enter a fascinating realm. In the "Land of Morning Calm", at the south-eastern tip of the Korean Peninsula, the city of Busan conjures up the many faces of Asia. Here, traditional ceremonies and historic temples still have their place alongside more modern aspects. A trip on the Sky Capsule, a four-seater elevated rail carriage, offers impressive views of Busan's coastline and hills. The city is also the starting point for discovering the relics of the old Silla dynasty and sacred sites in the form of colourfully embellished temples. Get a sense of the Koreans' close relationship with nature along the dramatic coastline with its small suspension bridges. You can also satisfy your hunger for adventure with insights into the traditional lifestyle and local cuisine, including the Korean "fire meat" bulgogi.

#### Day 4 Karatsu/Japan

Karatsu/Japan, 07.00 - 15.30 hrs

Your cruise offers plenty of opportunities for individual discoveries - explore the centre of the coastal resort and the sandy beaches in Karatsu, for instance, or wander through its pine forests. You will be rewarded with profound insights into Japanese culture and nature. Opt to explore on your own or take a group excursion with your experts: Karatsu Castle is one of the most beautiful in Japan and is well worth a visit. The pagoda-style gem sits majestically on top of a hill. Whether you climb up or take the lift, from the top floor observatory you can enjoy far-reaching panoramic views over the historic region.

#### Day 5 Hiroshima

Hiroshima, arrival 08.00 hrs

Hiroshima symbolises a very eventful period in modern history -

your exploration of the area will be shaped by memorials. Tracing the tragic events of 1945 will take you to the Peace Memorial Park, designed by star architect Kenzo Tange. Together with your experts on board, who will provide a commentary for your visit, experience Hiroshima as an impressive place of historic reflection, as well as a symbol of hope and new beginnings. Hiroshima Castle, also known as Rijo, will take you back to times long past. It is a perfect example of Japanese architecture in the traditional pagoda style and its museum tells the story of the samurai. With its variety of miniature landscapes, the Shukkeien Garden displays Japanese landscape gardening as an art form: pause for a while at the tea houses and Koi carp ponds to find inner peace and serenity.

#### Day 6 Miyajima

Hiroshima, departure 06.00 hrs

Miyajima, 07.00 - 18.00 hrs

The picturesque coastline of the sacred island of Miyajima has inspired both art and literature. On an independent shore visit, discover its allure and one of Japan's famous landmarks: the Itsukushima Shrine, one of the most photographed places in the country and a symbol of the ancient veneration of nature characteristic of Shintoism. At high tide, its 16 m (52 ft) high Torii, a red gate made of camphor wood, reflects in the water and appears to float there. There are over a hundred thousand Shinto shrines in Japan and this one is not only the most famous, but also one of the most beautiful.

#### Day 7 Beppu

Beppu, 09.30 - 22.30 hrs

During lectures and talks on board, your experts will also talk

about Japan's location on a geological fracture zone of four tectonic plates. The resulting hydrothermal activity is, amongst other things, the basis for the onsen baths with healing hot springs. The spa city of Beppu demonstrates how bathing rituals shape Japanese culture. There are more than 2,000 of these healing baths in Japan, which is hardly surprising for a country in which almost every mountain is a volcano. Onsen are a great place to relax and unwind and enjoy their healing properties. Even the samurai asked for support from the deities while bathing in an onsen. Immerse yourself in this relaxing tradition.

Day 8 Relaxation at sea

Day 9 Maizuru

Maizuru, 08.00 - 19.00 hrs

Maizuru, with its charming red brick buildings, opens the doors to a world full of history - your experts on board will become passionate narrators as they shed light on the various chapters of Japan's past. Former naval buildings and numerous museums reflect the importance of the port during the Russo-Japanese War of 1904/05 and the city's development into a naval base. Here, your understanding of the Far Eastern world of faith will also unfold like a "crane spreading its wings", which is what the name Maizuru means. The city is the perfect starting point for visiting the spiritual centre of the country: Kyoto - the old imperial city with countless temples and lavishly decorated shrines is a highlight of this cruise.

Day 10 Kanazawa

Kanazawa, 07.00 - 19.00 hrs

Kanazawa is famous for its gold leaf production, which has been

perfected here over the centuries. The skill required to process the precious metal into wafer-thin sheets has earned the city an international reputation as the "gold leaf capital". The architecture and cultural history of the town have a glitter of their own. In the traditional geisha district, you can visit many of the well-preserved tea houses from the Edo period, where geishas once entertained their guests. Another district offers an insight into the lifestyle of the samurai, with historic houses, traditional Japanese gardens, tatami mats and original furniture. By contrast, the famous Kenrokuen Garden perfectly combines spaciousness and seclusion, artistry and tradition, coolness and harmony.

Day 11 Sado Island

Sado Island, 08.00 - 18.00 hrs

In Japan, fishing is considered a male domain, but on Sado Island, women have carved out a niche for themselves in the fishing industry: they fish from flat, round, wooden barrel boats - a unique cultural heritage. With the increasing mechanisation of fishing, the number of women fishing from these barrel boats has fallen sharply. Nevertheless, efforts are being made to preserve this unique tradition and pass it on to future generations.

Day 12 Akita

Akita, 08.00 - 17.00 hrs

As in many regions of Japan, the samurai caste was once an important part of society in Akita Prefecture - the samurai were feudal rulers and warriors known for their loyalty and military service. The city of Akita is an invitation for you to explore the old samurai district of Kakunodate with its traditional

architecture. The Akita, an ancient Japanese dog breed, is said to have been the samurai's faithful companion. In 1931, it was declared a national treasure by Emperor Hirohito. The Akita Museum of Art is a more modern creation: the iconic building with a free-standing staircase and triangular skylight was designed by the renowned architect Tadao Ando

#### Day 13 Hakodate

Hakodate, 07.00 - 17.00 hrs

At the south-eastern tip of Japan's second largest and northernmost main island, Hokkaido, lies the city of Hakodate, dominated by its local mountain at 335 m (1,099 ft) above sea level. From its summit or from the Goryokaku Tower, you can enjoy beautiful views of the city with its famous star-shaped fortress. Hakodate was one of the first Japanese ports to open to foreign ships in 1854. This led to the development of the historic Motomachi district, with its 19th century buildings in the European style. Also of architectural interest is the Future University Hakodate designed by Tokyo architect Riken Yamamoto: with features from 1970s structuralism, the building is a successful example of the high-tech style made famous by Norman Foster.

#### Day 14 Tomakomai/Japan

Tomakomai/Japan, arrival 07.00 hrs
