

THE GREENLAND EXPLORER: ICELAND TO GREENLAND EXPEDITION

Throughout the Iceland to Greenland luxury cruise, you will visit numerous remarkable sites. Explore Reykjavik's iconic Hallgrimskirkja church and Harpa Concert Hall, marvel at Greenland's majestic fjords, and wander through the historic streets of Nuuk. Experience the otherworldly beauty of Skjoldungen's ice-filled fjord and the vibrant Inuit village of Aappilattoq. In Disko Bay, witness the stunning glaciers and wildlife at the UNESCO-listed Ilulissat Icefjord. This extraordinary Iceland to Greenland luxury cruise offers a variety of immersive activities for every traveler. Participate in onboard lectures and refine your photography skills with expert guidance. Discover the thrill of observing marine life in their natural habitat or enjoy an optional kayaking experience with the expedition team. Each stop presents an opportunity to engage deeply with the region's stunning landscapes and vibrant cultures.

ITINERARY

Days 0 - 1 Pre Cruise & Reykjavik

Charter flights to the port of embarkation/disembarkation

One night pre-cruise accommodation with breakfast in a 4/5-star hotel (exemptions apply)

Make sure there is sufficient timeto explore this diminutive but dramatic capital city. Despite its small size, you won't be short of things to see and do. To get your bearings, take the elevator to the top of Hallgrimskirkja. This church, designed by famed Icelandic architect Gudjon Samuelsson is one of the most distinctive buildings in town. When you return to earth, visit the city's other renowned building Harpa Concert Hall, located at the heart of Reykjavik's regenerated harbour - also the home of the Maritime Museum. Speaking of cultural spaces, tour the National Museum to learn the story of Iceland from past to present. The Reykjavik Art Museum houses an impressive

contemporary collection including eye-catching pieces by Erro. And, of course, just 50 kilometres outside the city lies Thingvellir National Park, the site of Iceland's original Viking parliament.

Day 2. Day at sea

Sea days are rarely dull. Take the time to sit back and let the world go by. The ship's observation decks provide stunning views of the passing ocean. A day at sea gives you the opportunity to mingle with other passengers and share your experiences of this incredible trip or head to our library which is stocked full of reference books. Get an expert's view in one of our on-board lectures or perhaps perfect your photography skills with invaluable advice from our onboard professional photographers

Day 3. Skjoldungen

On the craggy east coast of Greenland, the stunningly scenic, U-shaped Skjoldungen Fjord is surrounded by lofty snow-capped mountains, dwarf birch, Arctic wildflowers and willow forests ending with the Thrym Glacier. High rock walls, serpentine rivers and large crevasses of ice pillars known as seracs give way to carved icebergs in the fjord that gleam in a white to blue spectrum. You might also have the opportunity to see whales

Day 4. Cruising Prins Christian Sund

The remote and beautiful Prins Christian Sund fjord carves a dramatic path between magnificent granite cliffs and glaciers, offering a stunning panorama of icebergs, rugged peaks and crystal-clear waters. Stretching 100 km at the southernmost tip of Greenland, this long and winding passage separates the mainland from Sammisoq and the Cape Farewell Archipelago, creating a breathtaking waterway that captivates adventurers and nature lovers alike

Day 4. Aappilattoq

Colourful Nordic houses stand against dramatic mountain ridges encircling Aappilattoq, a remote Inuit village in Greenland's Prins Christian Sund. Accessible only by boat or helicopter, Aappilattoq is home to around 100 rugged individuals who make a living through fishing and hunting. Often called the southernmost inhabited area in Greenland, Aappilattoq is in fact at the midpoint of the east and west coasts

Day 5. Gronnedal

Kangilinnguit, formerly Grønnedal, is a historic spot in southwest Greenland and an area of exceptional natural beauty. Once a key U.S. WWII naval base, it lies near Ivigtut and the cryolite mine in scenic Arsuk Fjord. Ships navigate a narrow channel past the Kajartalik lighthouse, Arsuk village and Kungnat Bay, where dramatic landscapes unfold, including the towering 4,600-ft Mt. Kungnait and the breathtaking Arsuk Glacier at the fjord's head

Day 5. Ivittut

The deserted mining town of Ivittuut (formerly Ivigtut) was once vital for WWII aircraft production with the world's largest reserve of cryolite, a mineral used in aluminium production. Abandoned houses, the enormous mine pit and above-ground cemetery reveal the history of this settlement. Scattered cryolite chunks

on the rocky shore mix with relics like old engines from when Inuit used cryolite for snuff. Now only muskoxen roam this eerie place

Day 6. Nigerdlikasik Fjord & Glacier

Nigerdlikasik, at the end of Kvanefjord, is a remote and relatively untouched wilderness offering solitude and stunning views of steep cliffs, mountains and the Nigerdlikasik Brae, a small glacier ice field. The glacial ice creates dramatic scenery with ice formations, meltwater streams, steep cliffs and valleys. Carved by ancient ice, the fjord's volcanic geology and rare-earth mineral deposits make it visually and geologically significant

