ITINERARY

Day 1: Arrival to Oslo (hotel night)

Welcome to Oslo, which in 2019 was awarded the prestigious title "Green Capital of Europe". We've arranged a comfortable stay for you at an Oslo Airport hotel so that you're conveniently close for your flight to Longyearbyen on Day 2. If you're adventurous and have the time, take the handy airport train into central Oslo – it's a 20-minute ride and trains depart and arrive frequently during the day. Near Oslo Central Station are shops, cafes, the Botanical Garden, cultural attractions and the attractive waterfront area.

Day 2: Welcome Aboard!

Today you have a flight to Longyearbyen, the administrative center of Svalbard and starting point of our Arctic expedition! At the Longyearbyen airport, you will be greeted by our staff and

transferred to the pier where we will warmly welcome you aboard the deluxe expedition vessel M/V Sea Spirit. Get settled in your spacious suite and explore the ship that will be your comfortable home during the extraordinary adventure to come. Once underway, a full schedule of events kicks off with informative briefings and introductions from your expedition staff. After the first of many delicious dinners on board, step out onto the open decks to admire the gorgeous scenery in endless evening light as we pass through the wildlife-rich waters of Isfjorden, one of the largest fjords in Svalbard.

Day 3-9: West Svalbard and Polar Ice Edge

The itinerary for this voyage focuses on the spectacular fjords, coasts and islands of western Spitsbergen, the main island of the Svalbard archipelago. This area contains Svalbard's most impressive scenery and some of the Arctic's best wildlife viewing opportunities. Our exact schedule and route will be shaped by the weather and ice conditions we encounter. Polar bears and other iconic Arctic animals can be spotted at anytime, anywhere in our area of exploration. One of the pristine natural areas on this itinerary is South Spitsbergen National Park, a vast region of varied landscapes including polar deserts and impassible mountain ranges. The centerpiece of this park is Hornsund, a picture-perfect fjord where countless mighty glaciers cascade from soaring mountaintops into icy inlets. At this time of year, we are sure to encounter fast ice—that is, sea ice that is fastened to the shore. This situation offers an excellent chance of observing polar bears on the hunt for ringed seals. The park also includes the southern shores of Bellsund, a picturesque bay where we find the remains of historical whaling operations, including wooden boats, cabins and thousands of whale bones—a scene from the distant past, literally frozen in time.

This area also offers great hiking opportunities through landscapes rich with Arctic flora and birdlife, as well as fascinating geology. Also on our route is Northwest Spitsbergen National Park, the crown jewel of Svalbard's scenic wonders. Here we find deep fjords flanked by serrated mountain peaks and immense tidewater glaciers calving icebergs into turquoise waters. The whole area is alive with migratory Arctic seabirds. On this voyage, we are just in time to witness the return of millions of murrelets, guillemots and little auks to the small islands, mountainsides and sea cliffs where they breed within the park. This is also a great area to encounter marine mammals, including various kinds of whales and Arctic seals. Set among this incredible scenery and wildlife activity, we also find evidence of Svalbard's earliest sealers and whalers. Our area of exploration also includes gorgeous Forlandet National Park. Here we find Prins Karls Forland, one of the best places in Svalbard to observe herds of walrus hauled out on land. Also along the route is North Isfjorden National Park, where we have the chance to observe endemic Svalbard reindeer grazing and Arctic fox romping in lush tundra meadows. Human habitation along our route can be found at Ny Ålesund, a former mining town and airship base that is now home to an international community of Arctic researchers. This is one of the world's most northerly settlements where we find a museum, gift shop and post office. In addition to exploring the terrestrial environment and inshore waterways of western Spitsbergen, we make a special effort to reach the edge of the polar pack ice. At this dynamic boundary between solid sea ice and open ocean, we have an unparalleled opportunity to witness the dramatic interplay between polar bears and seals. We will take the ship as close as safely possible to the jumbled and constantly shifting ice floes in the hope of observing polar bears hunting in

their preferred habitat. At this time of year, the ice edge is not far from mainland Spitsbergen and our sailing time in open seas will be relatively short. The West Svalbard and Polar Ice Edge route offers a stunning variety of Arctic landscapes and animals with minimal sailing time between excursions. Every day offers something new and exciting. We will not miss a single opportunity to encounter amazing Arctic wildlife, to witness incredible polar scenery, and to walk in the footsteps of historic expeditions that came before.

Day 10: Disembarkation in Longyearbyen, Svalbard

After filling up with one last buffet breakfast on board, we bid you farewell in Longyearbyen and provide transfers. By this time, you may already be making plans for your next amazing trip with us into the polar worlds!
