

THE ICONIC NORTHWEST PASSAGE – ACROSS THE TOP OF THE WORLD

ITINERARY

YOUR SHIP: ROALD AMUNDSEN

YOUR SHIP: **Roald Amundsen**

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

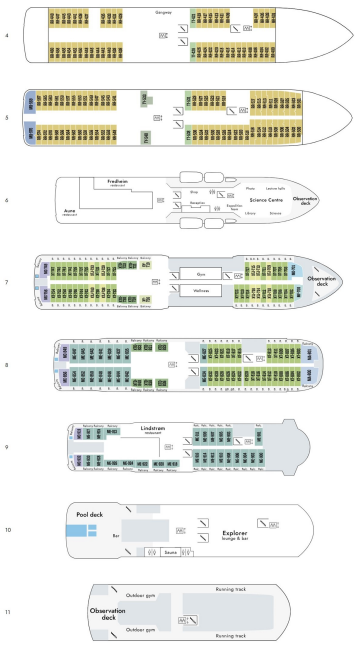

Launched in 2019, The state of the art vessel features new and environmentally sustainable hybrid technology that will reduce fuel consumption and show the world that hybrid propulsion on large ships is possible. MS Roald Amundsen is the first of two hybrid ships to be launched cutting emissions by sailing with electrical propulsion. Hybrid technology, combined with the advanced construction of the hull and effective use of electricity on board will reduce fuel consumption and CO2-emissions on the ships by 20 percent. The future of shipping will be silent and emission free. MS Roald Amundsen will lead the way towards an even more sustainable way of traveling. Sailing on electrical power is not only a great benefit for the environment, but it will also enhance the impact of experiencing nature for the guests. The ship will be specially constructed for voyages in polar waters and serve as a comfortable basecamp at sea - bringing adventurers from all over the world to the most spectacular destinations in the most sustainable way. These ships combine state-of-the-art technology together with a premium onboard experience. All cabins are outside, half have private balconies, and aft suites even boast private outdoor Jacuzzis, to soak up the stunning scenery in style. Facilities on board One of the most eye-catching exterior design features of the ships will be the two-level indoor/outdoor Observation Deck wrapped around the top of the ships' raked bow. In a vast area behind it, you'll find the core of the onboard experience: Amundsen Science Center. Packed with state of the art technology and high tech gadgets such as touch screens and science equipment, the immersive edutainment area will be the place guests and staff/crew meet, mingle and create a deeper understanding for the areas they explore. The flexible venue will feature lecture spaces, a small library, and speciality areas for workshops in photography, biology, and more. The stunning scenery will be reflected in a rich and comfortable interior design. Scandinavian materials from nature, such as granite, oak, birch and wool will be used to create relaxed and stylish cabins and public areas. All cabins are outside, 50 % will have private balconies, aft suites will feature private outdoor Jacuzzis with

spectacular views.