Day 7. Nuuk

Home to more than a third of Greenlanders, the capital of Greenland has a thriving cultural scene including the Greenland National Museum, home to the world-renowned Qilakitsoq mummies. Also known by its Danish name of Godthab (Good Hope), Nuuk's bustling harbour features Nuuk Cathedral and colourful wooden houses, alongside modern architecture. Nuuk also serves as a gateway to Inuit experiences and adventures in the surrounding fjords and mountains

Day 8. Evigheds Glacier

The Evigheds Glacier, a majestic outflow from the Greenland Ice Sheet, carves through the dramatic Kangerlussuatsiaq Fjord, also known as Eternity Fjord. This 75-km-long waterway is a haven for wildlife, with white-tailed eagles and black-legged kittiwakes soaring above. Calving icebergs showcase Greenland's raw beauty, but sadly like many glaciers, it is slowly retreating due to global warming's impact on this fragile Arctic ecosystem

Day 9. Qeqertarsuaq

Qeqertarsuaq is the largest town on Disko Island, Greenland's largest island, where colourful houses pop against dramatic red basalt mountains. Overlooked by striking Lyngemark Glacier, the area is shaped by its volcanic origin, unique terrain featuring dramatic basalt columns, rolling hills black sand beaches. Thanks to its relatively fertile landscape, it supports unique plant species, such as wild angelica, rarely found elsewhere in Greenland

Day 10. Eqip Sermia Glacier

Eqi Glacier, or Eqip Sermia in Greenlandic, is one of Greenland's largest and most active calving glaciers, spanning nearly 4 km wide and towering over 200 m. Visitors can almost always witness calving, where pieces of ice break off the glacier's face, creating deafening bangs and giant splashes that send waves across the bay. The contrast between thunderous calving and the ensuing silence provides a glimpse of Greenland's dynamic icy landscape

Day 11. Ilulissat, Disko Bay

Sailing through the iceberg capital of the world to Disko Bay, the Ilulissat Icefjord is one of the cruise highlights. Given UNESCO World Heritage Site status, the Ilulissat Icefjord is a popular tourist destination, and thanks to the productive Sermeq Kujalleq glacier, thousands of gargantuan icebergs calve from the Greenland ice cap into the sea. The city of Ilulissat is home

to many sled-dogs

Day 12. Sisimiut

The second largest town in Greenland, just above the Arctic Circle, Sisimiut remains remarkably ice free in winter and is known as an adventure sports hub all year round. Inhabited for more than 4,500 years by the Dorset, Thule and eventually the Inuit people, dog sledding remains a vital form of transportation. The area is home to humpback whales and Arctic foxes in their summer coat

Day 13. Kangerlussuaq

Once a WWII airbase at the head of Kangerlussuaq Fjord, Kangerlussuaq's history is told at the airport's museum, showcasing Inuit artefacts. This ice-filled glacial area and tundra is a haven for wildlife, including reindeer, arctic foxes, arctic hare, gyrfalcons and around 10,000 muskoxen

Charter flights to the port of embarkation/disembarkation

Group return transfers from airport to cruise port and to the hotel (where included)

YOUR SHIP: VEGA

YOUR SHIP: **Vega**

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

Launched in 2022, this state of the art ship has been designed to journey to off the beaten path destinations and remote polar regions in style and comfort. The ship incorporates a PC5 ice-strengthened hull combined with extra-large stabilisers to make your journey as smooth as possible. Sophisticated Elegance. We know how important outdoor space is, so our spacious, relaxing public spaces provide wide open, unobstructed views throughout the ship. The destination will always be in view. Your Wellbeing. The safety & happiness of our guests is paramount to our 120-strong crew on board as well as our passionate expedition team who'll be serving up thrilling shore excursions and lasting memories. Cabin Types. Our 76 cabins including 6 suites have all the amenities you will need to feel comfortable including dressing gowns, hairdryers, personal safes and minibars. Our stylish cabins all have desks, a dressing area and comfy seating. En suite bathrooms all feature glass-enclosed rain showers. Wheelchair access Guests who use wheelchairs must bring their own, as we have only a small number of wheelchairs stored onboard for emergencies. To ensure ease of movement on the ship, wheelchairs and mobility aids must be no wider than 65cm. All mobility or medical equipment brought on board must be capable of being carried safely and must be declared before sailing. To ensure that all guests can safely evacuate during an emergency, guests requiring a wheelchair can only be accommodated in our ADA-accessible cabins. We offer an Oceanview stateroom on Vega which is specifically designed to be completely ADA compliant and have a fully operable wheelchair-access wet unit. Vega has two lifts, serving every passenger deck apart from the Stargazing top deck, which is, therefore, more difficult to access, as are the Aft Marina and Swan's Nest forward observation platform. Also, we don't have special equipment to access the swimming pool, jacuzzi, or sauna. Otherwise, the ship is entirely at your disposal. Many of the expeditions ashore in remote places are by Zodiac. Boarding these boats and returning aboard can present challenges for wheelchair users, as can navigating uneven terrain. These challenges are by no means always insurmountable, though, and our highly experienced crew is trained to provide reliable advice and assistance. They will make every effort to ensure wheelchair-using guests enjoy a memorable experience at each destination. Our general guidance, however, is to recommend wheelchair users travel with a companion for their ease and enjoyment. If you prefer to remain aboard, our panoramic interiors and ample open decks ensure an immersive, intimate experience of your inspiring

surroundings.
