow-covered. The ice still keeps the islands in its grip and we can admire the ever-changing ice formations. This Arctic pearl has fascinated explorers for centuries, starting with Willem Barentzs, who discovered the main island Spitsbergen in 1596.

ITINERARY

Day 1: Longyearbyen

We arrive in Longyearbyen and transfer to our hotel.

Day 2 – 8: Svalbard

We start our adventure in Svalbard by exploring Longyearbyen. In the afternoon we embark the expedition ship M/S Sjøveien and sail out through Isfjorden. We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to make landings or cruises every day with our Zodiacs. Here are some examples of places we may visit: Prins Karls Forland This narrow strip of land is covered by a magnificent and snow-covered mountain chain. The island is also home to many seabirds and harbour seals.

Virgohamna, Danskøya Two of the most courageous attempts to reach the North Pole started on the island of Danskøya. Swedish balloonist Andrée made an attempt with a hydrogen balloon and American journalist Wellman started with an airship. There are still interesting remnants from these expeditions left on this site. Fantastic fjords Svalbard offers the visitor countless spectacular fjords. During our journey we will explore a few of them such as: Liefdefjorden, meaning “The fjord of love”, is lined with snow-covered mountain peaks and here we hope to cruise along the face of the spectacular Monaco Glacier. Many common eiders and pinkfooted geese nest in the area and if lucky we see the rare king eider. In Krossfjorden we revel in the beautifully sculptured front of the 14th of July Glacier to the raucous greeting of the large number of kittiwakes and Brünnich’s guillemots nesting on the nearby cliffs. Raudfjorden is an area of immense natural beauty – dominated by beautiful glaciers. It is also a favourite spot for seals and the bird cliffs are bursting with activity. The scientific village of Ny Ålesund is situated in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole. North Spitsbergen North of Spitsbergen we might meet the edge of the pack ice. Not many ships venture here and we can marvel at the silence and grandeur of this icy landscape. Chances of meeting polar bears increase as we sail along the ice floes. Southwest Spitsbergen The grand fjords of Hornsund offer spectacular glaciers and a breathtaking landscape of towering mountain peaks, often reaching above the clouds. On a clear day we can see the summit of the highest mountain Hornsundtind, measuring 1431 meters. Hornsund is a favourite haunt for some of Svalbard’s polar bears and bearded seals are often seen resting on the fjord ice.

Early morning we disembark our expedition ship and begin our journey back home.

Please Note:

Our exact route will depend on ice, weather conditions and wildlife. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximise your experience. Please remember that flexibility is the key to a successful expedition!

Day 9: Longyearbyen

YOUR SHIP: SJOVEIEN

YOUR SHIP: Sjøveien

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

M/S Sjøveien (meaning the Seaway) was built in Bergen in 1964 for the Norwegian Government and she worked for them in various capacities. From 1979 until 1995 she was used as a training ship for mariners. Since 1995 she has been in private ownership and during the many years since, worked for the Norwegian coast guard. After being a hotel ship for the past few years, she is now being refurbished into a classic and exclusive passenger ship and will set sail towards Svalbard in the early summer of 2017. She is a true beauty with wooden decks and vintage details. There is a lot of deck space on the main deck and there is also an excellent area on top of the bridge, from where you have wonderful views of the magical Svalbard scenery. To accommodate a maximum of 12 passengers there are eight outside cabins, all with private facilities. On the lower deck there are four twin cabins with portholes. On the main deck there are two larger twin cabins with windows and one large superior cabin with a double bed and windows. The eighth cabin is located on the upper deck and is a large superior cabin with windows. The dining area on the main deck is where you are served breakfast, lunch and dinner. Here is also a lounge area where you can relax with a cup of tea or coffee and listen to

interesting talks by the guides. There is an international crew on board who speak English and the bridge is open

for visitors.
